## INSPECTORS REPORT

Operator: Antero Resources Corporation

API Number: 47-017-06805

FINDING: This well is being plugged by Stalnaker for Antero. It is an old well that they found while constructing the Strickling pad. It was not on any maps and was assigned this number when they requested a plugging permit. Stalnaker has moved onto location and set up. They loaded the hole and are waiting on the wireline truck to run a bond log. Everything looks good on site. No environmental issues.

Does this inspection identify any dust issues? \_\_\_ YES  NO If yes, explain.

Daniel A. Flack

Oil and Gas Inspector
