WELL WORK PLUGGING PERMIT
Not Available Plugging

UNKNOWN - DEP PAID PLUGGING CONTRACT
601 57TH STREET

CHARLESTON, WV 25304

Re: Permit approval for 90163
 47-029-00147-00-00

This well work permit is evidence of permission granted to perform the specified well work at the location described on the attached pages and located on the attached plat, subject to the provisions of Chapter 22 of the West Virginia Code of 1931, as amended, and all rules and regulations promulgated thereunder, and to any additional specific conditions and provisions outlined in the pages attached hereto. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations, and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing. Spills or emergency discharges must be promptly reported by the operator to 1-800-642-3074 and to the Oil and Gas Inspector.

Upon completion of the plugging well work, the above named operator will reclaim the site according to the provisions of WV Code 22-6-30. Please be advised that form WR-38, Affidavit of Plugging and Filling Well, is to be submitted to this office within 90 days of completion of permitted well work, as should form WR-34 Discharge Monitoring Report within 30 days of discharge of pits, if applicable. Failure to abide by all statutory and regulatory provisions governing all duties and operations hereunder may result in suspension or revocation of this permit and, in addition, may result in civil and/or criminal penalties being imposed upon the operators.

Per 35 CSR 4-5.2.g this permit will expire in two (2) years from the issue date unless permitted well work is commenced. If there are any questions, please feel free to contact me at (304) 926- 0450.

James A. Martin
Chief

Operator's Well Number:
Farm Name: GARDENER, MARGARETE A.
U.S. WELL NUMBER: 47-029-00147-00-00

Date Issued: 7/14/2025

PERMIT CONDITIONS

West Virginia Code §22-6-11 allows the Office of Oil and Gas to place specific conditions upon this permit. Permit conditions have the same effect as law. Failure to adhere to the specified permit conditions may result in enforcement action.

CONDITIONS

1. In the event of an accident or explosion causing loss of life or serious personal injury in or about the well or while working on the well, the well operator or its contractor shall give notice, stating the particulars of the accident or explosion, to the oil and gas inspector and the Chief within twenty-four (24) hours.
2. Well work activities shall not constitute a hazard to the safety of persons.
3. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing.

**BEFORE THE OFFICE OF OIL AND GAS
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STATE OF WEST VIRGINIA**

**IN THE MATTER OF A VARIANCE FROM)
LEGISLATIVE RULE 35CSR4) ORDER NO. 2022-13
SECTION 14.1. AND LEGISLATIVE RULE)
35CSR8 SECTION 20.1,)
RELATING TO THE CEMENTING)
OF OIL AND GAS WELLS)**

REPORT OF THE OFFICE

In response to industry requests, the West Virginia Department of Environmental Protection, Office of Oil and Gas has reviewed the proposed use of American Petroleum Institute (API) Class L cement to be used in place of API Class A cement for well plugging.

FINDINGS OF FACT

1. On July 28, 2022, Diversified Gas & Oil Co. (DGO) submitted a variance request from Legislative Rule 35CSR4 for the use of API Class L cement in place of API Class A cement, relating to the plugging of conventional wells.
2. Laboratory analysis submitted by DGO on July 28, 2022, indicates API Class L cement is comparable to API Class A cement and thereby satisfies the requirements of the West Virginia Code.
3. Contemporaneously, the Chief of the Office of Oil and Gas also chose to consider a variance to Legislative Rule 35CSR8 Section 20.1., for the use of API Class L cement in place of API Class A cement, relating to the plugging of horizontal wells.

4. On August 18, 2022, the Office of Oil and Gas provided public notice of acceptance of public comments on the variance consideration. During the 20-day public comment period, no comments were received.

CONCLUSIONS OF LAW

Pursuant to Article 6 and Article 6A, Chapter 22 of the Code of West Virginia, the Office of Oil and Gas has jurisdiction over the subject matter, and the persons interested therein, and jurisdiction to promulgate the hereinafter prescribed Order.

Pursuant to Legislative Rule 35CSR4, Section 18 and Legislative Rule 35CSR8, Section 14, the Chief of the Office of Oil and Gas may grant a variance from any requirement of these rules.

ORDER

It is ordered that the Class L cement product approved and monogrammed by API is approved for use in place of API Class A cement for well plugging subject to the provisions of Legislative Rule 35CSR4 and Legislative Rule 35CSR8.

Dated this, the 13th day of September, 2022.

SUBJECT: Notice of Application to Plug and Abandon a Well

Dear Mr. Gower:

Enclosed is the permit application for well API Number 47-029-00147 that North Wind Response and Reclamation plans to plug and abandon under Agency Purchase Order DEP2500000304 with the Department of Environmental Protection Office of Oil and Gas. This well is located on land of surface owner Margarete A. Gardener.

Please feel free to reach out to me if you have any questions or concerns, at greg.hunt@northwindgrp.com or 541-944-5472.

Sincerely,

A handwritten signature in black ink that reads "Gregory W. Hunt". The signature is written in a cursive, flowing style.

The undersigned well operator is entitled to operate for oil or gas purposes at the above location under a deed / lease X / other contract / dated 1/17, 1982, to the undersigned well operator from J. A. and S. H. Carson Heirs.

(If said deed, lease, or other contract has been recorded:)

Recorded on March 3, 1982, in the office of the Clerk of County Commission of Hancock County, West Virginia, in 25 Book at page 361. A permit is requested as follows:

PROPOSED WORK: Drill X / Drill Deeper / Redrill / Fracture or stimulate / Plug off old formation / Perforate new formation / Other physical change in well (specify)

--planned as shown on the work order on the reverse side hereof.

The above named coal operator, coal owner(s), and coal lessee are hereby notified that any objection they wish to make or are required to make by Code §22-4-3 must be filed with the Department of Mines within fifteen (15) days after receipt of this Application by the Dept. Copies of this Permit Application and the enclosed plat and reclamation plan have been mailed by registered mail or delivered by hand to the above named coal operator, coal owner(s), and coal lessees on or before the day of the mailing or delivery of this Application to the Department of Mines at Charleston, West Virginia.

PLEASE SUBMIT COPIES OF ALL GEOPHYSICAL LOGS DIRECTLY TO:

TO: ALL OPERATORS
FROM: Thomas F. Huzar, Administrator
RE: House Bill 1254 - Permits Not to be Issued on Flat Well Royalty Leases

DATE: June 22, 1982

RECEIVED
Office of Oil and Gas

JUN 18 2025

WV Department of
Environmental Protection

In an effort to implement HB-1254 an affidavit was mailed to each operator previously. Upon review it is found this affidavit is inappropriate and not entirely necessary. The application form will be revised to include the following statement:

Yes ☐ No ☒ The right to extract, produce or market the oil or gas is based upon a lease or leases or other continuing contract or contracts providing for flat well royalty or any similar provision for compensation to the owner of the oil or gas in place which is not inherently related to the volume of oil and gas so extracted, produced or marketed.

You should answer this question without the use of the form until the applications have been revised.

If the answer is "yes" to the question, then you must provide with the application an affidavit which certifies that the affiant is authorized by the owner of the working interest in the well to state that it shall tender to the owner of the oil or gas in place not less than one-eighth of the total amount paid to or received for the oil or gas so extracted, produced or marketed before deducting the amount to be paid or set aside for the owner of the oil and gas in place, on all such oil or gas to be extracted, produced or marketed from the well. (See West Virginia Code 22-4-11(e).)

Attached is an affidavit form you may use, but it is necessary only in the event that you would answer "yes". If the answer is "no", please include a statement to that effect.

*Lease attached duly notarized and
recorded showing to minimum royalty.*

OIL and GAS LEASE

THIS AGREEMENT made and entered into this the 17th day of January

1982, by and between Robert L. Carson and Virginia Gladys Carson (his wife); John L. Carson and Marguerite D. Carson (his wife) & James H. Carson and Kathryn L. Carson (his wife) also

known as J. A. and S. H. Carson Heirs

hereinafter called Lessor (whether one or more), and Patrick G. Hosler, R.D. 2, Box 28, Folley Farms, hereinafter called Lessee,

WITNESSETH, that said Lessor, in consideration of the sum of ONE DOLLAR (\$1.00), the receipt of which is hereby acknowledged, and of the covenants hereinafter contained on the part of said Lessee, to be paid, kept and performed, has granted, demised, leased and let, exclusively unto Lessee, with covenants of general warranty, for the purpose and with the right of drilling, producing, and otherwise operating for oil and gas, and of laying pipe lines and building tanks, roads, stations, and electric power lines, houses for valves, meters, regulators and other appliances, with all other rights and privileges necessary, incident to or convenient for the operation of this land alone and jointly with neighboring lands, all that certain tract of

land situate in the District of Clay, County of Hancock

State of West Virginia, and bounded substantially as follows:

On the North by lands of 11-2, 11-1, 11-11

On the East by lands of Penna. State Line

On the South by lands of Frankfort Road

On the West by lands of 9-8, 9-10

and containing, for the purpose of calculating rentals, .138 acres of land whether actually

containing more or less; and part of all of said land is described in that certain deed to Lessor from

John L. Carson, Henry H. Wilcox

dated 9/11/52, 8/29/85

recorded in Book 85, F, Page 66, 345, in the Recorder's Office of said County, it being the intent of Lessor to include all lands owned by the Lessor in said County.

1. It is agreed that this lease shall remain in force for a primary term of ten years from the date hereof and as long as thereafter as the said land is operated by Lessee in the production of oil or gas.

2. The royalties to be paid by Lessee are (a) on oil, one-eighth (1/8) of that produced and saved from said land, same to be delivered at the wells or to the credit of Lessor, in the pipe line to which the wells may be connected; (b) on gas of whatever nature or kind produced and sold or used off the premises, the higher of one-eighth (1/8) of the proceeds realized by Lessee from the sale thereof, or in the event of use by Lessee or its assigns one-eighth (1/8) of the field market price prevailing at the time of use paid for natural gas of like kind sold to The Columbia Gas of W. Virginia Inc., its successors or assigns, in the above-mentioned or adjoining counties. Notwithstanding anything herein to the contrary, this lease shall continue in full force for so long as there is a well or wells on leased premises capable of producing oil or gas, but in the event all such wells are shut in for any reason, then on or before the end of each year during which the well or wells are shut in, Lessee shall pay Lessor a royalty of \$276.00 per year per acre. The royalties herein provided shall not be payable on any gas stored or withdrawn pursuant to paragraph 5 hereof.

3. If Lessee shall not have either begun operations for the commencement of a well on the premises within sixty days from the date hereof Lessee agrees to pay to the Lessor the sum of

Two Hundred Seventy Six and no/100

DOLLARS (\$276.00)

annually, commencing sixty days from the date as a rental for 12 months such commencement is delayed, subject, however to the right of cancellation hereinafter granted to Lessee, and it is understood and agreed that the rental as hereinbefore provided for is the chief consideration until commencement of a well. The commencement of a well shall, however, be and operate as a full liquidation of all rentals thereafter accruing under this provision of this lease during the remainder of the term hereof. In the

event of completion of a commercially unproductive well on the Premises the Lessee shall be under no obligation to make delay rental payments for a period of one year following the completion of such well. At the expiration of this rental free period, Lessee may continue to hold this lease for such further term as it may desire, not to exceed the primary term thereof, upon the payment of the rentals above mentioned. Lessee may, at its option, pay rentals quarterly or annually.

4. All payments under this lease shall be made by cash, check, voucher, or other legal tender to the order of _____

J. A. and S. H. Carson Heirs, mailed to their present address

until the Lessee shall have written notice from the Lessor, its heirs or assigns, accompanied by original or certified copies of deeds or other documents as Lessee may require evidencing such change of ownership directing payments to be made otherwise, and any payments made as above until such direction, and thereafter in accordance with such direction shall absolve the Lessee from any liability to any heir or assign of the Lessor. All payments of royalty are to be made according to Lessor's respective interests therein, as hereafter set forth, and this lease shall not be forfeited for Lessee's failure to pay any rentals or royalties until Lessee has received written notice by registered mail of such default and shall fail, for a period of thirty (30) days after receipt of such notice to pay same.

5. Lessee shall have the exclusive right to employ any depleted oil or gas stratum underlying leased premises for the storage of gas and may for this purpose utilize any and all abandoned wells, or may drill new wells for the purpose of introducing and storing gas in such stratum and reservoirs of the same therefrom. It is understood that any such well or wells need not be located on the leased premises and it is agreed that Lessee shall be the sole judge as to whether gas is being stored with in the leased premises and its determination shall be final and conclusive. In consideration of the storage rights herein granted, and in lieu of all delay rental or royalty herein provided, Lessee agrees to pay Lessor an annual rental of One Dollar (\$1.00) per acre in advance, commencing with the date Lessee notifies Lessor that it intends to use any depleted stratum for storage purposes and for as long thereafter as any such stratum is so utilized or such annual rental is paid, which payments shall operate to perpetuate this lease for the period aforesaid, the same as though oil or gas were being produced.

6. In addition to the covenants of general warranty hereinabove contained, Lessor further covenants and agrees, that if Lessor's title to the leased premises shall come into dispute or litigation, or if, in the judgment of Lessee, there are bona fide adverse claims to the rentals or royalties hereinabove provided for, then Lessee, at its option, may withhold the payment of said rentals or royalties until final adjudication or other settlement of such dispute, litigation, claim or claims; and that Lessee, at its option, may pay and discharge any taxes, mortgages or other lien or liens, existing, levied, assessed or which may hereafter come into existence or be levied or assessed on or against the leased premises, and, in the event it exercises such option, Lessee shall be subrogated to the lien and any and all rights of any holder or holders thereof, and may reimburse itself by applying to the discharge of any such mortgage, tax, or other lien or liens, any rental or royalty accruing hereunder.

7. For the purpose of conserving the interest of the parties hereto and protecting said premises, and the oil or gas field within which the same are included from unnecessary and wasteful drilling and undue depletion of its resources, Lessor further grants to the Lessee, its heirs and assigns, the right to consolidate the above described premises or any part thereof, as to all (strata or any stratum or strata,) at the option of Lessee with others to form a unit not to exceed 640 acres for development to the same effect as if said premises together with others in the area had been jointly leased by various Lessors to the Lessee as a single undivided tract and in such event Lessor agrees to accept, in lieu of the royalty hereinbefore recited, such proportion of one eighth (1/8) of the oil or gas marketed from the unitized area as his acreage included therein bears to the total acreage of the unitized area. Lessee may give notice to Lessor of such consolidation by mail to the above address or by filing a declaration of record describing the properties so consolidated or unitized.

8. If and when drilling or other operations hereunder are delayed or interrupted by lack of water, labor or material, or by fire, storm, flood, war, rebellion, insurrection, riot, strike, differences with workmen, or failure of carriers to transport or furnish facilities for transportation, or as a result of some order, rule, regulation, requisition or necessity of the government, or as the result of any other cause whatsoever beyond the control of Lessee, the time of such delay or interruption shall not be counted against Lessee, anything in this lease to the contrary notwithstanding. All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this lease shall not be terminated, in whole or in part, nor Lessee held liable in damages for failure to comply therewith, if compliance is prevented by, or if such failure is the result of any such Law, Order, Rule or Regulation.

9. Lessee shall have the right at any time during the term of this lease or after the expiration or termination thereof to remove all machinery, fixtures, pipelines, houses, buildings, and other structures placed on said premises, including the right to pull and remove all casing and tubing.

10. If the Lessee shall begin operations for the commencement of a well during the term of this lease or any extension thereof, the Lessee shall then have the right to complete the drilling of such well, and if oil or gas or either of them be found in paying quantities this lease shall continue and be in force and with like effect as if such well had been completed within the term first herein mentioned.

11. Lessee shall have the right to transfer or assign, in whole or part, this lease or any interest and the transferee or assignee of Lessee shall have corresponding rights, privileges, and obligations with respect to said royalties and rentals as to the acreage transferred or assigned to it.

12. Lessee shall upon completion or the first productive well upon said premises make a diligent effort to obtain a pipeline connection but any delay shall not be counted against the Lessee provided Lessee shall resume delay rental payments for quarterly periods, beginning one year from the date that the first productive well shall be completed until said first well shall be connected to a pipeline.

13. Lessee may, at any time during the term hereof, cancel and surrender this lease, and be relieved of any and all obligations, payments and liabilities thereafter to accrue as to the leased premises, by the mailing of a notice of such surrender, and a check covering all rentals, if any, due up to the date of such cancellation or surrender.

14. It is agreed that said Lessee may drill or not drill on said land as it may elect, and the consideration and rentals paid and to be paid hereunder constitute adequate compensation for such privilege.

15. It is agreed that said Lessee shall have the privilege of using free of charge sufficient water, oil and gas from the said premises to run all machinery necessary for drilling and operations thereon, and at any time to remove all machinery and fixtures placed on said premises.

RECEIVED
of Oil and Gas

JUN 18 2025

Department of

360

16. No well shall be drilled by Lessee within 200 feet of the dwelling house or barn now on said premises, except by consent of Lessor.

17. The leased premises may be fully and freely used by Lessor for any purpose, excepting such parts as are used by Lessee in operation hereunder.

18. Lessee shall pay Lessor for all damages to growing crops, fences or trees caused by Lessee's operations and shall bury all permanent pipelines below normal plow depth through cultivated areas upon request of Lessor or within a reasonable length of time thereafter.

19. This instrument may be executed in counterparts each having the same validity as if the original. Should any one or more of the parties named as Lessor fail to execute this lease, it shall nevertheless be binding upon all such parties who do execute it as Lessor.

20. Lessor excepts and reserves a total amount of 200,000 cubic feet of gas annually or such part thereof as Lessor may use each year from the gas that Lessee may hereafter produce or otherwise have available under primary production from one gas production well completed and operated by Lessee hereunder upon the leased premises, which said amount of 200,000 cubic feet of gas per year Lessor shall be entitled to receive free of cost for heat and light in one dwelling house on the leased premises when and as long as Lessee may elect to produce or operate a well for the aforesaid purposes upon the leased premises, by Lessor laying the necessary lines and making connections at Lessor's cost at such point on the demised premises as may be designated by the Lessee, provided said gas is used with economical appliances and is measured by meter furnished by Lessee. The regulation of such gas will be by regulators furnished by Lessor, and approved by Lessee, placed at a point designated by Lessee, with said gas to be used at Lessor's own risk and Lessee not to be in any way liable for any interruption or insufficient supply of such gas for said domestic use caused by pumping stations, breakage of lines or otherwise, and nothing herein shall prevent the Lessee from abandoning any well or wells or pipelines on the leased premises and removing the pipe therefrom at any time, on Lessee's conversion to storage as provided for in item 5. If more than 200,000 cubic feet per year is used, the excess shall be paid for at the rate charged to domestic consumers in the same area, and in case of default in payment for gas used in excess of said 200,000 cubic feet, Lessee is hereby authorized to deduct the amount thereof from any royalty or other payments that are then due, or may later become due, under the terms of this lease.

~~THIS LEASE IS VOID WHERE IT IS IN VIOLATION OF ANY APPLICABLE LAW, ORDER, DECREE, OR INJUNCTION OF ANY COURT OF COMPETENT JURISDICTION.~~

**SOIL AND EROSION SEDIMENTATION CONTROL PLAN
PATRICK G. HOSLER WELL NO. /
CLAY DISTRICT
HANCOCK COUNTY, WEST VIRGINIA**

The site is to be utilized by Patrick G. Hosler, Box 191, New Cumberland, West Virginia 26047, for the drilling of an oil well.

The drilling location will encompass an area approximately 250' x 250', or 1.5 acres. The site has a natural slope of approximately ten percent (10%). The site is wooded.

An access road will be constructed from the County Road to the well site for a length of 100 L.F. and its right of way will be 40 feet wide. The maximum grade of said roadway is eight percent (8%). The County of Hancock will be contacted to determine the required size of the culvert. The road shall be completely constructed prior to proceeding with the drilling operation.

An interceptor ditch will be constructed across the site to prohibit runoff from entering.

The only runoff that occurs will be from rain that falls on the site.

Topsoil stripped from the site shall be stockpiled at the North-end of the site.

File 79-399 PH

A working pit shall be constructed to collect silt created during the drilling operation. The pit shall also be used to collect silt during runoff producing rains. The site shall be graded so drainage will be toward the pit. The pit shall have a capacity of 12,500 cubic feet and provide a twenty-four inch (24") freeboard. The pit shall be cleaned after the sediment load reaches fifty percent (50%).

The sediment collected in the pit shall be collected and deposited in the area of stockpiled topsoil. This sediment shall be mulched with straw.

The site shall be restored as nearly as possible to the original grades.

Four inches (4") of topsoil shall be spread back over the disturbed area and shall be seeded and anchored with netting on banks, along swales and other areas easily eroded.

Should restoration be delayed to a period when seeding is not possible, the entire area shall be mulched with straw. The straw shall be applied at the rate of two to three (2-3) bales per 1,000 square feet. This mulch will be anchored by traversing the site with a disk set in the straight position.

It is anticipated that work will start in ~~August~~ ^{July}, 1982 and that restoration will be completed in October 1982.

ACCESS ROAD CONSTRUCTION CLEARING FOR CUT AND FILL ROAD

1. Construct road so that hauling will be on solid ground, not on fill.
2. Inslope from fill to cut shall have a fall of not less than $1/4"$ and not more than $3/8"$ per foot.
3. Drainage water shall be carried across road to fill slope by intercepting dips or culverts.

SLOPE RATIOS

Cut slopes should not be steeper than:

- (a) $1/2 : 1$ in rock
- (b) $2 : 1$ in soil

Fill slopes should not be steeper than:

- (a) $1 : 1$ when constructed with rock.
- (b) $2 : 1$ when constructed with soil.

FILTER FABRIC INSTALLATION SEDIMENT FENCE CONSTRUCTION

Support poles should be set and a minimum 6-inch trench dug to serve as a toe-in for the fabric.

A fencing material--wire mesh, wood slats, etc., if required, is then affixed to the poles. This support system acts as the framework for the filter fabric.

A sufficiently wide strip of filter fabric is then fastened to the fence support system with staples or nails. Leave a 12-18 inch wide bottom strip to line the trench.

The lined trench is then backfilled to complete the toe-in.

Some filter fabrics when exposed to direct sunlight, will degrade in several months. (Example: untreated polypropylene is affected by UV). Know your material; engineer your project.

JUN 18 2025

Environmental Protection

DRAINAGE DIP **CONSTRUCTION WITH FILTER FABRIC AND ROCK SURFACE**

PROFILE

1. Construction of dips using filter fabric and rock would keep dips open and prevent rutting of the dip area.
2. Similar construction techniques could be used for the access road for sections: 100' each side of a stream crossing and last 100' to 200' before entering onto public highway.
3. If the operator is planning on adding any stone bases on the access road, filter fabric should be given consideration. Use of filter fabric would reduce the thickness of the rock base needed and would prove to be a cost effective measure.
4. Wheel loading design considerations can be obtained from manufacturers literature.

INSTRUCTIONS TO COAL OPERATORS OWNERS AND LESSEE

The well operator named on the obverse side of WW-4 (B) is about to abandon the well described in the enclosed materials and will commence the work of plugging and abandoning said well on the date the inspector is notified. Which date shall not be less than five days after the day on which this notice and application so mailed is received, or in due course should be received by the Department of Environmental Protection Office of Oil & Gas.

This notice and application is given to you in order that your respective representatives may be present at the plugging and filling of said well. You are further notified that whether you are represented or not the operator will proceed to plug and fill said well in the manner required by Section 24, Article 6, Chapter 22 of the Code and given in detail on obverse side of this application.

NOTE: If you wish this well to be plugged according to 22-6-24(d) then as per Regulation 35CSR4-13.9 you must complete and return to this office on form OB-16 "Request by Coal Operator, Owner, or Lessee for plugging" prior to the issuance of this plugging permit.

WAIVER

The undersigned coal operator ____ / owner ____ / lessee ____ / of the coal under this well location has examined this proposed plugging work order. The undersigned has no objection to the work proposed to be done at this location, provided, the well operator has complied with all applicable requirements of the West Virginia Code and the governing regulations.

Unknown DEP Paid Plugging Contract

INSTRUCTIONS TO SURFACE OWNERS NAMED ON PAGE WW4-A

The well operator named on page WW-4A is applying for a permit from the State to plug and abandon a well. (Note: If the surface tract is owned by more than three persons, then these materials were served on you because your name appeared on the Sheriff's tax ticket on the land or because you actually occupy the surface tract. In either case, you may be the only owner who will actually receive these materials.) See Chapter 22 of the West Virginia Code. Well work permits are valid for 24 months. If you do not own any interest in the surface tract, please forward these materials to the true owner immediately if you know who it is. Also, please notify the well operator and the Office of Oil and Gas.

**NOTE: YOU ARE NOT REQUIRED TO FILE ANY COMMENT.
WHERE TO FILE COMMENTS AND OBTAIN ADDITIONAL INFORMATION:**

Chief, Office of Oil and Gas
Department of Environmental Protection
601 57th St. SE
Charleston, WV 25304
(304) 926-0450

RECEIVED
Office of Oil and Gas

JUN 18 2025

WV Department of
Environmental Protection

Time Limits and methods for filing comments. The law requires these materials to be served on or before the date the operator files his Application. You have **FIVE (5) DAYS** after the filing date to file your comments. Comments must be filed in person or received in the mail by the Chief's office by the time stated above. You may call the Chief's office to be sure of the date. Check with your postmaster to ensure adequate delivery time or to arrange special expedited handling. If you have been contacted by the well operator and you have signed a "voluntary statement of no objection" to the planned work described in these materials, then the permit may be issued at any time.

Comments must be in writing. Your comments must include your name, address and telephone number, the well operator's name and well number and the approximate location of the proposed well site including district and county from the application. You may add other documents, such as sketches, maps or photographs to support your comments.

The Chief has the power to deny or condition a well work permit based on comments on the following grounds:

- 1) The proposed well work will constitute a hazard to the safety of persons.
- 2) The soil erosion and sediment control plan is not adequate or effective;
- 3) Damage would occur to publicly owned lands or resources;
- 4) The proposed well work fails to protect fresh water sources or supplies;
- 5) The applicant has committed a substantial violation of a previous permit or a substantial violation of one or more of the rules promulgated under Chapter 22, and has failed to abate or seek review of the violation..."

If you want a copy of the permit as it is issued or a copy of the order denying the permit, you should request a copy from the Chief.

VOLUNTARY STATEMENT OF NO OBJECTION

I hereby state that I have read the instructions to surface owners and that I have received copies of a Notice and Application For A Permit To Plug And Abandon on Forms WW-4A and WW-4B, and a survey plat.

I further state that I have no objection to the planned work described in these materials, and I have no objection to a permit being issued on those materials.
