Unrecorded	3426	- 3520	94
Total depth		3520	

"The above is the record of the well as it was given to me, except the Mapletown Coal; the driller had it marked 4 feet, but he told me it was his custom to mark the Pittsburgh Coal 8 feet and the other vein 4 feet, regardless of its thickness, but he said the Mapletown was 6 feet in this well, and I marked it 6 feet. The Philadelphia Gas Co. man reported the well producing enough gas to run three drilling wells."....James L. White.
