WELL WORK PERMIT
Vertical / Re-Work

COLUMBIA GAS TRANSMISSION, LLC
P. O. BOX 1273

CHARLESTON, WV 253251273

Re: Permit approval for GLADY 7467
47-075-00036-00-00

This well work permit is evidence of permission granted to perform the specified well work at the location described on the attached pages and located on the attached plat, subject to the provisions of Chapter 22 of the West Virginia Code of 1931, as amended, and all rules and regulations promulgated thereunder, and to any additional specific conditions and provisions outlined in the pages attached hereto. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations, and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing. Spills or emergency discharges must be promptly reported by the operator to 1-800-642-3074 and to the Oil and Gas Inspector.

Please be advised that form WR-35, Well Operators Report of Well Work is to be submitted to this office within 90 days of completion of permitted well work, as should form WR-34 Discharge Monitoring Report within 30 days of discharge of pits, if applicable. Failure to abide by all statutory and regulatory provisions governing all duties and operations hereunder may result in suspension or revocation of this permit and, in addition, may result in civil and/or criminal penalties being imposed upon the operators.

Per 35 CSR 4-5.2.g this permit will expire in two (2) years from the issue date unless permitted well work is commenced. If there are any questions, please feel free to contact me at (304) 926- 0450.

James A. Martin
Chief

Operator's Well Number: GLADY 7467
Farm Name: U. S. Department of the Interior
U.S. WELL NUMBER: 47-075-00036-00-00
Vertical / Re-Work
Date Issued: 7/20/2017

Promoting a healthy environment.

PERMIT CONDITIONS

West Virginia Code §22-6-11 allows the Office of Oil and Gas to place specific conditions upon this permit. Permit conditions have the same effect as law. Failure to adhere to the specified permit conditions may result in enforcement action.

CONDITIONS

1. If the operator encounters an unanticipated void, or an anticipated void at an unanticipated depth, the operator shall notify the inspector within 24 hours. Modifications to the casing program may be necessary to comply with W. Va. Code §22-6-20, which requires drilling to a minimum depth of thirty feet below the bottom of the void, and installing a minimum of twenty (20) feet of casing. Under no circumstance should the operator drill more than fifty (50) feet below the bottom of the void or install less than twenty (20) feet of casing below the bottom of the void.
2. Pursuant to 35 CSR 4-19.1.a, at the request of the surface owner all water wells or springs within 1000 feet of the proposed well that are actually utilized for human consumption, domestic animals or other general use shall be sampled and analyzed.
3. Pursuant to 35 CSR 4-19.1.c, if the operator is unable to sample and analyze any water well or spring with one thousand (1,000) feet of the permitted well location, the Office of Oil and Gas requires the operator to sample, at a minimum, one water well or spring located between one thousand (1,000) feet and two thousand (2,000) feet of the permitted well location.
4. All pits must be lined with a minimum of 20 mil thickness synthetic liner.
5. In the event of an accident or explosion causing loss of life or serious personal injury in or about the well or while working on the well, the well operator or its contractor shall give notice, stating the particulars of the accident or explosion, to the oil and gas inspector and the Chief within twenty-four (24) hours.
6. During the surface casing and cementing process, in the event cement does not return to the surface, or any other casing string that is permitted to circulate cement to the surface and does not return to the surface, the oil and gas inspector shall be notified within twenty-four (24) hours.
7. Well work activities shall not constitute a hazard to the safety of persons.
8. Operator shall provide the Office of Oil & Gas notification of the date that drilling commenced, drilling ceased, completion of any other permitted well work and completion of the well. Such notice shall be provided by sending an email to DEPOOGNotify@wv.gov within 30 days of commencement of drilling.

WW-2A Surface Waiver
(4/16)

SURFACE OWNER WAIVER

County 075 Operator 00036
Operator well number Glady 7467

INSTRUCTIONS TO SURFACE OWNERS NAMED ON PAGE WW2-A

The well operator named on page WW2A is applying for a permit from the State to do oil or gas well work. (Note: If the surface tract is owned by more than three persons, then these materials were served on you because your name appeared on the Sheriff's tax ticket on the land or because you actually occupy the surface tract. In either case, you may be the only owner who will actually receive these materials.) See Chapter 22 of the West Virginia Code. Well work permits are valid for 24 months. If you do not own any interest in the surface tract, please forward these materials to the true owner immediately if you know who it is. Also, please notify the well operator and the Office of Oil and Gas.

NOTE: YOU ARE NOT REQUIRED TO FILE ANY COMMENT.

WHERE TO FILE COMMENTS AND OBTAIN ADDITIONAL INFORMATION:

Chief, Office of Oil and Gas
Department of Environmental Protection
601 57th St. SE
Charleston, WV 25304
(304) 926-0450

Note that this well is located in the Monongahela National Forest. The surface owner is the US Dept of Interior, and is managed by the BLM and US Forestry Service. The BLM approved the proposed well work per the enclosed "Sundry Notices and Reports on Wells" documents dated 3/14/17. Based on Sundry Notice approval, Columbia requests that the 15 day comment period be waived, and the well work permit be issued at the DEP's earliest convenience.

Time Limits and methods for filing comments. The law requires these materials to be served on or before the date the operator files his Application. You have **FIFTEEN (15) DAYS** after the filing date to file your comments. Comments must be filed in person or received in the mail by the Chief's office by the time stated above. You may call the Chief's office to be sure of the date. Check with your postmaster to ensure adequate delivery time or to arrange special expedited handling. If you have been contacted by the well operator and you have signed a "voluntary statement of no objection" to the planned work described in these materials, then the permit may be issued at any time.

Comments must be in writing. Your comments must include your name, address and telephone number, the well operator's name and well number and the approximate location of the proposed well site including district and county from the application. You may add other documents, such as sketches, maps or photographs to support your comments.

The Chief has the power to deny or condition a well work permit based on comments on the following grounds:

- 1) The proposed well work will constitute a hazard to the safety of persons.
- 2) The soil erosion and sediment control plan is not adequate or effective;
- 3) Damage would occur to publicly owned lands or resources;
- 4) The proposed well work fails to protect fresh water sources or supplies;
- 5) The applicant has committed a substantial violation of a previous permit or a substantial violation of one or more of the rules promulgated under Chapter 22, and has failed to abate or seek review of the violation...".

If you want a copy of the permit as it is issued or a copy of the order denying the permit, you should request a copy from the Chief.

List of Water Testing Laboratories. The Office maintains a list of water testing laboratories which you can hire to test your water to establish water quality prior to and after drilling. Contact the Chief to obtain a copy.

VOLUNTARY STATEMENT OF NO OBJECTION

I hereby state that I have read the instructions to surface owners and that I have received copies of a Notice and Application for a Well Work Permit on Form WW2-A, and attachments consisting of pages 1 through ___ including a work order on Form WW2-B, a survey plat, WW-9, and a soil and erosion plan, all for proposed well work on my surface land as described therein.

I further state that I have no objection to the planned work described in these materials, and I have no objection to a permit being issued on those materials.

**AMENDMENT TO AGREEMENT FOR AMENDMENT OF LEASES OF OIL
AND GAS LANDS AND FOR AUTHORIZATION OF SUB-SURFACE STORAGE OF
GAS UNDER THE ACT OF FEBRUARY 25, 1920 (41 STAT. 437) AS AMENDED AND
SUPPLEMENTED BY THE ACT OF AUGUST 7, 1947 (61 STAT. 913).**

This agreement entered into this 12th day of April, 2012, with an effective date of August 1, 2011, by and between the United States of America through the Field Manager, Northeastern States Field Office, the authorized officer of the Bureau of Land Management, hereinafter called The United States, and Columbia Gas Transmission, LLC, hereinafter called Columbia, with an address at 1700 MacCorkle Avenue, Charleston, West Virginia, 25314.

WITNESSETH

WHEREAS, the United States and Atlantic Seaboard Corporation, a predecessor to Columbia, entered into an "Agreement For Amendment of Leases of Oil and Gas Lands And For Authorization of Sub Surface Storage of Gas Under The Act Of February 25, 1920, (41 Stat. 437) As Amended, As Supplemented By The Act of August 7, 1947, (61 Stat. 913) dated March 8, 1963, whereby the United States leased to Columbia's predecessor certain gas storage areas located in Randolph and Pocahontas Counties, West Virginia, hereinafter called the 1963 Agreement; and

WHEREAS, Section D of the 1963 Agreement requires that the fees to be paid to the United States pursuant to such agreement shall be renegotiated twenty years from the effective date of such agreement, and every twenty years thereafter; and

WHEREAS, by amendment dated March 4, 1987, the fees to be charged pursuant to the 1963 Amendment were amended for the period ending July 31, 2004; and

WHEREAS, The United States and Columbia entered into an agreement attached hereto as Exhibit A, wherein the United States and Columbia mutually agreed to amend the 1963 Agreement as provided herein in order to determine the method by which acreage rental, injection and withdrawal fees would be calculated for the period from August 1, 2004, and including July 31, 2005, in order to permit the United States to complete its review and comment period relating to changes to applicable regulations before entering into an amendment governing fees for the next twenty-year period; and

WHEREAS, by an agreement dated July 1, 2005, the United States and Columbia extended the Agreement attached hereto as Exhibit A for a period of one year in order to permit the United States to complete its review and comment period relating to changes to applicable regulations before entering into an amendment governing fees for the next twenty year period; and

RECEIVED
Office of Oil and Gas

JUL 18 2017

WV Department of Environmental Protection 07/21/2017

WHEREAS, by an agreement entered into June 13, 2006, the United States and Columbia extended the Agreement, attached hereto as Exhibit B, for a period of five years from August 1, 2006 to July 31, 2011; and

WHEREAS, the United States has completed its review and comment period relating to changes to applicable regulations governing annual acreage rental, injection and withdrawal fees for Federal gas storage agreements, and has published a table of fees in Instruction Memorandum (IM) 2009-190, attached hereto as Exhibit C which are to be called for as part of the negotiation process for all gas storage agreements entered into, or renegotiated, by the United States after July 31, 2009; said IM 2009-190 was scheduled to expire September 30, 2010, but its expiration date was extended; and

WHEREAS, the United States is required to advocate the annual acreage rental, injection and withdrawal fees listed for the 1st Quarter in 2014 in IM 2009-190 when negotiating the annual acreage rental, injection and withdrawal fees for the first five years of the next twenty year period for the 1963 Agreement; and

WHEREAS, the acreage rental, injection and withdrawal fees listed for the 1st Quarter in 2014 in IM 2009-190 call for an annual acreage rental fee of \$1.741 per acre, an injection fee of \$0.0044 per MCF and a withdrawal fee of \$0.0174 per MCF.

WHEREAS, the United States has not been provided the fees that it is required to advocate for the final fifteen years of the next twenty year period for the 1963 Agreement, but Columbia and the United States anticipate that fair and equitable fees will be determined by the Washington Office Headquarters of the Bureau of Land Management in a timely manner; and

WHEREFORE, the United States and Columbia do hereby agree as follows:

1. The second paragraph agreed upon by the United States and Columbia in the agreement entered into on June 16, 2004, attached hereto as Exhibit A is replaced in its entirety by the following paragraph:

The annual acreage rental to be paid by Columbia to the United States for the period from August 1, 2011 through July 31, 2016, shall be \$1.741 per acre multiplied by 46,938.40 acres for a total of \$81,719.75. Such annual acreage rental shall be paid on or before August 1st of each year during this five year time period. Columbia has paid \$48,815.94 (as check Number 598475 dated August 1, 2011, and Columbia shall pay the remaining balance of \$32,903.81 within sixty (60) days from the execution of this agreement by the United States. Acreage, injection, and withdrawal fees will be adjusted in accordance with IM 2009-190 at the end of each five year period based upon the projected fees established in the schedule of fees to reflect existing market values for the use and rental of Federal GSA storage space.

2. The third paragraph agreed upon by the United States and Columbia in the agreement entered into on June 16, 2004 attached hereto as Exhibit A is replaced in its entirety by the following paragraph:

The annual injection and withdrawal fees for the period from August 1, 2011 through July 31, 2016, shall be \$0.0044 per MCF and \$0.0174 per MCF, respectively. Acreage, injection, and withdrawal fees will be adjusted in accordance with IM 2009-190 at the end of each five year period based on the projected fees established in the schedule of fees to reflect existing market values for the use and rental of Federal GSA storage space. These fees shall be calculated based upon a Total Acreage area of 57,360 acres and a Federal acreage area leased from the United States of 46,938.40 acres. Utilizing these acreage figures, the ratio to be applied for the purposes of injection and withdrawal fees shall be 81.83%, representing a ratio, the numerator of which is the Federal Acreage and the denominator of which is the Total Acreage.

3. The fifth paragraph agreed upon by the United States and Columbia in the agreement entered into on June 16, 2004, attached hereto as Exhibit A is replaced in its entirety by the following paragraph:

The United States and Columbia acknowledge and agree that this amendment to the 1963 Agreement shall be applicable only during the period of August 1, 2011 through July 31, 2031, and shall have no precedential value for any other acceptable amendment to the 1963 Agreement relating to the fees to be paid by Columbia to the United States for periods subsequent to July 31, 2031, or in the alternative, to execute a new agreement to supersede the 1963 Agreement.

4. Whereas Section D: Storage Fees, first paragraph of the original 1963 agreement required payments to be due annually on August 31st of each year, in order to provide adequate time to acquire the annual volumes and to correctly calculate the volumetric fees that are due to the United States each year, the first paragraph is amended as follows:

“Columbia shall pay the United States the injection and withdrawal volumetric fees on or before October 30th of each year before any late fees or penalties will be assessed for that period’s payments.”

5. Except as modified herein, the terms of the 1963 Agreement and any amendments previously adopted to such agreement, shall remain in full force and effect.
6. The United States and Columbia represents that the Person executing this amendment on their behalf is duly authorized and has obtained all necessary and appropriate approvals to enter into this amendment.

AMENDMENT TO AGREEMENT FOR AMENDMENT OF LEASES OF OIL
AND GAS LANDS AND FOR AUTHORIZATION OF SUB-SURFACE STORAGE
OF GAS UNDER THE ACT OF FEBRUARY 25, 1920 (41 STAT. 437) AS
AMENDED AS SUPPLEMENTED BY THE ACT OF AUGUST 7, 1947
(61 STAT. 913)

This agreement entered into this 16th day of JUNE, 2004, with an effective date of August 1, 2004, by and between the United States of America (through the authorized officer of the Bureau of Land Management), hereinafter called the ("United States"), and Columbia Gas Transmission Corporation ("Columbia"), with an address at 1700 MacCorkle Avenue, Charleston, West Virginia 25314.

WITNESSETH,

WHEREAS, the United States of America and Atlantic Seaboard Corporation, (a predecessor to Columbia), entered into an "Agreement For Amendment Of Leases Of Oil And Gas Lands And For Authorization Of Sub Surface Storage Of Gas Under The Act Of February 25, 1920 (41 Stat. 437) As Amended, As Supplemented By The Act Of August 7, 1947 (61 Stat. 913)" dated March 8, 1963, whereby the United States leased to Columbia's predecessor certain gas storage areas located in Randolph and Pocahontas Counties, West Virginia ("1963 Agreement"); and,

WHEREAS, Section D of the 1963 Agreement requires that the fees to be paid to the United States pursuant to such agreement shall be renegotiated twenty years from the effective date of such agreement, and every twenty years thereafter; and,

WHEREAS, by amendment dated March 4, 1987, the fees to be charged pursuant to the 1963 Agreement were amended for the period ending July 31, 2004; and,

WHEREAS, the parties have engaged in negotiation of the fees to be charged for the twenty-year period beginning August 1, 2004 and, in the course of such negotiations, the United States has informed Columbia that it is currently evaluating and revising applicable authority relating to the lease of federal properties for gas storage purposes, and that such review will not be concluded prior to the expiration of the current twenty-year payment term on July 31, 2004; and,

WHEREAS, the parties mutually desire to amend the 1963 Agreement as provided herein in order to determine the method by which acreage rental, injection and withdrawal fees will be calculated for the period from August 1, 2004, through and including July 31, 2005, in order to the permit the United States to complete its review and comment period relating to changes to applicable authority before entering into an amendment governing fees for the next twenty-year period;

WHEREFORE, the Parties do hereby agree as follows:

RECEIVED
Office of Oil and Gas

JUL 18 2017

WV Department of
Environmental Protection

4707500036

1. The parties acknowledge and agree that the total acreage to be leased by the United States to Columbia total 46,938.40 acres ("Federal Acreage"). The Parties further agree that, for purposes of calculating the injection and withdrawal fees to be paid by Columbia to the United States, the total acreage (including both federally owned and non-federally owned acres) within the Gladly Storage field is 57,360 acres ("Total Acreage").
2. The acreage rental to be paid by Columbia to the United States for the period from August 1, 2004, through July 31, 2005, shall be \$1.04 per acre multiplied by 46,938.40 acres for a total of \$48,815.94. Such acreage rental shall be paid on or before August 1, 2004.
3. The injection and withdrawal fee calculations for the period from August 1, 2004, through July 31, 2005, shall be calculated based upon a Total Acreage area of 57,360 acres and a Federal Acreage leased from the United States of 46,938.40 acres. Utilizing these acreage figures, the ratio to be applied for the purposes of injection and withdrawal fees shall be 81.83%, representing a ratio, the numerator of which is the Federal Acreage and the denominator of which is the Total Acreage.
4. Except as modified herein, the terms of the 1963 Agreement and any amendments previously adopted to such agreement, shall remain in full force and effect.
5. The Parties acknowledge and agree that this amendment to the 1963 Agreement shall be applicable only during the period of August 1, 2004, through July 31, 2005, and shall have no precedential value for any other time period. The parties shall cooperate in good faith to reach a mutually acceptable amendment to the 1963 Agreement relating to the fees to be paid by Columbia to the United States for periods subsequent to July 31, 2005, or, in the alternative, to execute a new agreement to supercede the 1963 Agreement.
6. Each Party represents that the person executing this amendment on such parties' behalf is duly authorized and has obtained all necessary and appropriate approvals to enter into this amendment.

OF GAS UNDER THE ACT OF FEBRUARY 25, 1920 (41 STAT.437) AS
AMENDED AS SUPPLEMENTED BY THE ACT OF AUGUST 7, 1947 (61
STAT.913)

This agreement entered into this 13th day of June, 2006, with an effective date of August 1, 2006, by and between the United States of America through the Field Manager, Milwaukee Field Office, the authorized officer of the Bureau of Land Management, hereinafter called the ("United States"), and Columbia Gas Transmission Corporation ("Columbia"), with an address at 1700 MacCorkle Avenue, Charleston, West Virginia 25314.

WITNESSETH,

WHEREAS, the United States and Atlantic Seaboard Corporation, (a predecessor to Columbia), entered into an "Agreement For Amendment of Leases Of Oil And Gas Lands And For Authorization Of Sub Surface Storage Of Gas Under The Act Of February 25, 1920 (41 Stat. 437) As Amended, As Supplemented By The Act Of August 7, 1947 (61 Stat. 913)" dated March 8, 1963, whereby the United States leased to Columbia's predecessor certain gas storage areas located in Randolph and Pocahontas Counties, West Virginia ("1963 Agreement"); and,

WHEREAS, the parties entered into an agreement attached hereto as Exhibit A, wherein the parties mutually agreed to amend the 1963 Agreement as provided herein in order to determine the method by which acreage rental, injection and withdrawal fees would be calculated for the period from August 1, 2004, through and including July 31, 2005, in order to permit the United States to complete its review and comment period relating to changes to applicable regulations before entering into an amendment governing fees for the next twenty-year period; and,

WHEREAS, by an agreement dated July 1, 2005, the parties extended the agreement attached hereto as Exhibit A for a period of one year in order to permit the United States to complete its review and comment period relating to changes to applicable regulations before entering into an amendment governing fees for the next twenty-year period; and,

WHEREAS, the parties desire to further extend the agreement attached hereto as Exhibit A for a period of five years,

WHEREFORE, the Parties do hereby agree as follows:

1. The Agreement attached hereto as Exhibit A is extended for a period of five years from August 1, 2006 through July 31, 2011.

Exhibit C
To
The August 1, 2011 Amendment
For the Gladly Gas Storage Agreement
Between the United States and Columbia Gas Transmission, LLC

EMS TRANSMISSION 08/06/2009
Instruction Memorandum No. 2009-190
Expires: 09/30/2010

To: State Directors

From: Assistant Director, Minerals and Realty Management

Subject: Guidance for Establishing New and Renegotiated Underground Gas Storage Agreements

Program Area: Oil and Gas.

Purpose: This Instruction Memorandum (IM) establishes a standard minimum fee schedule for the injection, storage, and withdrawal of gas under new and renegotiated Federal Underground Gas Storage Agreements (GSA) established on or after the effective date of this IM.

Policy/Action: Effective immediately, all newly negotiated or renegotiated agreements for the underground storage of natural gas involving Federal lands will be based on the attached fee schedule (Attachment 1). This schedule updates the standard fee schedule that has been in effect for agreements entered into or renegotiated between September 22, 1992, and today. All new GSAs are to be approved with the provisions for revising terms and for periodic updates to the fee schedule. Fee schedules are to be updated at least every 5 years, but may be more frequent if circumstances warrant.

The Authorized Officer of the Bureau of Land Management (BLM) field office (FO) approving the GSA should negotiate storage fees on a case-by-case basis and higher fees may be warranted for some reservoir storage areas.

In order to avoid the administrative burden of having BLM FOs and GSA operators adjust and pay different storage fees annually, the fees will be set at midpoint of the first five-year period in which the GSA is in effect. For example: a new or renegotiated GSA that is effective during the Second Quarter 2009, with a 5-year term, shall have average

RECEIVED
Office of Oil and Gas

JUL 18 2017

annual storage fees of \$1.657 per net mineral acre, or fraction thereof, of the total storage area, and \$0.0041 per thousand cubic feet (MCF) of gas withdrawn from the storage area, and \$0.0166 per MCF of gas withdrawn from the storage area, corresponding to the Fourth Quarter 2011, the mid-point of the 5-year term (fees from Attachment 1, Fourth Quarter 2011). These fees will be paid annually until the end of the Fourth Quarter June 2014, the end of the GSAs 5-year term. GSAs with terms longer than 5 years shall have provisions written into the contracts that the fee schedule will be adjusted at the end of the fifth year set to the mid-point of the next 5 year interval, based on the fees established in the schedule. The Fluid Minerals Division (WO-310) will provide BLM field offices with an updated schedule of fees annually, at the beginning of each fiscal year.

A summary of the status of all current gas storage agreements administered by the BLM is also attached (Attachment 2). This summary was provided by BLM field offices and the Minerals Management Service (MMS) which represents the latest information available. Each state office must review this information and provide updates or corrections to both WO-310 and to the MMS within 30 days, either as of the effective date of this IM or after a new GSA is approved or an existing GSA is renegotiated. The state offices must also ensure that personnel are fully aware of their duties and responsibilities in administering gas storage contracts as detailed in BLM Manual 3160-11, *Underground Storage of Natural Gas*.

Timeframe: This IM is effective immediately.

Budget Impact: No budget impact is anticipated.

Background: Current BLM guidance (Manual 3160-11) provides a minimum fee schedule for negotiated GSAs involving Federal lands. However, this guidance addresses only those new or renegotiated contracts that became effective prior to December 31, 1991. GSAs that were adopted between December 31, 1991, and September 15, 1992, were established using the January 1, 1987, fee schedule. IM 92-244, dated September 15, 1992, established an interim fee schedule for new and renegotiated gas storage agreements of a minimum of \$1.08 per net Federal mineral acre or fraction thereof within the gas storage area and injection fee of \$0.0027 per Mcf of gas, and a withdrawal fee of \$0.0108 per Mcf of gas. Although the BLM had relied on staff in the MMS with expertise in the marketing and storage of natural gas to recommend revising storage fees as needed, such staff is no longer available. During 2002, the MMS and BLM jointly funded Dynegy, an independent contractor, to conduct a study of the gas storage industry to determine whether changes to our gas storage fee schedule were warranted. Dynegy concluded that the value of Federal gas storage reservoirs had increased since the last fee schedule was adopted and that the BLM should revise its fee schedule to reflect current storage values.

The BLM management, staff economists, and field offices conducted a comparative analysis of three indices, including the Consumer Price Index (CPI), the Producer Price

RECEIVED
Office of Oil and Gas

JUL 18 2017

Index (PPI), Gross Domestic Product-Implicit Price Deflator (GDP-IPD) to establish a new fee schedule. We decided to use the GDP-IPD, Series ID, published by the U.S. Bureau of Economic Analysis, because its index values are a close approximation of the average of CPI and the PPI indices. The BLM also uses the GDP-IPD Index to make annual adjustments to cost recovery fees charged to customers for document processing associated with pre-lease and post-lease administration. This index uses at least 10 years of GDP-IPD statistical data prior to the then-existing contract term and applied to the gas storage fee schedule then in effect.

Manual/Handbook Sections Affected: This guidance will be incorporated into the BLM Manual 3160-11, *Underground Storage of Natural Gas*, Section .12 A1 and 2 when next updated.

Coordination: Coordination was done with the MMS and the Bureau of Indian Affairs, in accordance with the current BLM/MMS/BIA Memorandum of Understanding and the Office of the Solicitor in writing this IM.

Contact: If you have any questions concerning the content of this IM, please contact me at 202-208-4201, or your staff may contact Donnie Shaw, Senior Reservoir Management Specialist, Fluid Minerals Division, at 202-452-0382.

Well No. Glady 7467

West Virginia Department of Environmental Protection
Office of Oil and Gas

NOTICE TO SURFACE OWNERS

The well operator named below is preparing to file for a permit from the state to drill a new well. Before a well work permit can be filed with the Chief of the Office of Oil and Gas, the well operator is required to have given notice of the right to request water well or spring analytical testing. This notice shall be given to the owners or occupants of land which have a water well or spring being utilized for human consumption, domestic animals, or other general use and which is located within 1000 feet of the proposed well site.

With this form, the operator is giving you notice of your right to request analytical testing. The operator is required to sample and analyze the water wells or springs of all owners or occupants who request it. Therefore, if you wish to have your water well or spring tested, contact the operator named below.

All sampling shall be completed prior to drilling. Within thirty (30) days of the receipt of such sample analyses the operator shall submit the results to the Chief of the Office of Oil and Gas and to the owners or occupants who may have requested them.

Be advised, you have the right to sample and analyze any water supply at your own expense.

Listed below is the laboratory chosen by operator to perform analysis, and contactor chosen to collect sample.

Certified Laboratory Name _____
Sampling Contractor _____

Well Operator Not applicable - existing underground natural gas storage well.

Address _____

Telephone _____

FOR OPERATOR'S USE ONLY: Below, or on an attached page, list those persons which were given this notice. Place an asterisk beside the one(s) that contacted you and requested sampling and analyses. If there were no requests made, indicate by underling which one you have selected to sample and analyze. If there are no water wells or springs within 1000 feet of the proposed site, the Chief may require the operator to test wells up to 2000 feet from the proposed site.

Do you anticipate using more than 5,000 bbls of water to complete the proposed well work? Yes No

Will a pit be used? Yes No

If so, please describe anticipated pit waste: _____

Will a synthetic liner be used in the pit? Yes No If so, what ml.? _____

Proposed Disposal Method For Treated Pit Wastes:

- Land Application (if selected provide a completed form WW-9-GPP)
- Underground Injection (UIC Permit Number 34-009-23821, 34-009-23823, 34-009-23824, 34-009-23825)
- Reuse (at API Number _____)
- Off Site Disposal (Supply form WW-9 for disposal location)
- Other (Explain _____)

Will closed loop system be used? If so, describe: yes - steel piping connecting wellhead and tank(s)

Drilling medium anticipated for this well (vertical and horizontal)? Air, freshwater, oil based, etc. N/A - no drilling planned

-If oil based, what type? Synthetic, petroleum, etc.

Additives to be used in drilling medium? No drilling planned; surfactant, HCl acid, iron control (for clean-out and stimulation)

Drill cuttings disposal method? Leave in pit, landfill, removed offsite, etc. N/A - no drilling planned

-If left in pit and plan to solidify what medium will be used? (cement, lime, sawdust) _____

-Landfill or offsite name/permit number? if needed: Rumpke Beech Hollow Landfill - Wellston, OH

Permittee shall provide written notice to the Office of Oil and Gas of any load of drill cuttings or associated waste rejected at any West Virginia solid waste facility. The notice shall be provided within 24 hours of rejection and the permittee shall also disclose where it was properly disposed.

I certify that I understand and agree to the terms and conditions of the GENERAL WATER POLLUTION PERMIT issued on April 1, 2016, by the Office of Oil and Gas of the West Virginia Department of Environmental Protection. I understand that the provisions of the permit are enforceable by law. Violations of any term or condition of the general permit and/or other applicable law or regulation can lead to enforcement action.

I certify under penalty of law that I have personally examined and am familiar with the information submitted on this application form and all attachments thereto and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment.

OFFICE OF OIL AND GAS
GROUNDWATER PROTECTION PLAN *DM*

Operator Name: Columbia Gas Transmission, LLC
Watershed (HUC 10): Fox Run of the West Fork of Greenbrier River Quad: Wildell, WV
Farm Name: US Dept of Interior (managed by BLM and US Forest Service)

1. List the procedures used for the treatment and discharge of fluids. Include a list of all operations that could contaminate the groundwater.

No fertilizer will be stored on site. Small quantities of fuel, oil, and lubrications will be stored on site, but located within secondary containment.

Spills from construction equipment and well treatment fluids is the only source of contaminate to groundwater.

2. Describe procedures and equipment used to protect groundwater quality from the list of potential contaminant sources above.

All construction and well servicing equipment will be monitored and inspected daily for leaks. Fluid pumping well service equipment will have secondary containment under all leak paths. Spill kits will be on site.

3. List the closest water body, distance to closest water body, and distance from closest Well Head Protection Area to the discharge area.

Fox Run is approximately 425 ft to the east.

The closest Well Head Protection Area is 1 mile (PWSID WV9942049 - USFS Middle Mountain Cabins-HP). Refer to enclosed assessment letter dated 1/5/2017 from Department of Health and Human Resources, Source Water Assessment and Protection department.

4. Summarize all activities at your facility that are already regulated for groundwater protection.

N/A

RECEIVED
Office of Oil and Gas
JUN 26 2017
WV Department of
Environmental Protection

5. Discuss any existing groundwater quality data for your facility or an adjacent property.

N/A

6. Provide a statement that no waste material will be used for deicing or fill material on the property.

No waste material will be used for deicing or fill material on the property.

7. Describe the groundwater protection instruction and training to be provided to the employees. Job procedures shall provide direction on how to prevent groundwater contamination.

During routine tailgate meetings groundwater protection will be a topic of discussion.

8. Provide provisions and frequency for inspections of all GPP elements and equipment.

No fertilizer will be stored on site. Small quantities of fuel, oil, and lubrications will be stored on site, but located within secondary containment. Construction and well servicing equipment will be monitored and inspected daily for leaks or spill.

Re: SWAP Information Request –

Dear Mr. Timmermeyer:

In response to the informational request dated January 4, 2017 concerning the closest Protection Areas to the indicated seven (7) wells, we have found the following:

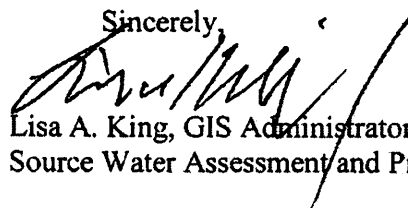

ID	Well Name	Distance	PWSID	System Name
1	Coco A well 7106	within the ZPC	WV3302016	WVAWC KANAWHA VALLEY DIST
2	Glady well 7464/Glady well 7465/Glady well 7467/Glady well 12371	1 mile from WHPA	WV9942049	USFS MIDDLE MOUNTAIN CABINS - HP
		6.2 from ZCC	WV3304202	TOWN OF BEVERLY
		7.0 miles from ZPC	WV3304202	TOWN OF BEVERLY
3	Ripley well 7294	3.8 miles from ZPC	WV3301811	CITY OF RIPLEY
		5 miles from ZCC	WV3301811	CITY OF RIPLEY
		5 miles from WHPA	WV3301810	RAVENSWOOD MUNICIPAL WATER
4	Rockport well 7240	0.7 miles from ZPC	WV3305402	CLAYWOOD PARK PSD

We are now putting up all of our active protection areas for download at this location, https://www.wvdhhr.org/oehs/eed/swap/GISTA_Downloads.asp.

We do not have information regarding private drinking wells in the area. I suggest you contact the county health department for this information.

I hope the information provided helps you with the completion of your project. If you have any questions, please do not hesitate to contact me at (304) 356-4309.

Sincerely,

Lisa A. King, GIS Administrator
