

Down the creek on the north side are the wells of the Bando Oil Co., of Baltimore, and the following records of these wells were furnished by Mr. A. J. Price for many years field manager. The order of the wells passing down this run are 5, 4, 2, 1, 3 in the creek bottom, while Nos. 7, 8, 9 are on the hill to the north. The first well drilled, No. 1, flowed 204 barrels the first twenty-four hours and at present time is producing sixteen barrels daily (see plate VI). The Salt sand of these records is the Cairo salt sand above the Big Lime and therefore represents the Maxton sand.

30286

Cain Well, No. 1 (U. S. 778 A. T.).

	Feet.
Top of Salt sand	1530
Total depth	1538

31098

Cain Well, No. 2 (near U. S. 800 A. T.)

	Feet.
Top of Gas sand	1394
Bottom of Gas sand	1415
Break	1517 to 1552
Top of Salt sand and pay	1552
Oil at	1555
Bottom of pay	1577
Total depth	1603

~~70287~~

Cain Well, No. 3.

70298

	Feet.
Top of Gas sand	1390
Bottom of Gas sand	1513
Top of Salt sand	1548
Top of pay	1555
Bottom of pay	1566
Total depth	1579

30399

Cain Well, No. 4 (near U. S. 810 A. T.).

	Feet.
Top of Salt sand	1531
Pay	1553 to 1563
Total depth	1588
