AFFIDAVIT

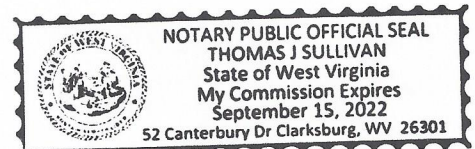

STATE OF WEST VIRGINIA,
County of MONONGALIA ss:

MATTHEW A. YEARSLEY and KEVIN S. WRIGHT being first duly sworn according to law depose and say that they are experienced in the work of plugging and filling oil and gas wells and were employed by Berry Energy, Inc. well operator, and participated in the work of plugging and filling the above well, that said work was commenced on the 19th day of January, 2022 and that the well was plugged in the following manner:

Sand or Zone Record	Filling Material	Casing/Tubing Size	Casing Pulled	Casing Left In
Formation				
Cleaned a 3 3/4" hole through the existing 4 1/2" casing from the surface to 2370'. Tagged plug at 2370'. Cemented the bottom hole from 2370' to 1450' with 55 sacks of Expandable Cement with a Gas Blocker additive. Removed 1252' of 4 1/2" casing from the surface to 1252'. Left 1215' of 4 1/2" casing in the hole from 1252' to 2467'. Cleaned a 7 7/8" hole from surface to 1252'. Reduced hole to 2 7/8" at 1252'. Cleaned out the remaining 4 1/2" casing from 1252' to the top of the bottom hole plug at 1450'. Set an intermediate cement plug from 1450' to 980' with 60 sacks of Expandable Cement. Due to cement bonding on the 7" casing, a 33' window was section milled in the 7" casing from 561' to 594' which also removed the 7" casing through the Lower Kittanning Coal Seam (571.2' - 580.0'). Left 1134' of 7" casing in the hole from the surface to 561' and from 594' to 1168'. Due to extreme bond on the 7" casing no additional perforations or rips required per the Leer Mine 101c petition. All electronic logs were measured from 10' above the surface.				
Cemented the hole from 980' to surface as follows:				
From 980' to 371' with 130 sacks of Thixotropic with Green Dye. From 371' to surface with 80 sacks of Expandable Cement. Cement did circulate. A total of 325 sacks of cement were used to fill the hole from 2370' to the surface.				
Coal Seams		Description of Monument		
<u>Lower Kittanning Coal</u>	571.2' - 580.0'	77" of 7" casing w/ company name, well number, permit number and date cemented stated on 7" casing. Well marker will be attached to cement plug at ground level.		

... and that the work of plugging and filling said well was completed on the 7th day of February, 2022

And further deponents saith not.

Sworn to and subscribed before me this 18th day of Feb, 2022
