WELL WORK PERMIT

Horizontal 6A Well

This permit, API Well Number: 47-9502305, issued to STATOIL USA ONSHORE PROPERTIES, INC., is evidence of permission granted to perform the specified well work at the location described on the attached pages and located on the attached plat, subject to the provisions of Chapter 22 of the West Virginia Code of 1931, as amended, and all rules and regulations promulgated thereunder, and to all conditions and provisions outlined in the pages attached hereto. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations, and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing. Spills or emergency discharges must be promptly reported by the operator to 1-800-642-3074 and to the Oil and Gas inspector.

Please be advised that form WR-35, Well Operators Report of Well Work is to be submitted to this office within 90 days completion of permitted well work, as should form WR-34 Discharge Monitoring Report within 30 days of discharge of pits, if applicable. Failure to abide by all statutory and regulatory provisions governing all duties and operations hereunder may result in suspension or revocation of this permit and, in addition, may result in civil and/or criminal penalties being imposed upon the operators.

In addition to the applicable requirements of this permit, and the statutes and rules governing oil and gas activity in WV, this permit may contain specific conditions which must be followed. Permit conditions are attached to this cover letter.

Per 35CSR-4-5.2.g this permit will expire in two (2) years from the issue date unless permitted well work is commenced. If there are any questions, please feel free to contact me at (304) 926-0499 ext. 1654.

James Martin
Chief

Operator's Well No: FRUNER 3H
Farm Name: FRUNER, CHARLES & WILDA LI
API Well Number: 47-9502305
Permit Type: Horizontal 6A Well
Date Issued: 10/20/2015

PERMIT CONDITIONS

West Virginia Code § 22-6A-8(d) allows the Office of Oil and Gas to place specific conditions upon this permit. Permit conditions have the same effect as law. Failure to adhere to the specified permit conditions may result in enforcement action.

CONDITIONS

1. This proposed activity may require permit coverage from the United States Army Corps of Engineers (USACE). Through this permit, you are hereby being advised to consult with USACE regarding this proposed activity.
2. If the operator encounters an unanticipated void, or an anticipated void at an unanticipated depth, the operator shall notify the inspector within 24 hours. Modifications to the casing program may be necessary to comply with W. Va. Code § 22-6A-5a (12), which requires drilling to a minimum depth of thirty feet below the bottom of the void, and installing a minimum of twenty (20) feet of casing. Under no circumstance should the operator drill more than one hundred (100) feet below the bottom of the void or install less than twenty (20) feet of casing below the bottom of the void.
3. When compacting fills, each lift before compaction shall not be more than 12 inches in height, and the moisture content of the fill material shall be within limits as determined by the Standard Proctor Density test of the actual soils used in specific engineered fill, ASTM D698, Standard Test Method for Laboratory Compaction Characteristics of Soil Using Standard Effort, to achieve 95 % compaction of the optimum density. Each lift shall be tested for compaction, with a minimum of two tests per lift per acre of fill. All test results shall be maintained on site and available for review.
4. Operator shall install signage per § 22-6A-8g (6) (B) at all source water locations included in their approved water management plan within 24 hours of water management plan activation.
5. Oil and gas water supply wells will be registered with the Office of Oil and Gas and all such wells will be constructed and plugged in accordance with the standards of the Bureau for Public Health set forth in its Legislative rule entitled *Water Well Regulations*, 64 C.S.R. 19. Operator is to contact the Bureau of Public Health regarding permit requirements. In lieu of plugging, the operator may transfer the well to the surface owner upon agreement of the parties. All drinking water wells within fifteen hundred feet of the water supply well shall be flow tested by the operator upon request of the drinking well owner prior to operating the water supply well.
6. Pursuant to the requirements pertaining to the sampling of domestic water supply wells/springs the operator shall, no later than thirty (30) days after receipt of analytical data provide a written copy to the Chief and any of the users who may have requested such analyses.
7. If any explosion or other accident causing loss of life or serious personal injury occurs in or about a well or well work on a well, the well operator or its contractor shall give notice, stating the particulars of the explosion or accident, to the oil and gas inspector and the Chief, within 24 hours of said accident.
8. During the casing and cementing process, in the event cement does not return to the surface, the oil and gas inspector shall be notified within 24 hours.
9. The operator shall provide to the Office of Oil and Gas the dates of each of the following within 30 days of their occurrence: completion of construction of the well pad, commencement of drilling, cessation of drilling, completion of any other permitted well work, and completion of the well. Such notice shall be provided by sending an email to DEPOOGNotify@wv.gov.

Re: Operator Comments from Antero Resources regarding API # 47-095-02305.

Dear Mrs. Steele:

The Office of Oil and Gas (OOG) has completed its review of the above referenced permit application submitted by Statoil USA Onshore Properties, Inc. The Tyler County oil and gas inspector examined the site to ensure compliance with all applicable requirements. Also, your comments were sent to the applicant to ensure it is aware of your concerns. The applicant's response is enclosed for your records.

After considering your comments, the applicant's response, and the inspector's findings, the OOG has determined that the application meets the requirements set forth in Article 6A Chapter 22 of the West Virginia Code and Legislative Rule Title 35 Series 8. Consequently, the OOG is issuing the permit today. For your information and convenience, I am including with this letter a copy of the permit as issued.

Please contact Gene Smith at (304) 926-0499, extension 1652 if you have questions.

Sincerely,

A handwritten signature in cursive script that reads "Charles T. Brewer".

RE: Response to Antero Objection, dated September 9, 2015
Fruner 3H Well (API# 47-095-02305), Tyler County, West Virginia

Dear Madam/Sir,

Thank you for bringing the Antero Resource Corporation ("Antero") objection to the attention of Statoil USA Onshore Properties Inc. ("Statoil") regarding the Fruner 3H Well permit application. Statoil appreciates the opportunity for open dialogue with the West Virginia Department of Environmental Protection and other operators in the area. As such, the following letter shall serve as the response of Statoil to the objection of Antero, contained in the above referenced objection letter, dated September 9, 2015.

Statoil acknowledges the statement of Antero that Statoil entered into a surface use agreement, containing a surface and subsurface easement right, with Charles and Wilda Lee Fruner subsequent to Antero signing an oil and gas lease with Gina Pastors. However, Statoil disagrees with the position Antero has taken that the oil and gas lease renders the rights of the surface owner subordinate to those of the mineral owner. The position of Statoil is in accordance with Chapter 22, Article 6B of the West Virginia Code contains pertinent findings which are applicable to this objection. The Legislature has found (1) *Exploration for and development of oil and gas reserves in the state must coexist with the use, agriculture or otherwise, of the surface of certain land that each constitutes a right equal to the other.* (2)(b) *The Legislature declares that the public policy of this state shall be that the compensation and damages provided in this article for surface owners may not be diminished by any provision in a deed, lease or other contract of conveyance entered into after December 31, 2011.* (Emphasis added) Let it be known the oil and gas lease by and between Antero Resources Corporation and Gina Pastors was filed of record on July 3, 2013 in Book 420, Page 378 of the records of Tyler County, West Virginia. (the "Antero Lease"). The Legislature further states, (C) *It is the purpose of this article to provide Constitutionally permissible protection and compensation to surface owners of lands on which horizontal wells are drilled from the burden resulting from drilling*

10/23/2015

RECEIVED
Office of Oil and Gas

SEP 25 2015

WV Department of
Environmental Protection

operations commenced after January 1, 2012. This article is to be interpreted in the light of the legislative intent expressed herein. This article shall be interpreted to benefit surface owners, regardless of whether the oil and gas mineral estate was separated from the surface estate and regardless of who executed the document which gave the oil and gas developer the right to conduct drilling operations on the land. Section four of this article shall be interpreted to benefit all persons. Statoil believes that the Legislative intent is clear and contrary to the claims of Antero that the "mineral estate is dominant over the surface estate."

Accordingly, Charles and Wilda Lee Fruner exercised their equal right to enter into a surface use agreement with Statoil thereby granting Statoil use of the lands in accordance with the purposes stated in the Horizontal Well Permit Application for the Fruner 3H well.

Should the West Virginia Department of Environmental Protection deem the statement of facts contained herein acceptable in determining Statoil followed the Legislative intent as recited in the West Virginia Code, Statoil requests that the West Virginia Department of Environmental Protection hereby approve its permit to drill the Fruner 3H Well. Conversely, should any further information be required in order to approve the permit to drill the Fruner 3H Well, please inform Statoil of the request so that it may be provided without further delay.

Should you have any questions, please feel free to contact me at 713-485-2640 or at BEKW@Statoil.com.

Sincerely,

A handwritten signature in blue ink that reads "Bekki Winfree".

Re: Objection to Issuance of Horizontal Well Permit for the Fruner 3H Well
(API# 47-095-02305), Tyler County, West Virginia (the "Fruner 3H Well")

Dear Madam/Sir;

Antero Resources Corporation ("Antero") hereby formally objects to the issuance of a horizontal well permit for the Fruner 3H Well, submitted to the WVDEP by Statoil USA Onshore Properties Inc ("Statoil"), for the reasons set forth herein.

As set forth in documents filed with the WVDEP by Statoil on August 12, 2015, Statoil has proposed to put the surface location and well pad for the Fruner 3H Well on a 97.5 acre tract of land in the Ellsworth District of Tyler County, West Virginia identified as Tax Map and Parcel ID #2-15-24 (the "Fruner Tract"). On February 11, 2015, Statoil entered into a surface use agreement covering the Fruner Tract with Charles Fruner and Wilda Lee Fruner, husband and wife, owners of the surface estate in the Fruner Tract (the "Statoil SUA"). However, Antero previously entered into an oil and gas lease covering the Fruner Tract with Gina Pastors, the owner of the mineral estate in the Fruner Tract, a memorandum of which was recorded on July 3, 2013 in Book 420, Page 378 of the records of Tyler County, West Virginia (the "Antero Lease").

The Antero Lease was placed of record approximately 18 months prior to the Statoil SUA, thus Statoil rights pursuant to the Statoil SUA, are subordinate to the Antero Lease. Under West Virginia law, the mineral estate is dominant over the surface estate. Thus, as the owner of the oil and gas leasehold estate in the Fruner Tract, Antero has the dominant right to use so much of the surface and subsurface of the Fruner Tract that is necessary in connection with Antero's oil and gas operations on the Fruner Tract or lands pooled therewith. This is particularly the case since the Fruner Tract is outside the boundaries of Statoil's proposed unit for the Fruner 3H well, and thus Statoil intends to use the surface and subsurface of the Fruner Tract solely for the benefit of Statoil's oil and gas leasehold estate in lands other than the Fruner Tract. Moreover, the Statoil SUA is titled "Surface Use, Surface and Subsurface Easement, and Damage Settlement Agreement", which is misleading due to the fact that the Surface Owner does not own the minerals in the Fruner Tract, and thus the Surface Owner's subsurface rights are subordinate to Antero's rights under the Antero Lease.

Antero currently plans to form a pooled unit that includes the Fruner Tract and to drill one or more horizontal wells in this pooled unit (the "Antero Unit"). Given the topography in the vicinity of the Fruner Tract and resulting lack of suitable locations for well pads and production facilities, Statoil's proposed surface location on the Fruner Tract will interfere with Antero's ability to obtain a suitable surface location for wells drilled in the Antero Unit. In addition, the

10/23/2015

pathway of the wellbore of the Fruner 3H Well and any subsequent horizontal wells drilled by Statoil through the subsurface of the Fruner Tract will interfere with the pathway of the wellbores subsequently drilled by Antero in the Antero Unit.

Since Statoil's proposed use of the surface and subsurface of the Fruner Tract in connection with the Fruner 3H Well will interfere with Antero's dominant rights to use the surface and subsurface of the Fruner Tract, Antero hereby objects to the issuance of a horizontal well permit for the Fruner 3H Well.

Antero believes this protest has been filed in a timely manner and in accordance with the 30 day public comment period, which expires after September 10, 2015. Should you have any questions, please feel free to contact me at 303-357-7323.

Sincerely,

A handwritten signature in blue ink that reads "Ashlie Steele". The signature is written in a cursive, flowing style.

Environmental Protection

*Note: Attach additional sheets as needed.

MAG
7/17/15

WW-6B – Fruner 3H

19) Describe proposed well work, including the drilling and plugging back of any pilot hole:

20" conductor will be pre-set prior to start of operations and cemented in place to surface at approximately 100ft. A 17 1/2" surface hole will be drilled with fresh water to approximately 350' md/tvd. 13 3/8" surface casing will be installed and cemented to surface in order to isolate fresh water zones and provide a competent shoe for well control while drilling deeper horizons. A 12 1/4" intermediate hole section will be drilled with Air misting with 5% KCL Polymer (WBM) and a conventional mud motor to approximately 2151' md/tvd through the base of the Big Injun formation. 9 5/8" Intermediate casing will be installed and cemented to surface in order to isolate the Red Beds and Big Injun formation from lower hydrocarbon bearing zones while providing a competent shoe for well control. The 8 1/2" vertical hole section will be drilled to planned kick-off point using air misting with 5%KCL and a conventional mud motor. The wellbore will be deviated from vertical and landed horizontally in the Marcellus Target horizon and extended laterally to total depth of 12,846' md/6,473' vd using SBM and conventional mud motors. A 5 1/2" production casing will be installed and cemented so estimated top of cement is at least 300ft inside the previous casing shoe. The Drilling Rig will then be released to the next well.

4709502305

23) Describe centralizer placement for each casing string:

Surface - 1 centralizer w/ stop collar 10 ft above float shoe. One Single Bow every joint to 100ft below surface.

Intermediate – 1 centralizer w/ stop collar 10 ft above float shoe. 1 centralizer w/ stop collar 10 ft above float collar. 1 centralizer every joint for the first 15 joints. One centralizer every 3 jnts to 100ft below surface.

Production - 1 centralizer w/ stop collar 10ft above shoe. 1 centralizer 10ft above float collar. 1 centralizer every joint (floating) until KOP. 1 centralizer every 3 joints (floating) until 200ft inside intermediate shoe. 1 centralizer 50ft below mandrel hanger.

24) Describe all cement additives associated with each cement type:

Surface - Class A + 3% CaCl2

Intermediate - Class A cmt, 0.05% Retarder, 0.25% Defoamer, 1% Accelerator, 0.25% Dispersant, 0.65% Retarder, 9.10 gal/sk Fresh Water.

Production - Class A cmt, 10% bwoc Dispersant, 0.6% bwoc Fluid Loss, 0.4% bwoc Retarder, 0.1% bwoc Free water control agent, 0.25% bwoc Defoamer, 0.1% bwoc Fluid Loss, 6.32 gal/sk Fresh Water.

**Acknowledgement of Possible Permitting/Approval
In Addition to the Office of Oil and Gas**

The permit applicant for the proposed well work addressed in this application hereby acknowledges the possibility of the need for permits and/or approvals from local, state, or federal entities in addition to the DEP, Office of Oil and Gas, including but not limited to the following:

- WV Division of Water and Waste Management
- WV Division of Natural Resources WV Division of Highways
- U.S. Army Corps of Engineers
- U.S. Fish and Wildlife Service
- County Floodplain Coordinator

The applicant further acknowledges that any Office of Oil and Gas permit in no way overrides, replaces, or nullifies the need for other permits/approvals that may be necessary and further affirms that all needed permits/approvals should be acquired from the appropriate authority before the affected activity is initiated.

**SURFACE USE, SURFACE AND SUBSURFACE EASEMENT and DAMAGE
SETTLEMENT AGREEMENT**

This SURFACE USE, and SURFACE and SUBSURFACE EASEMENT and DAMAGE SETTLEMENT AGREEMENT ("Agreement") is made and entered into this 10th day of February, 2015, by and between Charles Fruner and Wilda Lee Fruner, husband and wife, whose address is 733 Highland Avenue, New Martinsville, West Virginia. 26155 ("Surface Owner"), and STATOIL USA ONSHORE PROPERTIES, INC., a Delaware Corporation located at 2103 CityWest Blvd, Suite 800, Houston, Texas 77042, hereinafter called ("Operator").

WHEREAS, Surface Owner is the owner of the surface of an 97.50 acre tract of land located in Ellsworth District of Tyler County, West Virginia, identified as ⁴⁷⁰⁹²⁰²⁵⁰⁵ ~~Map and Parcel~~ ID #2-15-24 (the "Lands"), and incorporated herein by reference for a more particular description thereof; and

WHEREAS, Operator desires to use the property for oil and gas development and transportation of gas, including but not limited to the right to build, operate and maintain a horizontal well pad upon the Lands for the purposes of drilling and producing a well or wells;

NOW, THEREFORE, for and in consideration of Ten Dollars (\$10.00) and other good and valuable consideration paid by Operator to Surface Owner, the receipt and sufficiency of which are hereby acknowledged, Surface Owner does hereby grant, convey, and assign to Operator the right to build, drill, operate, and/or maintain a horizontal well pad, horizontal well bores, access roads, and appurtenant equipment and facilities (whether above or below the surface) upon the Lands, including but not limited to frac pits, ponds, pipelines to transport gas from the horizontal well pad and other lands, above-ground pipelines to transport water to the well pad or to other well pads in the area, and the right of ingress and egress across the Lands, and further described and/or depicted, for informational purposes only, on the plat attached hereto as Exhibits "A-1" thru "A-3" and made a part hereof by reference, subject to the following terms and conditions. It is expressly understood and agreed that the Operator shall have the right to utilize the horizontal well pad, horizontal well bores, access roads and appurtenant equipment and facilities, as more fully described above, to explore for, produce and transport natural gas within and underlying tracts beyond the boundaries of the Lands. It is expressly understood and agreed that such use of the surface and/or subsurface of the Lands shall not constitute a trespass.

1. **TERM OF AGREEMENT.** This Agreement shall remain in force for a primary term of five (5) years beginning on the first date set forth above (the "Effective Date"), and for so long thereafter as operations are diligently pursued or oil or gas is being produced from a well or wells located on the well pad.

2. **DAMAGES:** Operator and Surface Owner agree that the sum of \$162,500.00 paid within 45 business days of the receipt of the properly executed subject Surface Use and Damage Settlement Agreement, is for damages occasioned by Operator's use of the surface of

RECEIVED
Office of Oil and Gas

AUG 12 2015

WV Department of
Environmental Protection

of use, crops, timber, or other value occasioned by Operator's use of the surface for the operations described herein:

Operator at the termination of this Agreement shall remove all equipment and reclaim the Lands in accordance with all applicable laws and regulations. Operator shall further compensate Surface Owner for any un-reclaimed acreage or permanent damages to the Lands caused by the Operators use unless Surface Owner agrees in writing to accept the property as reclaimed by the Operator. This agreement shall be effective for all wells that are drilled from the well pad and all roads, pipelines, appurtenant facilities, and equipment placed on or in the ground. Surface Owner agrees to approve and sign any documents that may be required under the laws or regulations of the State of West Virginia or its agencies to show surface Owner's consent to this agreement.

3. TIMBER. In the event any of the Lands covered by this Agreement have standing timber, Operator shall solicit the services of a third party timber appraiser to appraise all standing timber and upon completion of appraisal, Operator shall give a copy of the appraisal and a check covering the full amount of the timber the Operator will remove. Operator also agrees to stack the removed timber from the Lands in a reasonable location agreeable to both Operator and Surface Owner. 47000005

4. MANNER OF PAYMENTS: Operator shall make all required payments by check mailed to the last address provided by Surface Owner above and on the Order of Payment form.

5. CHANGE IN OWNERSHIP: Operator shall not be bound by any change in the ownership of the Lands until furnished with such documentation as Operator may reasonably require. Pending the receipt of documentation, Operator may elect either to make or withhold payments as if such a change had not occurred.

6. TITLE: If Operator receives evidence that Surface Owner does not have title to all or any part of the rights associated with the indicated type of ownership described herein, Operator may immediately withhold payments that would be otherwise due and payable hereunder to Surface Owner until the adverse claim is fully resolved.

7. LIENS: Operator may at its option pay and discharge any past due taxes, mortgages, judgments or other liens and encumbrances on or against any of the Lands; and Operator shall be entitled to recover any such amount paid from the Surface Owner, including legal interest, costs and attorney fees, by deduction from any future payments to Surface Owner or by any other lawful means.

8. LIMITATION OF TERMINATION AND FORFEITURE: This Agreement shall not terminate or be forfeited, or be subject to a civil action or other proceeding to enforce a claim of forfeiture, due to Operator's alleged failure to perform as specified herein, unless and until Operator has received written notice from Surface Owner of the alleged failure to perform and of Surface Owner's demand that Operator act to cure such failure, and thereafter fails or refuses to

RECEIVED
Office of Oil and Gas

AUG 12 2015

WV Department of
Environmental Protection

satisfy Surface Owner's demand within ninety (90) days from the confirmed receipt of the notice.

9. **FACILITIES.** Operator shall not drill a well within six hundred twenty-five feet (625') of any occupied dwelling structure located on the Lands without Surface Owner's written consent. Surface Owner shall not erect any building or structure, or plant any trees within two hundred feet (200') of a well or within twenty-five feet (25') of a gathering line, pipeline, or other surface facility of Operator, or compressor station without Operator's prior written consent. Surface Owner shall have the personal and non-exclusive right to use roads constructed by Operator, but Surface Owner shall not modify or restrict roads or other facilities built by Operator without Operator's prior written permission. Furthermore, Surface Owner shall not authorize third parties to use Operator's roads. Operator agrees to confer with Surface Owner regarding the location of surface facilities before beginning construction. Operator shall maintain and reclaim all of Operator's well sites, roads, easements and other facilities in accordance with normal industry practices, and shall reclaim all disturbed areas when required by and in accordance with all applicable legal requirements.

10. **TITLE AND INTERESTS.** Surface Owner hereby warrants generally and agrees to defend title to the Lands and covenants that Operator shall have quiet enjoyment hereunder and shall have benefit of the doctrine of after-acquired title. Should any person having title to the Lands fail to execute this Agreement, the Agreement shall nevertheless be binding upon all who do execute it as Surface Owner.

11. **ENTIRE CONTRACT.** The entire agreement between Surface Owner and Operator is embodied herein, and supersedes any prior oral or written agreements or negotiations as to these matters not set out in writing herein. This Agreement shall not be construed to amend, limit, impair, restrict or otherwise affect any rights to the Lands or to utilize any portion of the Lands held by Operator under any existing agreement, including any deeds, easements or oil and gas leases, or at common law. No oral warranties, representations, or promises have been made or relied upon by either party as an inducement to or modification of this Agreement.

12. **INDEMNIFICATION.** Operator agrees to indemnify and hold harmless the Surface Owner and to defend them against all claims for injury or death to persons or damage to property resulting from the construction and operation of facilities under this Agreement.

13. **SUCCESSORS.** All rights, duties, and liabilities herein benefit and bind Surface Owner and Operator and their respective heirs, successors and assigns.

14. **MODIFICATIONS.** No provision of this Agreement shall be modified, altered or waived except by written amendment executed by the parties or their authorized representatives.

15. **CONFIDENTIALITY.** Surface Owner and Operator agree to keep confidential the total amount of money paid under the terms of this Agreement.

SURFACE USE, SURFACE and SUBSURFACE EASEMENT and DAMAGE SETTLEMENT AGREEMENT

Attached to and by reference made a part thereof, that certain Surface Use, Surface and Subsurface Easement Damage Settlement Agreement dated February 10, 2015, by Charles Fruner and Wilda Lee Fruner, husband and wife, ("Surface Owner"), of 733 Highland Avenue, New Martinsville, West Virginia 26155 and STATOIL USA ONSHORE PROPERTIES INC, whose address is 2103 CityWest Boulevard, Suite 800, Houston, Texas 77042, hereinafter called "Lessee";

Notwithstanding anything to the contrary contained in the Surface Use and Damage Settlement Agreement to which this Addendum is attached and made part of, the provisions of this Addendum shall prevail whenever in conflict with the provisions of the Surface Use and Damage Settlement Agreement

16. Building Replacement

Operator and Surface Owner agree that during the construction of the pad site, Operator must remove or cause to be removed the Surface Owner's shed located inside the Limit of Disturbance shown on Exhibit "A-1" below. For avoidance of doubt the shed is denoted as "Building" on the Exhibit "A-1" plat. Operator and Surface Owner further agree that Operator shall construct, or cause to be constructed, a new structure of the same size, dimension and design and place it in a mutually agreed upon location outside of the indicated Limit of Disturbance shown on the Exhibit "A-1" plat below. Operator and Surface owner understand that agreed upon construction activities are full and adequate consideration for the damages to the Surface Owner's existing shed structure.

MEMORANDUM of SURFACE USE and DAMAGE SETTLEMENT AGREEMENT

This MEMORANDUM of SURFACE USE and DAMAGE SETTLEMENT AGREEMENT is hereby recorded in lieu of the Surface Use and Damage Settlement Agreement between the parties hereto and, accordingly, the following information is set forth:

1. Reference to Surface Use Agreement.

Surface Owner and Operator (as defined below) entered into a Surface Use and Damage Settlement Agreement (referred to herein as "Surface Use Agreement") on the 22nd day of January, 2015 ("Effective Date").

2. Name and Address of Surface Owner(s).

The names and addresses of Surface Owners(s) as set forth in the Surface Use Agreement are:

4709502305

The Donald Macnaughtan, Jr. Revocable Trust dated April 6, 2009
1234 Robin Drive
New Martinsville, West Virginia 26155

All of which parties are collectively called "Surface Owners" in this Memorandum of Surface Use and Damage Settlement Agreement.

3. Name and Address of Operator(s).

The name and address of the Operator(s) as set forth in the Surface Use Agreement are:

Statoil USA Onshore Properties Inc.
2103 City West Blvd, Suite 800
Houston, TX 77042

All of which parties are collectively called the "Operator" in this Memorandum of Surface Use and Damage Settlement Agreement.

4. Description of Premises.

Surface Owner(s) is the owner of the surface of a 99.5625 acre tract of land located in the Ellsworth District of Tyler County, West Virginia on Tax Map 15, Parcel 22 incorporated herein by reference for a more particular description thereof; and

Whereas, Surface Owner does hereby grant, convey, and assign to Operator exclusive right to build, use, and maintain an access road upon the Lands and the right of ingress and egress across the lands as further described and/or depicted on the plats attached hereto as Exhibits "A-1", "A-2", and "A-3"; more specifically the 0.8 acres bounded by the property line and the "Limit of Disturbance" line shown in Exhibit "A-2".

5. Terms of Agreement

This Agreement shall remain in force for a primary term of five (5) years beginning on the first date set forth above (the "Effective Date"), and for so long thereafter as operations are diligently pursued or oil or gas is being produced from a well or wells located on the well pad.

6. Counterparts.

This Memorandum of Surface Use and Damage Settlement Agreement may be executed in one or more counterparts, each of which will be deemed to be an original copy of this Memorandum of Surface Use and Damage Settlement Agreement and all of which, when taken together, will be deemed to constitute one and the same agreement.

THIS MEMORANDUM OF SURFACE USE AND DAMAGE SETTLEMENT AGREEMENT IS NOT A COMPLETE SUMMARY OF THE SURFACE USE AND

Re: Gina Pastors, et al 97.5 Acre Tract out of Ellsworth District in Tyler County,
West Virginia (Tax Parcel No. 2-15-24)

ORIGINAL DRILLING TITLE OPINION

DESCRIPTION OF LANDS

Tax Parcel No. 2-15-24, containing 97.5 acres, more or less, out of Ellsworth District in Tyler County, West Virginia, and being the same land described in a Deed, dated September 7, 1993, from Raymond L. Howell to Charles Fruner and wife, Wilda Lee Fruner, recorded in Book 300, Page 342, Office of the Clerk of the County Commission, Tyler County, West Virginia, hereinafter referred to as the "Subject Lands." The Subject Lands are shown on the plat attached hereto as Exhibit "A."

MATERIALS EXAMINED

1. Title Runsheet, prepared by S. A. Property Research, L.L.C.'s field landman for Statoil North America, Inc., covering the Subject Lands for the period from March 2, 1887 through and including January 30, 2014 in Tyler County, West Virginia (the "Title Runsheet");
2. The public records of Tyler County, West Virginia ("Records") for the period from March 2, 1887 through and including January 30, 2013, but only insofar as the same includes those documents set forth on the above described Title Runsheet as they pertain to the Subject Lands;

THE HEREINBELOW STATED OWNERSHIP INTERESTS AS SET FORTH IN THE OWNERSHIP SECTION HEREOF ARE EXPRESSLY SUBJECT TO THE COMMENTS, REQUIREMENTS AND LIMITATIONS SET FORTH HEREINBELOW. THIS OPINION IS RENDERED AS A COMPLETE DOCUMENT AND NO SEPARATE PART HEREOF SHOULD BE RELIED UPON TO THE EXCLUSION OF ANY OTHER PORTION HEREOF. THEREFORE, THIS OPINION SHOULD BE CONSIDERED IN ITS ENTIRETY.

OWNERSHIP

Based upon our examination of the materials referenced above, and subject to the comments, requirements, and limitations hereinafter set forth, we find title to the Subject Lands vests, as of January 30, 2014, as follows:

STATE OF WEST VIRGINIA OWNERSHIP UNDER PUBLIC ROADS

Based on the Materials Examined, the State of West Virginia is not vested with any interest in the oil and gas executive rights and mineral fee and the oil and gas royalty in and under any public roads located within the boundary of the Subject Lands.

SURFACE OWNERSHIP

1. Charles Fruner and wife, Wilda Lee Fruner (100%)	<u>1.00000000</u>
Total Surface Ownership:	1.00000000

OIL AND GAS EXECUTIVE RIGHTS

1. Gina Pastors (100%)	<u>1.00000000</u>
Total Oil and Gas Executive Rights Ownership:	1.00000000

State of West Virginia Ownership Under Public Roads

Based on the materials examined in the Clerk's office, the State of West Virginia is not vested with an interest in the subject oil and gas, executive rights, or royalty under any public roads located within the boundary of the subject tract. I arrived at this conclusion after reviewing the parcel on the tax map and noticing no county roads or turnpikes traversing it. Furthermore, there are no conveyances of record to the State of West Virginia or the County Commission for roads from the owners of the oil and gas. However, the Department of Transportation might have a different opinion so it is likely wise to contact it prior to drilling under roads, if any, that overlie the subject oil and gas.

- METHOD OF DELIVERY THAT REQUIRES A RECEIPT OR SIGNATURE CONFIRMATION

Pursuant to W. Va. Code § 22-6A-10(b) no later than the filing date of the application, the applicant for a permit for any well work or for a certificate of approval for the construction of an impoundment or pit as required by this article shall deliver, by personal service or by registered mail or by any method of delivery that requires a receipt or signature confirmation, copies of the application, the erosion and sediment control plan required by section seven of this article, and the well plat to each of the following persons: (1) The owners of record of the surface of the tract on which the well is or is proposed to be located; (2) The owners of record of the surface tract or tracts overlying the oil and gas leasehold being developed by the proposed well work, if the surface tract is to be used for roads or other land disturbance as described in the erosion and sediment control plan submitted pursuant to subsection (c), section seven of this article; (3) The coal owner, operator or lessee, in the event the tract of land on which the well proposed to be drilled is located [sic] is known to be underlain by one or more coal seams; (4) The owners of record of the surface tract or tracts overlying the oil and gas leasehold being developed by the proposed well work, if the surface tract is to be used for the placement, construction, enlargement, alteration, repair, removal or abandonment of any impoundment or pit as described in section nine of this article; (5) Any surface owner or water purveyor who is known to the applicant to have a water well, spring or water supply source located within one thousand five hundred feet of the center of the well pad which is used to provide water for consumption by humans or domestic animals; and (6) The operator of any natural gas storage field within which the proposed well work activity is to take place. (c)(1) If more than three tenants in common or other co-owners of interests described in subsection (b) of this section hold interests in the lands, the applicant may serve the documents required upon the person described in the records of the sheriff required to be maintained pursuant to section eight, article one, chapter eleven-a of this code. (2) Notwithstanding any provision of this article to the contrary, notice to a lien holder is not notice to a landowner, unless the lien holder is the landowner. W. Va. Code R. § 35-8-5.7.a requires, in part, that the operator shall also provide the Well Site Safety Plan ("WSSP") to the surface owner and any water purveyor or surface owner subject to notice and water testing as provided in section 15 of this rule.

Notice is hereby given:

Pursuant to West Virginia Code § 22-6A-10(b), notice is hereby given that the undersigned well operator has applied for a permit for well work or for a certificate of approval for the construction of a impoundment or pit.

WV Department of
Environmental Protection

This Notice Shall Include:

Pursuant to W. Va. Code § 22-6A-10(b), this notice shall include: (1) copies of the application; (2) the erosion and sediment control plan required by section seven of this article; and (3) the well plat.

Pursuant to W. Va. Code § 22-6A-10(f), this notice shall include: (1) a statement of the time limits for filing written comments; (2) who may file written comments; (3) the name and address of the secretary for the purpose of filing the comments and obtaining additional information; and (4) a statement that the persons may request, at the time of submitting written comments, notice of the permit decision and a list of persons qualified to test water.

Pursuant to W. Va. Code R. § 35-8-5.7.a, the operator shall provide the Well Site Safety Plan to the surface owner and any water purveyor or surface owner subject to notice and water testing as provided in section 15 of this rule.

Pursuant to W. Va. Code R. § 35-8-15.2.c, this notice shall: (1) contain a statement of the surface owner's and water purveyor's right to request sampling and analysis; (2) advise the surface owner and water purveyor of the rebuttable presumption for contamination or deprivation of a fresh water source or supply; advise the surface owner and water purveyor that refusal to allow the operator to conduct a pre-drilling water well test constitutes a method to rebut the presumption of liability; (3) advise the surface owner and water purveyor of his or her independent right to sample and analyze any water supply at his or her own expense; advise the surface owner and water purveyor whether or not the operator will utilize an independent laboratory to analyze any sample; and (4) advise the surface owner and or water purveyor that he or she can obtain from the Chief a list of water testing laboratories in the subject area capable of and qualified to test water supplies in accordance with standard acceptable methods.

Additional information related to horizontal drilling may be obtained from the Secretary, at the WV Department of Environmental Protection headquarters, located at 601 57th Street, SE, Charleston, WV 25304 (304-926-0450) or by visiting www.dep.wv.gov/oil-and-gas/pages/default.aspx.

Well Location Restrictions

Pursuant to W. Va. Code § 22-6A-12, Wells may not be drilled within two hundred fifty feet measured horizontally from any existing water well or developed spring used for human or domestic animal consumption. The center of well pads may not be located within six hundred twenty-five feet of an occupied dwelling structure, or a building two thousand five hundred square feet or larger used to house or shelter dairy cattle or poultry husbandry. This limitation is applicable to those wells, developed springs, dwellings or agricultural buildings that existed on the date a notice to the surface owner of planned entry for surveying or staking as provided in section ten of this article or a notice of intent to drill a horizontal well as provided in subsection (b), section sixteen of this article was provided, whichever occurs first, and to any dwelling under construction prior to that date. This limitation may be waived by written consent of the surface owner transmitted to the department and recorded in the real property records maintained by the clerk of the county commission for the county in which such property is located. Furthermore, the well operator may be granted a variance by the secretary from these distance restrictions upon submission of a plan which identifies the sufficient measures, facilities or practices to be employed during well site construction, drilling and operations. The variance, if granted, shall include terms and conditions the department requires to ensure the safety and protection of affected persons and property. The terms and conditions may include insurance, bonding and indemnification, as well as technical requirements. (b) No well pad may be prepared or well drilled within one hundred feet measured horizontally from any perennial stream, natural or artificial lake, pond or reservoir, or a wetland, or within three hundred feet of a naturally reproducing trout stream. No well pad may be located within one thousand feet of a surface or ground water intake of a public water supply. The distance from the public water supply as identified by the department shall be measured as follows: (1) For a surface water intake on a lake or reservoir, the distance shall be measured from the boundary of the lake or reservoir. (2) For a surface water intake on a flowing stream, the distance shall be measured from a semicircular radius extending upstream of the surface water intake. (3) For a groundwater source, the distance shall be measured from the wellhead or spring. The department may, in its discretion, waive these distance restrictions upon submission of a plan identifying sufficient measures, facilities or practices to be employed during well site construction, drilling and operations to protect the waters of the state. A waiver, if granted, shall impose any permit conditions as the secretary considers necessary. (c) Notwithstanding the foregoing provisions of this section, nothing contained in this section prevents an operator from conducting the activities permitted or authorized by a Clean Water Act Section 404 permit or other approval from the United States Army Corps of Engineers within any waters of the state or within the restricted areas referenced in this section. (d) The well location restrictions set forth in this section shall not apply to any well on a multiple well pad if at least one of the wells was permitted prior to the effective date of this article. (e) The secretary shall, by December 31, 2012, report to the Legislature on the noise, light, dust and volatile organic compounds generated by the drilling of horizontal wells as they relate to the well location restrictions regarding occupied dwelling structures pursuant to this section. Upon a finding, if any, by the secretary that the well location restrictions regarding occupied dwelling structures are inadequate or otherwise require alteration to address the items

examined in the study required by this subsection, the secretary shall have the authority to propose for promulgation legislative rules establishing guidelines and procedures regarding reasonable levels of noise, light, dust and volatile organic compounds relating to drilling horizontal wells, including reasonable means of mitigating such factors, if necessary.

Water Well Testing:

Pursuant to West Virginia Code § 22-6A-10(d), notification shall be made, with respect to surface landowners identified in subsection (b) or water purveyors identified in subdivision (5), subsection (b) of this section, of the opportunity for testing their water well. The operator shall provide an analysis to such surface landowner or water purveyor at their request.

Water Testing Laboratories:

Pursuant to West Virginia Code § 22-6A-10(i), persons entitled to notice pursuant to subsection (b) of this section may contact the department to ascertain the names and locations of water testing laboratories in the subject area capable and qualified to test water supplies in accordance with standard accepted methods. In compiling that list of names the department shall consult with the state Bureau for Public Health and local health departments. A surface owner and water purveyor has an independent right to sample and analyze any water supply at his or her own expense. The laboratory utilized by the operator shall be approved by the agency as being certified and capable of performing sample analyses in accordance with this section.

Rebuttable Presumption for Contamination or Deprivation of a Fresh Water Source or Supply:

W. Va. Code § 22-6A-18 requires that (b) unless rebutted by one of the defenses established in subsection (c) of this section, in any action for contamination or deprivation of a fresh water source or supply within one thousand five hundred feet of the center of the well pad for horizontal well, there is a rebuttable presumption that the drilling and the oil or gas well or either was the proximate cause of the contamination or deprivation of the fresh water source or supply. (c) In order to rebut the presumption of liability established in subsection (b) of this section, the operator must prove by a preponderance of the evidence one of the following defenses: (1) The pollution existed prior to the drilling or alteration activity as determined by a predrilling or prealteration water well test. (2) The landowner or water purveyor refused to allow the operator access to the property to conduct a predrilling or prealteration water well test. (3) The water supply is not within one thousand five hundred feet of the well. (4) The pollution occurred more than six months after completion of drilling or alteration activities. (5) The pollution occurred as the result of some cause other than the drilling or alteration activity. (d) Any operator electing to preserve its defenses under subdivision (1), subsection (c) of this section shall retain the services of an independent certified laboratory to conduct the predrilling or prealteration water well test. A copy of the results of the test shall be submitted to the department and the surface owner or water purveyor in a manner prescribed by the secretary. (e) Any operator shall replace the water supply of an owner of interest in real property who obtains all or part of that owner's supply of water for domestic, agricultural, industrial or other legitimate use from an underground or surface source with a comparable water supply where the secretary determines that the water supply has been affected by contamination, diminution or interruption proximately caused by the oil or gas operation, unless waived in writing by that owner. (f) The secretary may order the operator conducting the oil or gas operation to: (1) Provide an emergency drinking water supply within twenty-four hours; (2) Provide temporary water supply within seventy-two hours; (3) Within thirty days begin activities to establish a permanent water supply or submit a proposal to the secretary outlining the measures and timetables to be used in establishing a permanent supply. The total time in providing a permanent water supply may not exceed two years. If the operator demonstrates that providing a permanent replacement water supply cannot be completed within two years, the secretary may extend the time frame on case-by-case basis and (g) Pay all reasonable costs incurred by the real property owner in securing a water supply. (h) A person as described in subsection (b) of this section aggrieved under the provisions of subsections (b), (e) or (f) of this section may seek relief in court... (i) Notwithstanding the denial of the operator of responsibility for the damage to the real property owner's water supply or the status of any appeal on determination of liability for the damage to the real property owner's water supply, the operator may not discontinue providing the required water service until authorized to do so by the secretary or a court of competent jurisdiction.

Written Comment:

Pursuant to West Virginia Code § 22-6A-11(a), all persons described in subsection (b), section ten of this article may file written comments with the secretary as to the location or construction of the applicant's proposed well work within thirty days after the application is filed with the secretary. All persons described in West Virginia Code § 22-6A-10(b) may file written comments as to the location or construction of the applicant's proposed well work to the Secretary at:

Chief, Office of Oil and Gas
Department of Environmental Protection

Time Limits and Methods for Filing Comments.

The law requires these materials to be served on or before the date the operator files its Application. You have **THIRTY (30) DAYS** after the filing date to file your comments. Comments must be filed in person or received in the mail by the Chief's office by the time stated above. You may call the Chief's office to be sure of the date. Check with your postmaster to ensure adequate delivery time or to arrange special expedited handling. If you have been contacted by the well operator and you have signed a "voluntary statement of no objection" to the planned work described in these materials, then the permit may be issued at any time.

Pursuant to West Virginia Code § 22-6A-11(c)(2), Any objections of the affected coal operators and coal seam owners and lessees shall be addressed through the processes and procedures that exist under sections fifteen, seventeen and forty, article six of this chapter, as applicable and as incorporated into this article by section five of this article. The written comments filed by the parties entitled to notice under subdivisions (1), (2), (4), (5) and (6), subsection (b), section ten of this article shall be considered by the secretary in the permit issuance process, but the parties are not entitled to participate in the processes and proceedings that exist under sections fifteen, seventeen or forty, article six of this chapter, as applicable and as incorporated into this article by section five of this article.

Comment Requirements

Your comments must be in writing and include your name, address and telephone number, the well operator's name and well number and the approximate location of the proposed well site including district and county from the application. You may add other documents, such as sketches, maps or photographs to support your comments.

Disclaimer: All comments received will be placed on our web site <http://www.dep.wv.gov/oil-and-gas/Horizontal-Permits/Pages/default.aspx> and the applicant will automatically be forwarded an email notice that such comments have been submitted. The applicant will be expected to provide a response to comments submitted by any surface owner, water purveyor or natural gas storage operator noticed within the application.

Permit Denial or Condition

The Chief has the power to deny or condition a well work permit. Pursuant to West Virginia Code § 22-6A-8(d), the permit may not be issued or be conditioned, including conditions with respect to the location of the well and access roads prior to issuance if the director determines that:

- (1) The proposed well work will constitute a hazard to the safety of persons;
- (2) The plan for soil erosion and sediment control is not adequate or effective;
- (3) Damage would occur to publicly owned lands or resources; or
- (4) The proposed well work fails to protect fresh water sources or supplies.

A permit may also be denied under West Virginia Code § 22-6A-7(k), the secretary shall deny the issuance of a permit if the secretary determines that the applicant has committed a substantial violation of a previously issued permit for a horizontal well, including the applicable erosion and sediment control plan associated with the previously issued permit, or a substantial violation of one or more of the rules promulgated under this article, and in each instance has failed to abate or seek review of the violation within the time prescribed by the secretary pursuant to the provisions of subdivisions (1) and (2), subsection (a), section five of this article and the rules promulgated hereunder, which time may not be unreasonable.

Pursuant to West Virginia Code § 22-6A-10(g), any person entitled to submit written comments to the secretary pursuant to subsection (a), section eleven of this article, shall also be entitled to receive from the secretary a copy of the permit as issued or a copy of the order modifying or denying the permit if the person requests receipt of them as a part of the written comments submitted concerning the permit application. Such persons may request, at the time of submitting written comments, notice of the permit decision and a list of persons qualified to test water.

Dear Mr. Martin,

The West Virginia Division of Highways has issued Permit # 06 -2014-0555 for the subject site to Statoil USA Onshore Properties Inc. for access to the State Road for the well site located off of Tyler County Route 18/6 SLS.

The operator has signed a STATEWIDE OIL AND GAS ROAD MAINTENANCE BONDING AGREEMENT and provided the required Bond. This operator is currently in compliance with the DOH OIL AND GAS POLICY dated January 3, 2012.

Very Truly Yours,

Gary K. Clayton, P.E.
Regional Maintenance Engineer
