

MARY AND W. A. BROWN NO. 1353 (ML&H) 633 (UGO) WELL.

No. 208 O. F.-Tyler.

Ellsworth District, Tyler County, W. Va.

The Manufacturers Light & Heat Co., 800 Union Trust Bldg.,
Pittsburgh, Pa.

On 40 acres, surface owned by Amanda Sole, New Martinsville, W. Va.,
and mineral rights by ML&H Co., Pittsburgh, Pa.

Drilled prior to June 1, 1929.

Elevation, 1208'.

10" casing, 120'; 8 $\frac{1}{2}$ " , 1130'; 6-5/8" , 1750'.

Abandonment reported to Dept. of Mines Oct. 9, 1933.

NOTE:-This well was drilled about 35 years ago by the Wetzel Gas Co.,
and no well log is available from our records. The only information we have is as follows:

The well is 1900 feet deep, producing from the Big Injun Sand,
and it contains the following casing:

120 feet of 10"
1130 feet of 8 $\frac{1}{2}$ "
1750 feet of 6-5/8".

The producing sands which will be plugged, as set out in the
Work Order, are arrived at by obtaining the level from our Amanda
Sole well No. 1969, which is less than 2000 feet distant, and from
this information we have ascertained that the Pittsburgh Coal in
this well is at a depth of 648 feet.
