ADDRESS

502 Locust Avenue - Fairmont, W. Va.
COMPLETE ADDRESS

Hon. S. Ray Shelby 1/4 int.
COAL OPERATOR OR COAL OWNER

May 29, 1936
PROPOSED LOCATION

Fayette Title and Trust Co. Bldg.,
ADDRESS

Fish Creek
Church District

Uniontown, Pa.
OWNER OF MINERAL RIGHTS

Wetzel County

Well No. 1 and 2

Jane Leezer Heirs Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated Dec 7, 1935

made by Jane Leezer Heirs, to

Curtis B. Fleming, and recorded on the 13th day

of February, Wetzel County, in the office of the County Clerk for said County in

Book No. 30, page 411

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Act, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address day before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

Curtis B. Fleming

June 2, 1936

Hon. S. Ray Shelby
Fayette Title and Trust Company Bldg.,
Uniontown, Pa.

Dear Sirs:

A notice of a proposed location of oil or gas Well No. 1 and 2 on the Jane Leezer Hoirs Farm, Fish Creek - Church District, Wetzel County, has been received from Curtis B. Fleming, Fairmont, West Virginia. A copy of the notice and location plat should have been mailed you by the well operator.

If you have any objections to the proposed location that come und er our jurisdiction, please file same not later than June 12, 1936.

Very truly yours,

Oil and Gas Division.

Dear Mr. Griffith:

This is to acknowledge receipt of your letter under date June 8, concerning the proposed drilling of Well No. 1, Jane Leezer Heirs Farm, Church District, Wetzel County, and your letter under the same date concerning the drilling of well No. 2, on the same property as above described.

This office received notice of the proposed location from Mr. Curtis B. Fleming, and he was informed insofar as the State was concerned in this connection there would be no objections filed against the drilling of said wells.

Very truly yours,

July 23, 1936

Mr. J. S. Cammer, Geologist
Fairmont, West Virginia

Dear Sir:

In reply to your inquiry of July 21 concerning Curtis Fleming's wells on the Jane Leezer Farm, I wish to advise there are no exceptions in the Law concerning the plugging of wells. Non-productive wells must be abandoned according to the law.

For one thing, these wells are located in coal territory and as stated above the Law makes no exception.

Very truly yours,

OIL AND GAS DIVISION.

J. SIDNEY CAMMER
GEOLOGIST
FAIRMONT, WEST VIRGINIA

July 21, 1936.

Dept. of Mines,
Charleston, W. Va.

Gentlemen:

Are any different requirements for plugging a well that is totally dry? or is there any specific need of plugging it at all, other than for the prevention of crippling stock that may be allowed in the field.

Personally I could not see any reason for plugging it other than for the prevention of crippling stock do you.

May I have your reply as the Fleming well No. 1 on the Jane Leezer Farm in Church Dist. of Wetzel Co. so far is totally dry, and if it continues so to be I was wondering if the (Mr. Fleming) need be put to the usual cost of plugging when there is no production.

Awaiting your reply, and with kindest personal regards, I remain,

JSC/JW.

Yours very truly,

E-4

Hundred, W. Va.
