MARY A. SOLE

Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated

JUNE 2, 1915

made by MARY A. SOLE, Et al.,

to

CARNEGIE NATURAL GAS COMPANY

and recorded on the 22nd day

of APRIL, 1919

in the office of the County Clerk for said County in

Book 12-A, page 381.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address day before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

CARNEGIE NATURAL GAS COMPANY

*Section 3. If no such objections be filed, or be found by the department of mines, within said period of ten days from the receipt of said notice and plat by the department of mines, to said proposed location, the department shall forthwith issue to the well operator a drilling permit reciting the filing of such plat, that no objections have been made by the coal operators to the location, or found thereto by the department, and that the same is approved and the well operator authorized to proceed to drill at said location.

OPAL RIGHTS, W. VA.

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas having the title thereto for as the case may be, under grant of lease dated

ALEX. A. BOLL, ET AL.

JULY 2, 1910

CARRIAGE APPARATUS COMPANY

and located on the

APRIL, 1910

in the office of the County Clerk for said County, in

Book 28-A, page 361.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Mineral District and County above named, examined by survey and corners and distances from the permanent points on land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds or coal beneath said farm or tract of land on which said well is located, or within 500 feet of the point of the same who have marked their workings and their title as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or when they are required to make an objection to said location, the filing of a well at said proposed location will cause a dangerous condition in an event their respective coal mines must be received by or filed with the Department of Mines within ten days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators and owners are notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth in detail as to why they are so made, the proposed or granted, in which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective addresses, days before, on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

PROPOSED MANNER OF PLUGGING AND FILLING WELL

(REQUIRED BY RULES AND REGULATIONS)

WEST VIRGINIA DEPARTMENT OF MINES

OIL AND GAS DIVISION

WORK ORDER

Well to be plugged and filled as follows:

Total depth of well 3131'
Fill with clay 3131' - 2842'
Fill with cement 2842' - 2832', sealing Gordon, 4th and 5th sands
Fill with clay 2832' - 2788'
Fill with cement 2788' - 2778'
Fill with clay 2778' - 2691'
Fill with cement 2691' - 2681', sealing Thirty foot sand
Anchor permanent bridge at 2215, one sack neat cement on bridge.
Fill with clay to 1940'
Fill with cement 1940' - 1930'
Remove 1925' of 6 5/8" casing
Anchor permanent bridge at 1770', one sack neat cement on bridge.
Fill with clay to 1275'
Fill with cement 1275' - 1265', sealing Gas sand and 1st, 2nd, and 3rd Salt Sands
Fill with clay 1265' - 1055'
Fill with cement 1055' - 1045, sealing Little and Big Dunkard sands
Remove 1040' of 8 1/4" casing
Fill with clay 1045' - 795'
Fill with cement 795' - 785', sealing Murphy sand
Fill with clay 785' - 763'
Fill with cement 763' - 705', this being 30' below to 20' above Pittsburgh Coal
Fill with clay 705' - 660'
Fill with cement 660' - 605', this being 30' below to 20' above Mapletown Coal
Fill with clay 605' - 105'
Fill with cement 105' - 95', sealing off all surface water.
Remove 90' of 10" casing
Fill with clay to surface.

Erect marker such as described in Rule 18, 1931 Regulations.
All work to be done in workmanlike manner.

To the Department of Mines,
Coal Owner or Operator,
Lease or Property Owner.

Gentlemen:

This "work order" is submitted for your approval and concurrence and unless notified of your disapproval or non-concurrence, the undersigned will proceed with the plugging and filling of said well in the above described manner on the date stated in the notice of intention to plug and abandon the said well on opposite side of this sheet.

Very truly yours, CARNEGIE NATURAL GAS COMPANY

By: President. Well Operator.

No objections have been filed by the coal owner or coal operator, or any available adjacent lease or property owners or interposed by the Department of Mines to the manner herein described for the plugging and filling of the well above mentioned. Therefore, the same is hereby approved this 5th day

of October, 1923.

09/22/2023

DEPARTMENT OF MINES
Oil and Gas Division

By:

NOTE: This "work order" must be filed in duplicate, one copy for the files of the Department of Mines and the other to be approved or corrected and returned to the well operator as his authority for plugging said well.

Gentlemen:—

The undersigned well operator is about to abandon the above described well and will commence the

work of plugging and abandoning said well on the 8th day of October, 19 40, (which date shall not be less than five days after the day on which this notice so mailed is received, or in due course should be received by the Department of Mines).

This notice is given you in order that your respective representatives may be present at the plugging and filling of said well. You are further notified that whether you are represented or not represented the undersigned will proceed on that date, or shortly thereafter, to plug and fill said well in the manner required by Section 10, Article 4, Chapter 22 of the Code and given in detail on the reverse side of this notice, in "Work Order."

This notice is being mailed by registered mail to each of you at the above addresses on the above date.

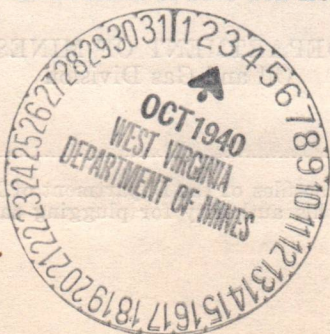

Very truly yours, CARNEGIE NATURAL GAS COMPANY

By *[Signature]*
President. Well Operator.

NOTE: Upon the abandonment of all wells drilled prior to June 1, 1929, a plat prepared by a competent engineer, showing the district and county in which the tract of land is located, the name and acreage of same, the names of the owners of adjacent tracts, and the location of the about to be abandoned well, determined by survey, and the courses and distances of such well from two permanent points or landmarks on said tract, shall be submitted with this notice.

Gentlemen:

On July 17th we received your formal notice to deepen Well No. 1-520 on the Mary A. Sole Farm, Church District, Wetzel County, and you gave the coal operator as Burton Coal Company, 747 Union Trust Building, Pittsburgh, Pennsylvania.

We are in receipt of a letter from W. W. Booth, former representative of the Burton Coal Company, and he advises us that the correct address is 255 McClellandtown Road, Uniontown, Pennsylvania.

We are sending the notice of your deepening to the new address, but as ten days notice is required by the law to be given to the coal operator, the formal permit for this well cannot be issued until August 1st unless objections are waived by the coal operator.

Very truly yours,

Secretary

Dear Sirs:

Enclosed you will find partial plugging record of the Mary A. Sole well #1-520 located in Church District, Wetzel County, West Virginia.

After the 6" casing was removed the well was found to be producing gas in paying quantities from a sand at a depth of 1055' to 1065'.

The well was plugged in accordance with Plugging Permit WET-238-P to 1095' and a string of 3" tubing installed with an anchor packer set at 1028'.

No casing was removed other than the 6-5/8" shown on Plugging Permit.

The well will be operated as a gas well.

Yours very truly,

CARNEGIE NATURAL GAS COMPANY,

Clarence Sweeney
General Superintendent.
