Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated.....

July 23, 1936

made by L. M. Swearingen

Witoga Oil Co.

and recorded on the 31 day

of July, 1936

in the office of the County Clerk for said County in

Book 214, page 177

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Act, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten\* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above

named coal operators or coal owners at their above shown respective address.....day... before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

Maurice A. Wilber

Dear Sir:

We have your plat for Well No. 4 on the John J. Leonhart Farm, Walker District, Wood County and would appreciate your filling out the enclosed blank which is your formal notice to this Department.

In the future, please send tracing in mailing tube to prevent damage from folding and show by the cross explained on the right side of the tracing, the location on the United States Topographic Map.

Please return the enclosed form as soon as possible as the Owner of the Minerals will have to be notified or the owner of the coal if there is any coal. This requires ten days before the permit can be issued.

Very truly yours,

OIL AND GAS DIVISION.
