Please find enclosed Record of well
and also Permit for Plugging
and abandon Well

We drilled this well to salt sand
as you will see by Record. and Plugged
back up to Cow Run Sand to shoot
and see if we could make a well out
of it.

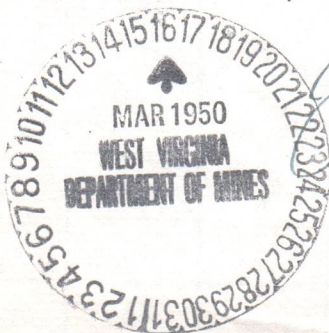

After shooting Cow Run and found
out it was no good I call Mr. O.C.
Howard at Grantsville, and he gave
me permit to plug above the sand and
then when we got our Permit we would
finish up.

The reason I did this was that the
hole was caving pretty bad and wanted
to do this while we had the hole clear

Dear Sir:

We are in receipt of your application and well log to abandon Well No. 4 on the L. E. McClure Farm, Williams District, Wood County and note that this well was completed in November 1949. We are unable to locate anything in our files to show that a permit was issued to drill the well. Was it drilled without permit?

Please let us hear from you by return mail.

Will say that I did not
get a permit to drill the well.

In fact I did not know I had to since
the war, although I did no drilling during
the war.

I am very sorry about this and
will not let it happen again.

If there is anything to do to get
the related permit.

Please let me know

Dear Sir:

Enclosed is permit to abandon Well No. 4 on the L. E. McClure Farm, Williams District, Wood County and we have had to record on the state files that the well was drilled without permit. The Oil and Gas Laws have been on the statute books in West Virginia since 1929 and anyone operating in the state for oil or gas, should acquaint themselves with the laws of the state.

The Department has always been reluctant to prosecute anyone and we will not do so in this case, however, we will appreciate receiving the proper affidavit of plugging as soon as the work is completed. Mr. O. C. Howard, Inspector will be glad to explain this blank to you. One copy is required in this office.

Very truly yours,

Administrative Assistant
