Total Depth	3428	

An excellent Brown Shale body. Shale a good per cent of all shale samples.

This well shot 10,550# Detonite 2356 - 3428. Test Before Shot 114 M of which most of gas was in Big Lime.
Tubed 129 M Lime, 834 M Shale, total 963 M.
From the samples this should make one of the best wells on the Wilson Coal Land Company tract.
