Mr. McLaughlin –

Please accept this as our request for a Permit Modification on the King 20H; API #47-01502906. We intend to change the well plan slightly to drill vertically through the lime and then make our curve up into the Big Injun. This change is in an attempt to avoid any cave-in issues. We will still be utilizing the same initial well bore and we intend to drill this section on air.

Should you have any questions, please feel free to contact us at (304) 344-9291.

Best Regards,

Ryan Cunningham
