WELL WORK PERMIT  
Horizontal / New Drill

CUNNINGHAM ENERGY, LLC  
3230 PENNSYLVANIA AVENUE

CHARLESTON, WV 25302

Re: Permit approval for SAMPLES 7H  
47-039-06380-00-00

This well work permit is evidence of permission granted to perform the specified well work at the location described on the attached pages and located on the attached plat, subject to the provisions of Chapter 22 of the West Virginia Code of 1931, as amended, and all rules and regulations promulgated thereunder, and to any additional specific conditions and provisions outlined in the pages attached hereto. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations, and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing. Spills or emergency discharges must be promptly reported by the operator to 1-800-642-3074 and to the Oil and Gas Inspector.

Please be advised that form WR-35, Well Operators Report of Well Work is to be submitted to this office within 90 days of completion of permitted well work, as should form WR-34 Discharge Monitoring Report within 30 days of discharge of pits, if applicable. Failure to abide by all statutory and regulatory provisions governing all duties and operations hereunder may result in suspension or revocation of this permit and, in addition, may result in civil and/or criminal penalties being imposed upon the operators.

Per 35 CSR 4-5.2.g this permit will expire in two (2) years from the issue date unless permitted well work is commenced. If there are any questions, please feel free to contact me at (304) 926- 0450.

James A. Martin  
Chief

Operator's Well Number: SAMPLES 7H  
Farm Name: HUFFMAN, ROBERT  
U.S. WELL NUMBER: 47-039-06380-00-00  
Horizontal / New Drill  
Date Issued: 10/13/2016

Promoting a healthy environment.

# PERMIT CONDITIONS

West Virginia Code §22-6-11 allows the Office of Oil and Gas to place specific conditions upon this permit. Permit conditions have the same effect as law. Failure to adhere to the specified permit conditions may result in enforcement action.

## CONDITIONS

---

1. If the operator encounters an unanticipated void, or an anticipated void at an unanticipated depth, the operator shall notify the inspector within 24 hours. Modifications to the casing program may be necessary to comply with W. Va. Code §22-6-20, which requires drilling to a minimum depth of thirty feet below the bottom of the void, and installing a minimum of twenty (20) feet of casing. Under no circumstance should the operator drill more than fifty (50) feet below the bottom of the void or install less than twenty (20) feet of casing below the bottom of the void.
2. Pursuant to 35 CSR 4-19.1.a, at the request of the surface owner all water wells or springs within 1000 feet of the proposed well that are actually utilized for human consumption, domestic animals or other general use shall be sampled and analyzed.
3. Pursuant to 35 CSR 4-19.1.c, if the operator is unable to sample and analyze any water well or spring with one thousand (1,000) feet of the permitted well location, the Office of Oil and Gas requires the operator to sample, at a minimum, one water well or spring located between one thousand (1,000) feet and two thousand (2,000) feet of the permitted well location.
4. All pits must be lined with a minimum of 30 mil thickness synthetic liner.
5. In the event of an accident or explosion causing loss of life or serious personal injury in or about the well or while working on the well, the well operator or its contractor shall give notice, stating the particulars of the accident or explosion, to the oil and gas inspector and the Chief within twenty-four (24) hours.
6. During the surface casing and cementing process, in the event cement does not return to the surface, or any other casing string that is permitted to circulate cement to the surface and does not return to the surface, the oil and gas inspector shall be notified within twenty-four (24) hours.
7. Well work activities shall not constitute a hazard to the safety of persons.
8. Operator shall provide the Office of Oil & Gas notification of the date that drilling commenced, drilling ceased, completion of any other permitted well work and completion of the well. Such notice shall be provided by sending an email to [DEPOOGNotify@wv.gov](mailto:DEPOOGNotify@wv.gov) within 30 days of commencement of drilling.
9. Prior to any hydraulic fracturing of this well, the Stump No. 1 well (API No. 4703906384) must be plugged.

10. A limited volume of wastewaters may be discharged to land only with the approval of the OOG Inspector to achieve compliance with the provisions for waste treatment and the discharge limitations and monitoring requirements specified under the General Water Pollution Control Permit (GP-WV-1-88).
  
11. Be advised that if you drill a horizontal gas well other than a coalbed methane well, which disturbs three acres or more of surface, excluding pipelines, gathering lines and roads, or utilizes more than two hundred ten thousand gallons of water in any thirty day period it would require a permit/bond under Chapter 22-6A.

## Inspector's Addendum of Samples 6, 7, 8, 9# wells

- ① Operator shall contact Inspector 8 hours in Advance of casing and cementing All CASINGS. Including time of Service Company ARRIVALS. Contact in Advance of Frac jobs
- ② Conduct on AREA of Review to Inspector to have possible communication of pressurized Drilling & Treatment
- ③ Starting from Doctor's Creek Tank Battery will maintain Access road's sediment & Erosion controls including Rip Rapping ditch's with more than 15% grade. Make SURE ~~all~~ culverts, sediment & Erosion Device's are in place & maintained
- ④ Pits on Engineered Drawing's are Close 5000 BBL Exclusion. Cunningham Energy will have pits surveyed when being built. All soils will be cleaned compacted so NOT to go above exclusion & will be verified as such. This doesn't Exclude the use of propping & liner help in Breach of pits Must use a minimum 30 mill liner. but larger mill would be acceptable
- ⑤ Must contact USACE to Address Ephemeral Stream between Old & New Construction

3906380

Mr. Jeffrey McLaughlin  
WV DEP Office of Oil and Gas

Addendum to Samples 6H, 7H, 8H, 9H

Mr. McLaughlin:

The following wells were identified for plugging and/or have already been plugged to prevent communication during the frac process on our planned horizontal wells

Cromwell #2 – 47-3904907

Stamp #1 47-3906384

The following wells are producing wells at the same elevation which we will monitor during both the drilling and fracking process:

Cromwell 1A – 47-03906303

Cromwell 2A – 47-03906304

Samples 5 – 47-03906306

Crum 1A – 47-03906349

Crum 2A – 47-03906350

Mary Bird 1A – 47-03906345

Bird Dodd 1A – 47-03906321

Samples 4 – 47-03906305. This well is located near the origin points of all the horizontals to be drilled, however, the Samples 6H, 7H, 8H, and 9H will all be over 500' away from the Samples #4 vertical wellbore when the TVD reaches the Weir Sand. Therefore, we do not anticipate this well being a communication risk.

The following well is shown in this area as well however as per DEP records this well was never drilled:

5770 Farm Name: Fred Gardner API: 47-039-01277

We anticipate the treating pressures will be between 2400 – 3000 psi.

Sincerely,

Danielle Boggs  
Cunningham Energy, LLC

Mr. Jeffrey McLaughlin  
WV DEP Office of Oil and Gas

Addendum to Samples 6H, 7H, 8H, 9H

Dear Mr. McLaughlin:

As shown on Form W-9 the disposal pits for the Samples 6H, 7H, 8H and 9H crosses surface property of both Mr. Robert Huffman and Mr. L. Dale Ashley. We maintain leases on both pieces of property. The disposal pits are temporary in nature and will be reclaimed after completion of all the pad wells.

When constructing the disposal pits Cunningham Energy intends to separate the cut/fill dirt according to the surface property boundaries. When removed the cut/fill dirt from Mr. Huffman's property will be stored on his property for later use during the reclamation process and the same with Mr. Ashley's cut/fill dirt.

We will be notifying both parties of our intentions via the permit package which will contain this letter.

Should you have any questions, please feel free to contact us at (304) 344-9291.

Best Regards,

Ryan Cunningham

Well No. SAMPLES 7H

West Virginia Department of Environmental Protection  
Office of Oil and Gas

NOTICE TO SURFACE OWNERS

The well operator named below is preparing to file for a permit from the state to drill a new well. Before a well work permit can be filed with the Chief of the Office of Oil and Gas, the well operator is required to have given notice of the right to request water well or spring analytical testing. This notice shall be given to the owners or occupants of land which have a water well or spring being utilized for human consumption, domestic animals, or other general use and which is located within 1000 feet of the proposed well site.

With this form, the operator is giving you notice of your right to request analytical testing. The operator is required to sample and analyze the water wells or springs of all owners or occupants who request it. Therefore, if you wish to have your water well or spring tested, contact the operator named below.

All sampling shall be completed prior to drilling. Within thirty (30) days of the receipt of such sample analyses the operator shall submit the results to the Chief of the Office of Oil and Gas and to the owners or occupants who may have requested them.

Be advised, you have the right to sample and analyze any water supply at your own expense.

Listed below is the laboratory chosen by operator to perform analysis, and contactor chosen to collect sample.

Certified Laboratory Name STURM ENVIRONMENTAL  
Sampling Contractor HUPP SURVEYING

Well Operator CUNNINGHAM ENERGY, LLC  
Address 3230 PENNSYLVANIA AVENUE  
CHARLESTON, WV 25302  
Telephone 304-344-9291

FOR OPERATOR'S USE ONLY: Below, or on an attached page, list those persons which were given this notice. Place an asterisk beside the one(s) that contacted you and requested sampling and analyses. If there were no requests made, indicate by underling which one you have selected to sample and analyze. If there are no water wells or springs within 1000 feet of the proposed site, the Chief may require the operator to test wells up to 2000 feet from the proposed site.

(5/16)

3906380

API Number 47 - 039 - \_\_\_\_\_  
Operator's Well No. SAMPLES 7H

STATE OF WEST VIRGINIA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
OFFICE OF OIL AND GAS  
FLUIDS/ CUTTINGS DISPOSAL & RECLAMATION PLAN

Operator Name CUNNINGHAM ENERGY, LLC OP Code 494508594

Watershed (HUC 10) DOCTOR'S CREEK Quadrangle CLIO 7.5'

Do you anticipate using more than 5,000 bbls of water to complete the proposed well work? Yes  No

Will a pit be used? Yes  No

If so, please describe anticipated pit waste: DRILL CUTTINGS, FLUIDS FROM DRILLING AND FRACTURING.

Will a synthetic liner be used in the pit? Yes  No  If so, what ml.? 30 MIL

Proposed Disposal Method For Treated Pit Wastes:

- Land Application (if selected provide a completed form WW-9-GPP)
- Underground Injection ( UIC Permit Number 2D0392210 )
- \_\_\_\_ Reuse (at API Number \_\_\_\_\_ )
- \_\_\_\_ Off Site Disposal (Supply form WW-9 for disposal location)
- \_\_\_\_ Other (Explain \_\_\_\_\_)

Will closed loop system be used? If so, describe: NO

Drilling medium anticipated for this well (vertical and horizontal)? Air, freshwater, oil based, etc. AIR; FRESHWATER

-If oil based, what type? Synthetic, petroleum, etc. \_\_\_\_\_

Additives to be used in drilling medium? SOAP; KCL AND/OR CLAY STABILIZER

Drill cuttings disposal method? Leave in pit, landfill, removed offsite, etc. LEAVE IN PIT/HAUL IF NEEDED

-If left in pit and plan to solidify what medium will be used? (cement, lime, sawdust) CEMENT & LIME

-Landfill or offsite name/permit number? CITY OF CHARLESTON LANDFILL

Permittee shall provide written notice to the Office of Oil and Gas of any load of drill cuttings or associated waste rejected at any West Virginia solid waste facility. The notice shall be provided within 24 hours of rejection and the permittee shall also disclose where it was properly disposed.

I certify that I understand and agree to the terms and conditions of the GENERAL WATER POLLUTION PERMIT issued on April 1, 2016, by the Office of Oil and Gas of the West Virginia Department of Environmental Protection. I understand that the provisions of the permit are enforceable by law. Violations of any term or condition of the general permit and/or other applicable law or regulation can lead to enforcement action.

I certify under penalty of law that I have personally examined and am familiar with the information submitted on this application form and all attachments thereto and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment.

Field Reviewed?  Yes  No

STATE OF WEST VIRGINIA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
OFFICE OF OIL AND GAS  
GROUNDWATER PROTECTION PLAN

Operator Name: CUNNINGHAM ENERGY, LLC  
Watershed (HUC 10): DOCTORS CREEK Quad: CLIO 7.5  
Farm Name: ROBERT HUFFMAN

- 1. List the procedures used for the treatment and discharge of fluids. Include a list of all operations that could contaminate the groundwater.

Prior to discharge of fluid from a drilling pit, the fluid will be circulated by placing a pump with suction in one end of the pit and the fluid discharged into the other end of the pit, lime will be added as necessary to the discharge end of the pit, and the fluid circulated for turnover of two pit volumes. Field samples will be taken of the pit fluid to determine pre-discharge parameters respective to WVDEP - OOG regulations; and, any visible free floating oil other than trace amounts that may be present will be removed from the suction/discharge area of the pit. Samples will be taken at various points of the discharge for testing.

- 2. Describe procedures and equipment used to protect groundwater quality from the list of potential contaminant sources above.

Drilling pits will be lined with a minimum of 30 mil thickness synthetic liner. Drill cuttings disposal will be in conformance with the Fluids/Cuttings Disposal & Reclamation Plan (Form WW-9) as submitted within the application for this well. Land application of treated drilling pit wastewaters will conform with the applicable procedures specified within the WVDEP OOG's General Water Pollution Control Permit No. GP-WV-1-88.

- 3. List the closest water body, distance to closest water body, and distance from closest Well Head Protection Area to the discharge area.

Doctor's Creek is the closest water body this well will be approximately 1/2 mile from this water body. The closest WV Groundwater Public Water Supply Intake is Carbide Rec. Club, Blue Creek Well, Well #1 and the closest WV Surface Water Downstream Public Water Supply Intake is WVAWC Kan. Valley Dist. WVAWC Kan. Valley Primary Elk River.

- 4. Summarize all activities at your facility that are already regulated for groundwater protection.

Well drilling, associated casing installation and cementing, well stimulation, and other typical activities as may be encountered during the exploratory, developmental, maintenance/reworking, treatment operations and closure phases of this well are already regulated in the well work permit and provide groundwater protection measures.

OFFICE RECEIVED  
Oil and Gas  
SEP 01 2016  
WV Department of  
Environmental Protection

- 5. Discuss any existing groundwater quality data for your facility or an adjacent property.

No existing groundwater quality data is known to currently be available for this site. Cunningham Energy, LLC has provided a written request to the respective surface owner/occupant seeking permission to perform water well/spring analytical testing. We will perform all requested testing by these surface owner/occupants.

6. Provide a statement that no waste material will be used for deicing or fill material on the property.

No waste material originating from this well site will be used for either deicing purposes or as fill material upon the property. Land application of drilling pit fluid may, however, be conducted in conformance with the applicable procedures specified within the WVDEP, OOG's General Water Pollution Control Permit No. GP-WV-1-88. Additionally, drill cuttings may remain in place in conformance with the Fluids/Cuttings Disposal and Reclamation Plan as submitted within the approved application for this well.

7. Describe the groundwater protection instruction and training to be provided to the employees. Job procedures shall provide direction on how to prevent groundwater contamination.

The groundwater protection instruction and training for employees will include required reading of this Groundwater Protection Plan (GPP). The GPP will also be discussed in employee meetings. New employees will be required to review the GPP.

8. Provide provisions and frequency for inspections of all GPP elements and equipment.

The well operator will perform quarterly self-inspections of respective equipment and all GPP elements.
