RE: Austin Griffith No.1  
Duval District, Lincoln County, WV

Dear Mr. Blankenship:

Gene Smith recently brought to our attention a well numbering mix-up on the Austin Griffith lease in Lincoln County, WV. There were two wells drilled on this lease which were numbered 1 (or 01). The original well No.1 was drilled to the Berea in 1907 and has never been assigned an API number. The second well, No.01, was drilled in 1942 under permit number 47-043-0389. It was drilled to the Oriskany and subsequently plugged back to the Berea before being sold to Mountain Lumber Company in 1948. For years our maps have incorrectly shown the original Austin Griffith No.1 as being 47-043-0389 so there may be some erroneous plats on file with your office.

I have enclosed a plat of the Austin Griffith No.1 for which we would like to have an API number assigned. If you have any questions on this issue you can contact me at (304) 480-2220 or Philip Ondrusek at 304-480-2207.

Very truly yours,

Timothy P. Roush
