Drill Deeper
Abandonment

Charles S. Reed, c/o
Farm: Andrew Geiger
Tract: Acres 57.8
Well (Farm) No.: 2
Serial No.
Elevation (Spirit Level): 2461.5

Quadrangle: Littleton NE

Marshall County
Engineer: J. Herbert Higgins, 48.3. No. 91
Engineer's Registration No.
File No.
Date: 5-24-71

Scale: 1" = 500'

State of West Virginia
Department of Mines
Oil and Gas Division
Charleston

WELL LOCATION MAP
FILE NO. 72MAA-545-DD

+ Denotes location of well on United States Topographic Maps, scale 1" to 62,500, latitude and longitude lines being represented by border lines as shown.

- Denotes one inch spaces on border line of original tracing.
**Well Record**

**Company:** REED OIL CO.

**Address:** P.O. BOX 246, FAIRMONT, W.VA. 26554

**Farm:** ANDREW YEAGER, HRS.

**Location (waters):**

**Well No.:** 2/6

**Elev.:** 1261.5

**County:** MARSHALL

**District:**

**The surface of tract is owned in fee by:** ANDREW YEAGER, HRS.

**Address:** Rt. 1, PROCTOR, W.VA.

**Mineral rights are owned by:** ANDREW YEAGER, HRS.

**Address:** Rt. 1, PROCTOR, W.VA.

**Drilling commenced:** AUGUST 1ST., 1971

**Drilling completed:** AUGUST 28TH., 1971

**Date Shot:**

**From:**

**To:**

**With:**

**Open Flow:** 1/10ths Water in /

**/10ths Merc. in**

**Volume:** Cu. Ft.

**Rock Pressure:** lbs. hrs.

**Oil:** bbls., 1st 24 hrs.

**WELL ACIDIZED (DETAILS):**

**WELL FRACTURED (DETAILS):**

**RESULT AFTER TREATMENT (Initial open Flow or bbls.):**

**ROCK PRESSURE AFTER TREATMENT:**

**HOURS:**

**Fresh Water:** Feet

**Salt Water:** Feet

**Producing Sand:** DRY HOLE

**Depth:** 3340'

**Note:**

Well originally drilled to the Gordon Sand about Year 1900. The well produces approximately 2000 ft. of gas at 41st pressure from the Gordon Sand, a sufficient amount to supply farmers needs, and a little left over for pumping power for Reed Oil Company near by lessees. In as much as no producing horizons were encountered in the additional 370' drilled, and due to the fact the well makes about one barrel of water per day from the Gordon Sand, it is the intention of Reed Oil Co. to leave all the original pipes listed above, (which is cemented in) in place, and utilize the additional hole below the Gordon Sand as a pocket for the accumulation of water, in order to economize on our future bailing schedule.

Sincerely yours,

[Signature]
