August 24, 2015

WELL WORK PERMIT
Horizontal 6A Well

This permit, API Well Number: 47-5101852, issued to CHEVRON APPALACHIA, LLC, is evidence of permission granted to perform the specified well work at the location described on the attached pages and located on the attached plat, subject to the provisions of Chapter 22 of the West Virginia Code of 1931, as amended, and all rules and regulations promulgated thereunder, and to all conditions and provisions outlined in the pages attached hereto. Notification shall be given by the operator to the Oil and Gas Inspector at least 24 hours prior to the construction of roads, locations, and/or pits for any permitted work. In addition, the well operator shall notify the same inspector 24 hours before any actual well work is commenced and prior to running and cementing casing. Spills or emergency discharges must be promptly reported by the operator to 1-800-642-3074 and to the Oil and Gas inspector.

Please be advised that form WR-35, Well Operators Report of Well Work is to be submitted to this office within 90 days completion of permitted well work, as should form WR-34 Discharge Monitoring Report within 30 days of discharge of pits, if applicable. Failure to abide by all statutory and regulatory provisions governing all duties and operations hereunder may result in suspension or revocation of this permit and, in addition, may result in civil and/or criminal penalties being imposed upon the operators.

In addition to the applicable requirements of this permit, and the statutes and rules governing oil and gas activity in WV, this permit may contain specific conditions which must be followed. Permit conditions are attached to this cover letter.

Per 35CSR-4-5.2.g this permit will expire in two (2) years from the issue date unless permitted well work is commenced. If there are any questions, please feel free to contact me at (304) 926-0499 ext. 1654.

James Martin  
Chief

Operator's Well No: 4H  
Farm Name: WOODS, RICHARD WILEY & NA  
API Well Number: 47-5101852  
Permit Type: Horizontal 6A Well  
Date Issued: 08/24/2015

Promoting a healthy environment.
PERMIT CONDITIONS

West Virginia Code § 22-6A-8(d) allows the Office of Oil and Gas to place specific conditions upon this permit. Permit conditions have the same effect as law. Failure to adhere to the specified permit conditions may result in enforcement action.

CONDITIONS

1. This proposed activity may require permit coverage from the United States Army Corps of Engineers (USACE). Through this permit, you are hereby being advised to consult with USACE regarding this proposed activity.

2. If the operator encounters an unanticipated void, or an anticipated void at an unanticipated depth, the operator shall notify the inspector within 24 hours. Modifications to the casing program may be necessary to comply with W. Va. Code § 22-6A-5a (12), which requires drilling to a minimum depth of thirty feet below the bottom of the void, and installing a minimum of twenty (20) feet of casing. Under no circumstance should the operator drill more than one hundred (100) feet below the bottom of the void or install less than twenty (20) feet of casing below the bottom of the void.

3. When compacting fills, each lift before compaction shall not be more than 12 inches in height, and the moisture content of the fill material shall be within limits as determined by the Standard Proctor Density test of the actual soils used in specific engineered fill, ASTM D698, Standard Test Method for Laboratory Compaction Characteristics of Soil Using Standard Effort, to achieve 95% compaction of the optimum density. Each lift shall be tested for compaction, with a minimum of two tests per lift per acre of fill. All test results shall be maintained on site and available for review.

4. Operator shall install signage per § 22-6A-8g (6) (B) at all source water locations included in their approved water management plan within 24 hours of water management plan activation.

5. Oil and gas water supply wells will be registered with the Office of Oil and Gas and all such wells will be constructed and plugged in accordance with the standards of the Bureau for Public Health set forth in its Legislative rule entitled Water Well Regulations, 64 C.S.R. 19. Operator is to contact the Bureau of Public Health regarding permit requirements. In lieu of plugging, the operator may transfer the well to the surface owner upon agreement of the parties. All drinking water wells within fifteen hundred feet of the water supply well shall be flow tested by the operator upon request of the drinking well owner prior to operating the water supply well.

6. Pursuant to the requirements pertaining to the sampling of domestic water supply wells/springs the operator shall, no later than thirty (30) days after receipt of analytical data provide a written copy to the Chief and any of the users who may have requested such analyses.

7. If any explosion or other accident causing loss of life or serious personal injury occurs in or about a well or well work on a well, the well operator or its contractor shall give notice, stating the particulars of the explosion or accident, to the oil and gas inspector and the Chief, within 24 hours of said accident.

8. During the casing and cementing process, in the event cement does not return to the surface, the oil and gas inspector shall be notified within 24 hours.

9. Operator shall provide the Office of Oil & Gas notification of the date that drilling commenced on this well. Such notice shall be provided by sending an email to DEPOOGNotify@wv.gov within 30 days of commencement of drilling.

2) Operator’s Well Number: 4H Well Pad Name: Woods

4) Elevation, current ground: 1135' Elevation, proposed post-construction: 1122'

5) Well Type (a) Gas X Oil Underground Storage
Other
(b) If Gas Shallow X Deep
Horizontal X

6) Existing Pad: Yes or No No

7) Proposed Target Formation(s), Depth(s), Anticipated Thickness and Associated Pressure(s):
Marcellus, 6,290' GL, Thickness: 50', Pressure Gradient: 0.64 psi/ft

8) Proposed Total Vertical Depth: 6,271'

9) Formation at Total Vertical Depth: Marcellus

10) Proposed Total Measured Depth: 15,747'

11) Proposed Horizontal Leg Length: 8,478'

12) Approximate Fresh Water Strata Depths: 405' GL

13) Method to Determine Fresh Water Depths: Local stream base/offset well info

14) Approximate Saltwater Depths: 650' and 1,755' GL

15) Approximate Coal Seam Depths: 650' (Pgh #8 Coal)

16) Approximate Depth to Possible Void (coal mine, karst, other): No void, Pillar

17) Does Proposed well location contain coal seams directly overlying or adjacent to an active mine? Yes X No

(a) If Yes, provide Mine Info:
Name: Ireland Mine
Depth: 650'
Seam: Pittsburgh #8 Coal Seam
Owner: Consolidated Coal Company

Page 2 of 3
19) Describe proposed well work, including the drilling and plugging back of any pilot hole:

Drill 17.5" hole to ~ 500' MD ~100' below water level and set and cement 13-5/8" casing to surface covering the fresh water. Drill 12.25" hole to ~1950' and set and cement to surface 9 5/8" casing in the Squaw Shale. Drill 8.5" hole to KOP. Drill a 8.5" curve and lateral section to TD. Set 5.5" production casing and cement with TOC to surface. No pilot hole is planned.

20) Describe fracturing/stimulating methods in detail, including anticipated max pressure and max rate:

Chevron will utilizing plug and perf method with 42 stages using 9500 bbl of fluid and 400,000 lbm of sand per stage. Anticipated max pressure = 9,900 psi Anticipated max rate = 100 bpm

21) Total Area to be disturbed, including roads, stockpile area, pits, etc., (acres): 14.68

22) Area to be disturbed for well pad only, less access road (acres): 3.62

23) Describe centralizer placement for each casing string:

Surface String: 1 Bow spring centralizer halfway through the shoe track around a stop collar, 1 Bow spring centralizer per joint over connection to base of conductor. One ridged centralizer within top 40' inside conductor. Intermediate String: 1 Bow spring centralizer halfway through the shoe track around a stop collar, and 1 bow spring centralizer over every other connection. Production casing 1 Solid Centralizer per joint to KOP, and 1 bow spring centralizer every other joint to surface after that.

24) Describe all cement additives associated with each cement type:

The Water and Intermediate String will contain Class A cement, up to 3% CaCl2, and flake. The tail and lead of the production cement will be class A cement with KCL, dispersant, defoamer, suspension agent, and friction reducer. The spacer will be a fly ash blend.

25) Proposed borehole conditioning procedures:

The well be circulated a minimum of 2 bottoms up once casing point has been reached on all hole sections.

FLUIDS/CUTTINGS DISPOSAL & RECLAMATION PLAN

Operator Name: Chevron Appalachia, LLC
Operator's Well No. 4h

Watershed (HUC 10): Middle Grave Creek - Grave Creek Quadrangle: Moundsville, WV 7.5'

Do you anticipate using more than 5,000 bbls of water to complete the proposed well work? Yes [☑] No [☐]

Will a pit be used? Yes [☐] No [☑]

If so, please describe anticipated pit waste:

Will a synthetic liner be used in the pit? Yes [☐] No [☐] If so, what ml?

Proposed Disposal Method For Treated Wastes:

- Land Application
- Underground Injection (UIC Permit Number: )
- Reuse (at API Number: )
- Off Site Disposal (Supply form WW-9 for disposal location)
- Other (Explain: Yes. Shale Shakers, to Drying Shakers, to the Sand Trap, to the Active Mud System. The cuttings will be mixed off on location and trucked off in half rounds)

Will closed loop system be used? If so, describe:

Drilling medium anticipated for this well (vertical and horizontal)? Air, fresh water, oil based, etc.

- If oil based, what type? Synthetic, petroleum, etc.
- Yes, synthetic oil based mud

Additives to be used in drilling medium? Fluid loss control, emulsifier, and shale stabilizer.

Drill cuttings disposal method? Leave in pit, landfill, removed offsite, etc.

- Landfill

- If left in pit and plan to solidify what medium will be used? (cement, lime, sawdust)

- Landfill or offsite name/permit number? Arden Landfill - Permit # 100172; South Hills Landfill - Permit # 100562

Permittee shall provide written notice to the Office of Oil and Gas of any load of drill cuttings or associated waste rejected at any West Virginia solid waste facility. The notice shall be provided within 24 hours of rejection and the permittee shall also disclose where it was properly disposed.

I certify that I understand and agree to the terms and conditions of the GENERAL WATER POLLUTION PERMIT issued on August 1, 2005, by the Office of Oil and Gas of the West Virginia Department of Environmental Protection. I understand that the provisions of the permit are enforceable by law. Violations of any term or condition of the general permit and/or other applicable law or regulation can lead to enforcement action.

I certify under penalty of law that I have personally examined and am familiar with the information submitted on this application form and all attachments thereto and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment.

INFORMATION SUPPLIED UNDER WEST VIRGINIA CODE
Chapter 22, Article 6A, Section 5(a)(5)
IN LIEU OF FILING LEASE(S) AND OTHER CONTINUING CONTRACT(S)

Under the oath required to make the verification on page 1 of this Notice and Application, I depose and say that I am the person who signed the Notice and Application for the Applicant, and that –

(1) the tract of land is the same tract described in this Application, partly or wholly depicted in the accompanying plat, and described in the Construction and Reclamation Plan;

(2) the parties and recordation data (if recorded) for lease(s) or other continuing contract(s) by which the Applicant claims the right to extract, produce or market the oil or gas are as follows:

<table>
<thead>
<tr>
<th>Lease Name or Number</th>
<th>Grantor, Lessor, etc.</th>
<th>Grantee, Lessee, etc.</th>
<th>Royalty</th>
<th>Book/Page</th>
</tr>
</thead>
</table>

See Attached

Acknowledgement of Possible Permitting/Approval
In Addition to the Office of Oil and Gas

The permit applicant for the proposed well work addressed in this application hereby acknowledges the possibility of the need for permits and/or approvals from local, state, or federal entities in addition to the DEP, Office of Oil and Gas, including but not limited to the following:

- WV Division of Water and Waste Management
- WV Division of Natural Resources WV Division of Highways
- U.S. Army Corps of Engineers
- U.S. Fish and Wildlife Service
- County Floodplain Coordinator

The applicant further acknowledges that any Office of Oil and Gas permit in no way overrides, replaces, or nullifies the need for other permits/approvals that may be necessary and further affirms that all needed permits/approvals should be acquired from the appropriate authority before the affected activity is initiated.

Well Operator: Chevron Appalachia, LLC

Received
Office of Oil & Gas
JUN 08 2015
PAID-UP OIL AND GAS LEASE

This PAID-UP OIL AND GAS LEASE ("Lease") dated as of the 18th day of November, 2014 (the "Effective Date") is made by and between JOHN L. HILL, A/K/A JOHN LEWIS HILL AND JULIE A. HILL, A/K/A JULIE ANN HILL, HIS WIFE, with an address at 2221 FORK RIDGE ROAD, MOUNDSVILLE, WEST VIRGINIA 26041 ("Lessor") and CHEVRON U.S.A. INC., a PENNSYLVANIA CORPORATION, of WESTMOUNT CORPORATE CENTER ONE, 1250 CORAOPOLIS HEIGHTS ROAD, P.O. BOX 611, MOON TOWNSHIP, PA 15108 ("Lessee").

1. GRANT OF LEASED PREMISES.

1.1 Granting Clause. In consideration of $1.00 and other valuable consideration in hand paid by the Lessee, the receipt of which is hereby acknowledged, and the covenants and agreements contained in this Lease, Lessor hereby grants, bargains, leases and lets exclusively to Lessee as to all depths the following described land:

See attached Exhibit "A" for description of leased premises.

being all that certain tract of land situated in NA District, NA County, State of NA, and further identified as Tax Parcel NA, being all the property owned by Lessor or to which the Lessor may have any rights in said District or adjoining District, containing NA(NA) acres, more or less, and being the property described in Deed/Record Volume NA, Page NA or Instrument Number NA of the County Clerk of the aforesaid county, for the purpose of exploring for, developing, producing and marketing oil, gas, brine, along with all hydrocarbon substances produced in association therewith from all strata or depth formation ("Leased Substances"). As used in this Lease, the term "Leased Premises" includes the land described above along with accretions and any small strips or parcels of land now or hereafter owned by Lessor that are contiguous or adjacent to the Leased Premises. Lessor shall execute at Lessee's request any supplemental instruments for a more complete or accurate description of the Leased Premises. This Lease includes all Leased Substances underlying lakes, streams, roads, streets, alleys, easements and rights of way that traverse or adjoin the Leased Premises. For the purpose of determining the amount of payments based on acreage under this Lease, the number of gross acres stated above will be deemed correct, whether actually more or less. As to the estate created hereby, Lessor hereby relinquishes, releases, and waives all rights under and by virtue of the laws of the state where the Leased Premises are located, including but not limited to the homestead exemption, and other rights substitutive thereof.

1.2 Ancillary Rights. Under this Lease, Lessee shall have the right: to ingress to and egress from the Leased Premises or lands pooled or unitized therewith; to conduct seismic, geophysical operations and testing using current or future technology; to drill, work to construct and use roads, pipelines, tanks, water pipelines, pits, electric and telephone lines, power stations, and other facilities; and to place equipment deemed necessary by Lessee to explore, discover, produce, store, treat and transport Leased Substances and oil produced from the Leased Premises or from other lands that share central facilities and are jointly operated with the Leased Premises for gathering, treating, compression and water disposal. Lessee may use in such operations, free of cost and royalty, oil, gas, water and other substances produced on the Leased Premises, except water from Lessor's water wells or ponds. At any time, including after the termination of this Lease, Lessee may remove its fixtures, equipment and materials, including well casings, from the Leased Premises; or enter onto the Leased Premises and conduct surface testing, groundwater monitoring, and restoration and remediation activities related to applicable environmental laws, rules, regulations or orders, or as deemed necessary by Lessee.

2. TERM AND CONSIDERATION.

2.1 Term of Lease. This Lease is for a primary term of Five (5) years from the Effective Date ("Primary Term") and for as long thereafter as Leased Substances are produced or are capable of being produced in paying quantities from Lessee's Operations on the Leased Premises or from lands pooled or unitized with the Leased Premises, or any Operation permitted under this Lease is being conducted on the Leased Premises, or this Lease is otherwise maintained in effect by other provisions of this Lease. As used in this Lease, the terms "Operation" or "Operations" mean any activity conducted on or off the Leased Premises that is prosecuted with no interruption of more than 180 consecutive days that is reasonably calculated to obtain or restore production, including: (i) drilling or any act preparatory to drilling (such as obtaining permits, surveying a drill site, staking a drill site, building roads, clearing a drill site, or hauling equipment or supplies); (ii) completing or
any act to ready a drilled well for production (such as fracturing, venting, dewatering stimulating, or installing production equipment); (iii) reworking, recompleting, plugging back, deepening, treating, stimulating, refitting, installing artificial lift or production-enhancement equipment or technique; (iv) constructing facilities related to the production, treatment, transportation and marketing of substances produced from the Leased Premises; (v) contracting for marketing services and sale of Leased Substances; and (vi) construction of water disposal facilities and the physical movement of water produced from the Leased Premises. Before the Primary Term ends, Lessee may renew this Lease for an additional Three (3) years. Lessee may exercise this option by paying Lessor the sum of Four Thousand Five Hundred dollars ($4,500.00) per acre and other good and valuable consideration per acre, which will serve as total consideration for the extension of this Lease. Should Lessee elect to exercise this option, all terms and conditions of this Lease will remain in full force and effect.

2.2 Paid-Up Lease. This Lease, however, will become null and void and all rights of either party under this Lease will cease and terminate unless, within 120 days from the Effective Date or the date of the last Notary Public Acknowledgment of any of the signatories hereto, whichever is the later, Lessee pays Lessor a lease bonus of Seven Thousand Five Hundred dollars ($7,500.00) per acre. This is a paid-up lease and Lessee shall not be obligated during the Primary Term to make any further payments or to commence or continue Operations in order to maintain this Lease in force. Money payable under this Lease may be paid in cash or by check, mailed or delivered to Lessor or to the credit of Lessor in NA (the “Bank”) at NA which Bank, by a power irrevocable, is hereby made Lessor’s agent to receive and disburse such payments. Payments or tenders due or payable under the terms of this Lease, other than royalties on actual production, may be made by mailing or delivering cash or Lessor's check or draft to Lessor or to the Bank on or before such date of payment. If the Bank fails or refuses to accept the payment, Lessee will not be held in default for failure to pay, unless Lessee fails to pay or tender such payment within 30 days after Lessor delivers to Lessee a recordable instrument designating another depository bank. The Bank or any other bank designated as depository (as the case may be) will continue as such and as Lessor’s agent, regardless of changes in ownership of Lessor’s interest. Lessee may pay or tender such payments jointly to the credit of all parties having any interest under this Lease. Lessor shall accept the consideration or royalties paid and to be paid under this Lease as adequate and full consideration for all the rights granted to Lessee under this Lease, and the further right to drill or not drill on the premises, whether to offset producing wells on adjacent or adjoining lands, if any, as Lessee may elect.

2.3 Royalties. Lessee covenants and agrees to deliver the following:

(A) On Oil: To deliver to the credit of the Lessor, in tanks or pipelines at or near the well, equal part of all oil or condensate produced and saved from the Leased Premises, or at Lessee’s option, to pay to Lessor 18% of the market value of the well for oil or condensate of like grade and gravity. Market value will be based on either Lessee’s sales proceeds or a published index price and will be less the Lessor’s pro rata share of any post-production costs, including costs for collection, transportation and refining (which may include charges payable to affiliates of Lessee).

(B) On Gas: To pay to the Lessor, as royalty for gas (including casinghead gas or other gaseous substances), and including residue gas and natural gas liquids, solid or used off the Leased Premises and produced from each well drilled thereon 18% of the market value at the well. Market value shall be based on either Lessor’s sales proceeds or a published index price. Lessor’s share shall be charged its pro rata 18% share, to be deducted from the gross value of royalty payable, of the costs incurred by the Lessee to (1) gather and transport gas from the well to a processing plant or pipeline, and to transport any residue gas to the point of sale to a third party; (2) to compress gas to pipeline pressure requirements, whether such compression occurs on or off the lease or before or after processing; (3) to treat gas for the removal of non-hydrocarbons including, but not limited to, water, carbon dioxide and hydrogen sulfide; (4) to process gas by any method for the recovery of liquid hydrocarbons; and (5) to fractionate liquid hydrocarbons and transport the recovered products to the point of sale to a third party.

(C) To deduct from payments in (A) and (B) above, Lessor’s pro rata share of any taxes, charges, or fees imposed by any government body.

AMBU Paid-Up OGL—WV (Rev 1 April 2014)
(D) That all charges of costs described in the foregoing clauses (A) and (B) are reasonable.

(E) Royalty to Lessor will be computed and paid without the deduction for costs of exploration, development and production.

(F) Royalty is not owed on produced volumes that are used as fuel or lost due to flaring, venting or otherwise.

2.4 Shut-in Payment. After the Primary Term, if one or more wells on the Leased Premises or lands pooled or unitized therewith have been drilled to total depth or are capable of producing Leased Substances in paying quantities, but their production is not being sold (each a “Shut-In Well”), then the Shut-In Well or Wells will nevertheless be deemed to be producing in paying quantities for the purpose of maintaining this Lease. If for a period of one year the Shut-In Well or Wells are shut in or their production is not sold, then Lessee shall pay an aggregate shut-in payment of ten dollars ($10.00) per acre per year (the “Shut-In Payment”), regardless of how many Shut-In Wells are actually located on the Leased Premises or lands pooled or unitized with the Leased Premises. However, no Shut-In Payment will be due if this Lease is otherwise maintained in force by production or Operation on the Leased Premises or on lands pooled or unitized with the Leased Premises. Lessee’s failure to properly pay the Shut-In Payment will render Lessee liable for the unpaid amount due but will not cause this Lease to terminate. Shut-In Payments will be made in the same manner as provided elsewhere in this Lease for payments to Lessor but will not be in lieu of any royalty based on actual production.

3. OPERATIONS.

3.1 Dry Hole/Cessation of Operations. If Lessee drills a well that is incapable of producing in paying quantities (a “Dry Hole”) on the Leased Premises or on lands pooled or unitized therewith, or if all production (whether or not in paying quantities) permanently ceases from any cause (including a revision of unit boundaries pursuant to the provisions of this Lease or the action of any governmental authority), and if this Lease is not otherwise being maintained in force, then this Lease will remain in force if, within 180 days after Operations on the Dry Hole are completed or within 180 days after all production has ceased, Lessee commences further Operations for reworking an existing well, for drilling an additional well, or for otherwise obtaining or restoring production on the Leased Premises or lands pooled or unitized with the Leased Premises. If, after the Primary Term, this Lease is not otherwise being maintained in force, but Lessee is then engaged in Operations, this Lease will remain in force so long as one or more Operations are prosecuted with no interruption of more than 180 consecutive days and, if Operations result in the production of Leased Substances, for so long thereafter as the production thereof is in paying quantities from the Leased Premises or lands pooled or unitized with the Leased Premises.

3.2 Unitization. Lessee may at any time pool, unite, or combine part or all of the Leased Premises, and any of its strata, with other lands, and any or all strata within such other lands to create one or more units up to the maximum size allowed by law. The unit may be created for any purpose including, but not limited to, Operations, drilling and producing one or more oil or gas reservoirs or portions thereof. In exercising its pooling rights under this Lease, Lessee shall file of record a written declaration describing the unit and stating the effective date of pooling. Subject to Section 5, Lessor’s royalties will be calculated in proportion to the amount of acres covered by this Lease and included in the unit, divided by the total acres in the unit. Lessee is not required to drill more than one well in a unit. Operations on any well within a unit that includes all or part of the Leased Premises will constitute, for all purposes of this Lease, a well commenced or operated upon the Leased Premises. Lessee may at any time increase or decrease the size of a unit. To revise a unit, Lessee shall file of record a written declaration describing the revised unit and stating the effective date of the revision.

Lessee shall have the right but not the obligation to commit all or any part of the Leased Premises to one or more unit plans or agreements for cycling, pressure maintenance, repressuring or secondary recovery programs or for other cooperative developments and operation of one or more oil or gas reservoirs or portions of them, if in Lessee’s judgment such plans or agreements will prevent waste and protect correlating rights. When such a commitment is made, this Lease will be subject to the terms and conditions of the unit plan or agreement, including any formula for the allocation of production from the unit.
Lessee may terminate a unit by filing of record a written declaration describing the unit and stating the date of termination. Utilization will not constitute a cross-conveyance of interests.

3.3 Payment Reductions. If Lessor owns less than the entire and undivided free simple estate in the Leased Premises, then any bonuses, royalties and Shut-In Payments under this Lease will be paid to Lessor only in the proportion that Lessor’s interest bears to the whole, undivided fee simple. If two or more parties own the Leased Premises, or if the ownership of any interest in the Leased Premises is transferred by sale, devise or operation of law, Lessee may nevertheless develop and operate the Leased Premises as an entirety, and any bonuses and royalties will be divided among and paid to such several owners in the proportion that each owner’s acreage bears to the entire acreage of the Leased Premises.

3.4 Ownership Changes. This Lease will run with the Leased Premises. Lessor may assign, devise or otherwise transfer in whole or in part, by area or by depth or zone, its rights and obligations under this Lease. Lessor’s assignment, devise or other transfer will not be binding on Lessee until 60 days after Lessee has received the original or duly authenticated copies of the documents establishing to Lessee’s satisfaction the assignment, devise or other transfer, or until Lessee has satisfied the notification requirements contained in Lessee’s usual form of division order.

3.5 Release of Lease. Lessee may, at any time, surrender or release this Lease in whole or in part. During the Primary Term of this Lease, surrender may occur by giving Lessor written notice describing the portion surrendered, by returning the Lease to Lessor with the endorsement of surrender, or by recording a release or partial release of this Lease. Any of these methods will constitute a full and legal surrender of this Lease as to that portion of the Leased Premises indicated on the release. The Lease bonus set forth above will be reduced in proportion to the acreage surrendered. After the Primary Term, Lessee may deliver to Lessor or file of record a written release of this Lease as to that portion surrendered. Upon the delivery or filing of the release, the Lessee will be relieved of all subsequent obligations with respect to the interest released. If Lessee releases less than all of the interest or area covered hereby, Lessee’s obligation to tender Shut-In Payments will be reduced in proportion to the net acreage interest Lessee retains.

3.6 Assignment. Lessee may assign this Lease in whole or in part, and Lessor waives notice of assignment of this Lease. Lessee’s failure to pay a bonus or royalty on any part of this Lease will not void this Lease as to any other part. Lessor agrees that upon Lessee’s assignment of this Lease, Lessee will have no further obligations or liabilities under this Lease. If Lessor transfers a full or undivided interest in all or any portion of the Leased Premises, the obligation to tender payments will be divided between Lessee and the transferee in proportion to their respective net acreage interests.

3.7 Well Location; Pipelines; Reclamation. The center of the well will be located no less than 250 feet from any occupied dwelling or any building larger than 2500 square feet used to house dairy cattle or poultry husbandry. Lessee shall not erect buildings or plant trees within 25 feet of a pipeline right of way or within 200 feet of any well without Lessor’s express written permission. If Lessor is the surface owner at the time Lessee commences Operations on the surface, Lessee shall pay Lessor for damage that its Operations cause to buildings and other improvements now on the Leased Premises, and to commercial timber and growing crops on the Leased Premises, in accordance with WV Code 22-6B-1, et seq. When requested by Lessor in writing, if reasonably possible, Lessee will bury its pipelines below ordinary plow depth on lands cultivated at the time of the request. Lessee agrees to reclaim the Leased Premises in accordance with applicable state laws.

3.8 Driveway Permits and Other Regulatory Documents. Lessor shall sign all driveway permits and other regulatory documents required by any governmental or regulatory body to commence or perform Operations on the Leased Premises. If Lessor cannot sign or refuses to sign driveway permits or other regulatory documents, Lessor hereby authorizes Lessee to sign such driveway permits and other regulatory documents on Lessor’s behalf.

3.9 Surface Coal. If Lessee encounters coal owned by Lessor on or under the Leased Premises during construction of a well site, then Lessee may remove and dispose of that coal. Lessee shall have the exclusive right to value and sell the coal so long as the sale is based on an arm’s length transaction. If the value of the coal removal exceeds the cost of the removal, Lessee shall pay Lessor the difference.

3.10 Regulation. Lessee’s obligations under this Lease, whether express or implied, will be subject to all applicable laws, rules, regulations and orders of any governmental authority.
having jurisdiction, including restrictions on the drilling and production of wells, and regulation of the price or transportation of Leased Substances.

4. **FORCE MAJEURE.** If Lessee is unable to perform any obligations under this Lease by reason of a Force Majeure Event, Lessee’s obligations will be suspended for the duration of the Force Majeure Event and for a period of time thereafter equal to 180 days or the amount of time left in the term of this Lease when the Force Majeure Event began, whichever is longer. This Lease will not terminate because of such prevention or delay. “Force Majeure Event” means (A) an act of God; (B) strike, lockout, or other industrial disturbance; (C) an act of the public enemy, war, terrorism, sabotage, insurrection, blockade or public riot; (D) severe weather conditions, lightning, fire, storm, flood, epidemic or other act of nature; (E) explosion; (F) governmental action, delay, restraint or inaction; (G) unavailability of equipment, services, materials, water, electricity, fuel, access or easements; (H) failure of purchasers or carriers to take or transport production; (I) permitting delay or suspension resulting from the action or inaction of any coal operator, the action or inaction of any storage field operator, any environmental or regulatory rule, regulation, or law (including, without limitation, delay resulting from compulsory natural resource diversity study for endangered or potentially endangered species or requirement for an erosion and sediment control permit, or lack of available waste disposal facilities due to regulatory actions or changes in the law), a compulsory study for potential historical or archeologically significant concern, the action or inaction of zoning authorities, the application of zoning permit requirements, the action or inaction of development authorities, or restrictions on the use of roads; and (J) any other occurrence not reasonably within Lessee’s control, whether of the kind specifically enumerated above or otherwise. In the event Lessee experiences a Force Majeure Event, Lessee shall promptly provide Lessor written notice at Lessor’s last known address. When the Force Majeure Event ends, Lessee shall promptly provide Lessor written notice at Lessor’s last known address.

5. **DISPUTE RESOLUTION.**

5.1 **Resolution of Disputes.** If any dispute arises out of, or in relation to this Lease, and if the dispute cannot be resolved by direct negotiations, either Party shall initiate mediation by giving notice to the other. If the dispute is not resolved by mediation within 60 days from the date of the notice requiring mediation, either party must initiate binding arbitration by giving notice to the other. All claims must be brought in a Party’s individual capacity, and not as a plaintiff or class member in any purported class or representative proceeding, and there shall be no right or authority for any disputes to be arbitrated on a class action basis.

5.2 **Arbitration Proceedings.** The following provisions will apply to arbitration proceedings pursuant to Section 5.1:

(A) The place of arbitration will be Allegheny County, Pennsylvania.

(B) One arbitrator (or three arbitrators if the monetary value of the dispute is more than US$5,000,000) will conduct the arbitral proceedings in accordance with the International Institute for Conflict Prevention and Resolution (the “ICPI”) Rules. In the event of any conflicts between the Act or the CPR Rules and the provisions of this Lease, the provisions of this Lease shall prevail. The CPR is the appointing authority.

(C) The parties shall submit true copies of all documents considered relevant with their respective statement of claim or defense, and any counterclaim or reply. Neither party may compel the other to produce additional documents. The maximum number of witnesses each party may call to give evidence is three witnesses of fact and one expert witness.

(D) The arbitrator(s) does not have the power to award, nor shall the arbitrator(s) award, any punitive, indirect or consequential damages (however denominated). All arbitration fees and costs shall be paid equally, regardless of which party prevails, unless provided to the contrary in this Lease. Each party shall pay its own costs of legal representation and witness expenses.

(E) The arbitrator(s) must render a reasoned award in writing. The award is final and binding.

(F) The dispute will be resolved as quickly as possible. The arbitration award must be issued within three months from completion of the hearing, or as soon as possible thereafter.

08/28/2015
6. MISCELLANEOUS.

6.1 Right of First Refusal. Lessee shall have the right of first refusal if Lessor receives an offer to grant an additional lease ("Top Lease") covering all or part of the Leased Premises during the term of this Lease or an extension or renewal of this Lease. Lessor shall send Lessee a copy of the offer with the proposed Lessee's name, bonus consideration and royalty consideration, along with a copy of the lease form. Upon receiving copies of both the offer and the lease form, Lessee will have fifteen days to notify Lessor whether Lessee will enter into an oil and gas lease with Lessor on equivalent terms and conditions. Lessee's decision not to enter into an oil and gas lease on equivalent terms and conditions will not result in forfeiture of this Lease or any right to renew this Lease in accordance with its terms. In the event that Lessor breaches this section, Lessee will be entitled to either an award of monetary damages or a decree of specific performance, at Lessee's election.

6.2 Warranty of Title; Further Assurances. All covenants and conditions between Lessor and Lessee will extend to their respective heirs, personal representatives, successors and assigns, and Lessor specially warrants and agrees to defend title to the Leased Premises. Lessor covenants that Lessee will have quiet enjoyment of the Leased Premises. Lessor shall sign such additional documents as Lessee may reasonably request to perfect Lessee's title to the oil and gas rights and such other documents relating to the sale of production as may be required by Lessee or others. Lessee, in its sole discretion, may pay and discharge any taxes, mortgages, claims or liens existing, levied or assessed on or against the Leased Premises. If Lessee exercises such option, Lessee shall be subrogated to the rights of the party to whom payment is made and, in addition to its other rights, may reimburse itself out of any royalties or Shut-In Payments otherwise payable to Lessor. In the event Lessee learns of any claim inconsistent with Lessor's title, Lessee may suspend the payment of royalties and Shut-In Payments, without interest, until Lessee receives satisfactory evidence that the claim has been resolved in Lessor's favor. Pending resolution of the claim, this Lease will not terminate.

6.3 Notice and Opportunity to Cure. In the event Lessor believes that Lessee has not complied with its obligations under this Lease, whether express or implied, Lessor shall notify Lessee in writing at the Lessee's address set forth above, stating specifically in what respects Lessee has breached. Lessee will then have 90 days after receipt of the notice to cure or commence to cure all or any part of the alleged breaches. Lessor shall serve Lessee notice before bringing any action on this Lease and will not commence any litigation or arbitration until at least 90 days after service of the notice on Lessee. Neither the service of the notice nor the performance of any acts by Lessee aimed at curing all or any part of the alleged breaches will be deemed an admission or presumption that Lessor has failed to perform all its obligations under this Lease.

6.4 Integration; Severability. This Lease and the contemporaneous Addenda (if any) and Payment Attachment together contain and express all of the agreements and understandings of the parties in regard to the subject matter thereof, and no implied covenant, agreement or obligation may be read into this Lease or imposed upon the parties. The provisions of this Lease is severable and if any provision is determined to be illegal under any existing or future law by a court or arbitrator of competent jurisdiction, or by operation of any applicable law, this invalidity, unenforceability or illegality will not impair the operation of or affect those portions of this Lease that are valid, enforceable and legal, so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner adverse to any party.

6.5 Conflict of Interest. Lessor, Lessor's directors, employees, agents and subcontractors, and their respective directors, employees and agents, shall not give to or receive from any director, employee or agent of Lessee or of any affiliate of Lessee any gift, entertainment or other favor of significant value, or any commission, fee or rebate. Lessor, Lessor's directors, employees, agents and subcontractors, and their respective directors, employees and agents shall not enter into any business relationship with any director, employee or agent of Lessee or of any affiliate of Lessee, without prior written notification to Lessee, unless such person is acting for and on behalf of Lessor or any such affiliate. Lessor shall notify Lessee of any violation of this section. Lessor shall maintain true and correct records in connection with all matters relating to this Lease and shall retain such records for at least 24 months following the expiration or termination of this Lease. Lessee may audit (or appoint an independent third party auditor to audit) any and all records of Lessor to determine whether Lessor has complied with this section. Lessee may terminate this Lease if there is a violation of this section which (A) occurred prior to the Effective Date and (B) resulted directly or indirectly in Lessee's consent to enter into this Lease.
6.6 **Counterparts.** This Lease may be executed either as one instrument or in several partially executed counterparts and the original and all counterparts must be construed together and will constitute one Lease. Should less than all of the named Lessors execute this Lease, this Lease will be binding on those who are signatories.

6.7 **Management Approval.** Lessor understands and agrees that Lessee is not obligated to pay the bonus payment to Lessor until this Lease has been reviewed and approved by Lessee’s management. Management approval will occur on the earlier of (A) the date on which the Department of Environmental Protection issues Lessee a permit to drill a well on the Leased Premises or on lands unitized therewith (subject to Section 3.2 above) or (B) the date on which Lessee mails the lease bonus to Lessor. Lessee’s execution and recordation of a Memorandum of this Lease will not constitute and may not be deemed to be management approval of the Lease.

See Addendum attached hereto and by this reference made a part hereof.

IN WITNESS WHEREOF, this Lease is executed to be effective as of the Effective Date, but upon execution will be binding on the signatory and the signatory’s heirs, devisees, executors, administrators, successors and assigns, whether or not this Lease has been executed by all persons identified above as Lessor, intending to be legally bound.

Lessor(s): JOHN L. HILL, A/K/A JOHN LEWIS HILL AND JULIE A. HILL, A/K/A JULIE ANN HILL, HIS WIFE

Lessee: Chevron U.S.A. INC.

Leasehold: 7,582 Acres; CLAY District; Marshall County

State of West Virginia

Lease Dated: November 18, 2014

In the event of a conflict or inconsistency between the printed Paragraphs of the Paid Up Oil and Gas Lease to which this Addendum is attached and these added terms, these added terms shall control and be deemed to supersede the printed Paragraphs of said Paid Up Oil and Gas Lease.

3. Royalty

Lessee agrees to strike paragraph 2.3(B) of the Lease in its entirety and replace as follows: 2.3(B) On Gas: Lessee covenants and agrees to pay to the Lessor, as royalty for gas (including casinghead gas, residue gas and natural gas liquids), sold on or off the Leased Premises or used off the Leased Premises, and produced from each well drilled thereon 18% of the market value at the well. Market value at the well will be determined based on either Lessee’s sales proceeds (which include sales to affiliates of Lessee) or a published index price, with no deduction for Lessor’s share of post-production costs.

MEMORANDUM OF OIL AND GAS LEASE

KNOW ALL MEN BY THESE PRESENTS:

That CHEVRON U.S.A. INC., a PENNSYLVANIA CORPORATION, of WESTPOINTE CORPORATE CENTER ONE, 1550 CORAOPOLIS HEIGHTS ROAD, P.O. BOX 611, MOON TOWNSHIP, PA 15108 ("Lessee") and JOHN L. HILL, A/K/A JOHN LEWIS HILL AND JULIE A. HILL, A/K/A JULIE ANN HILL, HIS WIFE, whose address is 2221 FORK RIDGE ROAD, MOUNDSVILLE, WEST VIRGINIA 26041, ("Lessor"), have entered into a Paid Up Oil and Gas Lease (the "Lease") dated as of September 18, 2014 (the "Effective Date"), covering the following described land:

As fully described on Exhibit "A" hereto, incorporated herein by reference.

being all that certain tract of land situated in NA DISTRICT, NA County, State of NA, and further identified as Tax Parcel NA, being all the property owned by Lessor or to which the Lessor may have any rights in said NA DISTRICT or adjoining DISTRICT, containing NA(NA) acres, more or less, and being the property described in Deed/Record Volume NA, Page NA of the County Clerk of the aforesaid county, for the purpose of exploring for, developing, producing and marketing oil, gas, brine, along with all hydrocarbon substances produced in association therewith from all strata or depth formation ("Leased Substances"). As used in the Lease, the term "Leased Premises" includes the land described above along with accretions and any small strips or parcels of land now or hereafter owned by Lessor that are contiguous or adjacent to the Leased Premises.

The Lease will be in effect for a primary term of Five (5) years from the Effective Date and for as long thereafter as Leased Substances are produced or are capable of being produced in paying quantities from Lessee’s operations on the Leased Premises or from lands pooled or unitized with the Leased Premises, or any operation permitted under the Lease is being conducted on the Leased Premises, or this Lease is otherwise maintained in effect by other provisions of the Lease.

Prior to the end of the primary term, the Lessee shall have the option to renew the Lease for an additional period of Three (3) years.

Lessee shall have the right of first refusal if Lessor receives an offer to grant an additional lease ("Top Lease") covering all or part of the Leased Premises during the term of this Lease or an extension or renewal of this Lease.

If Lessee drills a well that is incapable of producing in paying quantities (a "Dry Hole") on the Leased Premises or on lands pooled or unitized therewith, or if all production (whether or not in paying quantities) permanently ceases from any cause (including a revision of unit boundaries pursuant to the provisions of the Lease or the action of any governmental authority), and if the Lease is not otherwise being maintained in force, then the Lease will remain in force if, within 180 days after operations on the Dry Hole are completed or within 180 days after all production has ceased, Lessee commences further operations for reworking an existing well, for drilling an additional well, or for otherwise obtaining or restoring production on the Leased Premises or lands pooled or unitized with the Leased Premises.

If, after the Primary Term, the Lease is not otherwise being maintained in force, but Lessee is then engaged in operations, the Lease will remain in force so long as one or more operations are prosecuted with no interruption of more than 180 consecutive days and, if operations result in the production of Leased Substances, for so long thereafter as there is production in paying quantities from the Leased Premises or lands pooled or unitized with the Leased Premises.
This Memorandum is placed of record to serve as notice of the execution and existence of said Lease, and in no way supersedes, abrogates, changes or modifies any of the terms, conditions, rights or obligations of any parties, all of which are set forth in detail in the Lease. The terms and conditions of said Lease are incorporated by reference as if set forth in full. This Memorandum may be executed either as one instrument or in several partially executed counterparts and the original and all counterparts must be construed together and will constitute one Memorandum. Lessee’s execution and recordation of this Memorandum does not constitute and may not be deemed to be management approval of the Lease.

IN WITNESS WHEREOF, this instrument executed this 18 day of November, 2014.

RE: Woods 4H, 6H, 8H, 12H

To whom it may concern,

This letter is to confirm that Chevron Appalachia, LLC owns the rights to access minerals under any road along the above referenced laterals. If you should have any further questions or need additional documentation, please feel free to contact me.

Sincerely,

Phillip Khoury
Land Representative
STATE OF WEST VIRGINIA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION, OFFICE OF OIL AND GAS  
NOTICE CERTIFICATION

Date of Notice Certification: 5/7/15  
API No. 47-  
-operator's Well No. 4H  
Well Pad Name: Woods

Notice has been given:  
Pursuant to the provisions in West Virginia Code § 22-6A, the Operator has provided the required parties with the Notice Forms listed below for the tract of land as follows:  
State: West Virginia  
County: Marshall  
District: Clay  
Quadrangle: Moundsville, WV 7.5'  
Watershed: Middle Grave Creek - Grave Creek  

UTM NAD 83  
Easting: 525079.95  
Northing: 4415326.38  
Public Road Access: CR 17 Fork Ridge Road  
Generally used farm name: Woods

Pursuant to West Virginia Code § 22-6A-7(b), every permit application filed under this section shall be on a form as may be prescribed by the secretary, shall be verified and shall contain the following information: (14) A certification from the operator that (i) it has provided the owners of the surface described in subdivisions (1), (2) and (4), subsection (b), section ten of this article, the information required by subsections (b) and (c), section sixteen of this article; (ii) that the requirement was deemed satisfied as a result of giving the surface owner notice of entry to survey pursuant to subsection (a), section ten of this article six-n; or (iii) the notice requirements of subsection (b), section sixteen of this article were waived in writing by the surface owner; and Pursuant to West Virginia Code § 22-6A-11(b), the applicant shall tender proof of and certify to the secretary that the notice requirements of section ten of this article have been completed by the applicant.

Pursuant to West Virginia Code § 22-6A, the Operator has attached proof to this Notice Certification that the Operator has properly served the required parties with the following:

*PLEASE CHECK ALL THAT APPLY*

- ☐ 1. NOTICE OF SEISMIC ACTIVITY  or  ☐ NOTICE NOT REQUIRED BECAUSE NO SEISMIC ACTIVITY WAS CONDUCTED
- ☐ 2. NOTICE OF ENTRY FOR PLAT SURVEY  or  ☐ NO PLAT SURVEY WAS CONDUCTED
- ☐ 3. NOTICE OF INTENT TO DRILL  or  ☐ NOTICE NOT REQUIRED BECAUSE NOTICE OF ENTRY FOR PLAT SURVEY WAS CONDUCTED  or  ☐ WRITTEN WAIVER BY SURFACE OWNER (PLEASE ATTACH)
- ☐ 4. NOTICE OF PLANNED OPERATION
- ☐ 5. PUBLIC NOTICE
- ☐ 6. NOTICE OF APPLICATION

Required Attachments:  
The Operator shall attach to this Notice Certification Form all Notice Forms and Certifications of Notice that have been provided to the required parties and/or any associated written waivers. For the Public Notice, the operator shall attach a copy of the Class II Legal Advertisement with publication date verification or the associated Affidavit of Publication. The attached Notice Forms and Certifications of Notice shall serve as proof that the required parties have been noticed as required under West Virginia Code § 22-6A. Pursuant to West Virginia Code § 22-6A-11(b), the Certification of Notice to the person may be made by affidavit of personal service, the return receipt card or other postal receipt for certified mailing.

08/28/2015
Certification of Notice is hereby given:

THEREFORE, I, Jenny Hayes, have read and understand the notice requirements within West Virginia Code § 22-6A. I certify that as required under West Virginia Code § 22-6A, I have served the attached copies of the Notice Forms, identified above, to the required parties through personal service, by registered mail or by any method of delivery that requires a receipt or signature confirmation. I certify under penalty of law that I have personally examined and am familiar with the information submitted in this Notice Certification and all attachments, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

STATE OF WEST VIRGINIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION, OFFICE OF OIL AND GAS
NOTICE OF APPLICATION

Notice Time Requirement: notice shall be provided no later than the filing date of permit application.

Date of Notice: 4/17/15  Date Permit Application Filed: 6/11/15
Notice of:

☑ PERMIT FOR ANY WELL WORK
☐ CERTIFICATE OF APPROVAL FOR THE CONSTRUCTION OF AN IMPOUNDMENT OR PIT

Delivery method pursuant to West Virginia Code § 22-6A-10(b)

☐ PERSONAL SERVICE
☑ REGISTERED MAIL
☐ METHOD OF DELIVERY THAT REQUIRES A RECEIPT OR SIGNATURE CONFIRMATION

Pursuant to W. Va. Code § 22-6A-10(b) no later than the filing date of the application, the applicant for a permit for any well work or for a certificate of approval for the construction of an impoundment or pit as required by this article shall deliver, by personal service or by registered mail or by any method of delivery that requires a receipt or signature confirmation, copies of the application, the erosion and sediment control plan required by section seven of this article, and the well plat to each of the following persons: (1) The owners of record of the surface of the tract on which the well is or is proposed to be located; (2) The owners of record of the surface tract or tracts overlying the oil and gas leasehold being developed by the proposed well work, if the surface tract is to be used for roads or other land disturbance as described in the erosion and sediment control plan submitted pursuant to subsection (c), section seven of this article; (3) The coal owner, operator or lessee, in the event the tract of land on which the well proposed to be drilled is located [sic] is known to be underlain by one or more coal seams; (4) The owners of record of the surface tract or tracts overlying the oil and gas leasehold being developed by the proposed well work, if the surface tract is to be used for the placement, construction, enlargement, alteration, repair, removal or abandonment of any impoundment or pit as described in section nine of this article; (5) Any surface owner or water purveyor who is known to the applicant to have a water well, spring or water supply source located within one thousand five hundred feet of the center of the well pad which is used to provide water for consumption by humans or domestic animals; and (6) The operator of any natural gas storage field within which the proposed well work activity is to take place, (c)(1) If more than three tenants in common or other co-owners of interests described in subsection (b) of this section hold interests in the lands, the applicant may serve the documents required upon the person described in the records of the sheriff required to be maintained pursuant to section eight, article one, chapter eleven-a of this code. (2) Notwithstanding any provision of this article to the contrary, notice to a lien holder is not notice to a landowner, unless the lien holder is the landowner. W. Va. Code R. § 35-8-5.7.a requires, in part, that the operator shall also provide the Well Site Safety Plan ("WSSP") to the surface owner and any water purveyor or surface owner subject to notice and water testing as provided in section 15 of this rule.

Received
Office of Oil & Gas
8/08/2015
Notice is hereby given:
Pursuant to West Virginia Code § 22-6A-10(b), notice is hereby given that the undersigned well operator has applied for a permit for well work or for a certificate of approval for the construction of an impoundment or pit.

This Notice Shall Include:
Pursuant to W. Va. Code § 22-6A-10(b), this notice shall include: (1) copies of the application; (2) the erosion and sediment control plan required by section seven of this article; and (3) the well plat.

Pursuant to W. Va. Code § 22-6A-10(f), this notice shall include: (1) a statement of the time limits for filing written comments; (2) who may file written comments; (3) the name and address of the secretary for the purpose of filing the comments and obtaining additional information; and (4) a statement that the persons may request, at the time of submitting written comments, notice of the permit decision and a list of persons qualified to test water.

Pursuant to W. Va. Code R. § 35-8.5.7.a, the operator shall provide the Well Site Safety Plan to the surface owner and any water purveyor or surface owner subject to notice and water testing as provided in section 15 of this rule.

Pursuant to W. Va. Code R. § 35-8.15.2.e, this notice shall: (1) contain a statement of the surface owner’s and water purveyor’s right to request sampling and analysis; (2) advise the surface owner and water purveyor of the rebuttable presumption for contamination or deprivation of a fresh water source or supply; advise the surface owner and water purveyor that refusal to allow the operator to conduct a pre-drilling water well test constitutes a method to rebut the presumption of liability; (3) advise the surface owner and water purveyor of his or her independent right to sample and analyze any water supply at his or her own expense; advise the surface owner and water purveyor whether or not the operator will utilize an independent laboratory to analyze any sample; and (4) advise the surface owner and water purveyor that he or she can obtain from the Chief a list of water testing laboratories in the subject area capable of and qualified to test water supplies in accordance with standard acceptable methods.

Additional information related to horizontal drilling may be obtained from the Secretary, at the WV Department of Environmental Protection headquarters, located at 601 57th Street, SE, Charleston, WV 25304 (304-926-0450) or by visiting www.dep.wv.gov/oil-and-gas/pages/default.aspx.

Well Location Restrictions
Pursuant to W. Va. Code § 22-6A-12, Wells may not be drilled within two hundred fifty feet measured horizontally from any existing water well or developed spring used for human or domestic animal consumption. The center of well pads may not be located within six hundred twenty-five feet of an occupied dwelling structure, or a building two thousand five hundred square feet or larger used to house or shelter dairy cattle or poultry husbandry. This limitation is applicable to those wells, developed springs, dwellings or agricultural buildings that existed on the date a notice to the surface owner of planned entry for surveying or staking as provided in section ten of this article or a notice of intent to drill a horizontal well as provided in subsection (b), section sixteen of this article was provided, whichever occurs first, and to any dwelling under construction prior to that date. This limitation may be waived by written consent of the surface owner transmitted to the department and recorded in the real property records maintained by the clerk of the county commission for the county in which such property is located. Furthermore, the well operator may be granted a variance by the secretary from these distance restrictions upon submission of a plan which identifies the sufficient measures, facilities or practices to be employed during well site construction, drilling and operations. The variance, if granted, shall include terms and conditions the department requires to ensure the safety and protection of affected persons and property. The terms and conditions may include insurance, bonding and indemnification, as well as technical requirements. (b) No well pad may be prepared or well drilled within one hundred feet measured horizontally from any perennial stream, natural or artificial lake, pond or reservoir, or a wetland, or within three hundred feet of a naturally reproducing trout stream. No well pad may be located within one thousand feet of a surface or ground water intake of a public water supply. The distance from the public water supply as identified by the department shall be measured as follows: (1) For a surface water intake on a lake or reservoir, the distance shall be measured from the boundary of the lake or reservoir. (2) For a surface water intake on a flowing stream, the distance shall be measured from a semicircular radius extending upstream of the surface water intake. (3) For a groundwater source, the distance shall be measured from the wellhead or spring. The department may, in its discretion, waive these distance restrictions upon submission of a plan identifying sufficient measures, facilities or practices to be employed during well site construction, drilling and operations to protect the waters of the state. A waiver, if granted, shall impose any permit conditions as the secretary considers necessary. (c) Notwithstanding the foregoing provisions of this section, nothing contained in this section prevents an operator from conducting the activities permitted or authorized by a Clean Water Act Section 404 permit or other approval from the United States Army Corps of Engineers within any waters of the state or within the state's waters referenced in this section. (d) The well location restrictions set forth in this section shall not apply to any well on a multiple well pad if at least one of the wells was permitted prior to the effective date of this article. (e) The secretary shall, by November 31, 2015, report to the Legislature on the noise, light, dust and volatile organic compounds generated by the drilling of horizontal wells and any other matter that it relates to the well location restrictions regarding occupied dwelling structures pursuant to this section. Upon a finding, if any, by the secretary that the well location restrictions regarding occupied dwelling structures are inadequate or otherwise require alteration to address the items
examined in the study required by this subsection, the secretary shall have the authority to propose for promulgation legislative rules establishing guidelines and procedures regarding reasonable levels of noise, light, dust and volatile organic compounds relating to drilling horizontal wells, including reasonable means of mitigating such factors, if necessary.

Water Well Testing:

Pursuant to West Virginia Code § 22-6A-10(d), notification shall be made, with respect to surface landowners identified in subsection (b) or water purveyors identified in subdivision (5), subsection (b) of this section, of the opportunity for testing their water well. The operator shall provide an analysis to such surface landowner or water purveyor at their request.

Water Testing Laboratories:

Pursuant to West Virginia Code § 22-6A-10(i), persons entitled to notice pursuant to subsection (b) of this section may contact the department to ascertain the names and locations of water testing laboratories in the subject area capable and qualified to test water supplies in accordance with standard accepted methods. In compiling that list of names the department shall consult with the state Bureau for Public Health and local health departments. A surface owner and water purveyor has an independent right to sample and analyze any water supply at his or her own expense. The laboratory utilized by the operator shall be approved by the agency as being certified and capable of performing sample analyses in accordance with this section.

Rebuttable Presumption for Contamination or Deprivation of a Fresh Water Source or Supply:

W. Va. Code § 22-6A-18 requires that (b) unless rebutted by one of the defenses established in subsection (c) of this section, in any action for contamination or deprivation of a fresh water source or supply within one thousand five hundred feet of the center of the well pad for horizontal well, there is a rebuttable presumption that the drilling and the oil or gas well or either was the proximate cause of the contamination or deprivation of the fresh water source or supply. (c) In order to rebut the presumption of liability established in subsection (b) of this section, the operator must prove by a preponderance of the evidence one of the following defenses: (1) The pollution existed prior to the drilling or alteration activity as determined by a predrilling or prealteration water well test. (2) The landowner or water purveyor refused to allow the operator access to the property to conduct a predrilling or prealteration water well test. (3) The water supply is not within one thousand five hundred feet of the well. (4) The pollution occurred more than six months after completion of drilling or alteration activities. (5) The pollution occurred as the result of some cause other than the drilling or alteration activity. (d) Any operator electing to preserve its defenses under subdivision (1), subsection (c) of this section shall retain the services of an independent certified laboratory to conduct the predrilling or prealteration water well test. A copy of the results of the test shall be submitted to the department and the surface owner or water purveyor in a manner prescribed by the secretary. (e) Any operator shall replace the water supply of an owner of interest in real property who obtains all or part of that owner’s supply of water for domestic, agricultural, industrial or other legitimate use from an underground or surface source with a comparable water supply where the secretary determines that the water supply has been affected by contamination, diminution or interruption proximately caused by the oil or gas operation, unless waived in writing by that owner. (f) The secretary may order the operator conducting the oil or gas operation to: (1) Provide an emergency drinking water supply within twenty-four hours; (2) Provide temporary water supply within seventy-two hours; (3) Within thirty days begin activities to establish a permanent water supply or submit a proposal to the secretary outlining the measures and timetables to be used in establishing a permanent supply. The total time in providing a permanent water supply may not exceed two years. If the operator demonstrates that providing a permanent replacement water supply cannot be completed within two years, the secretary may extend the time frame on case-by-case basis; and (4) Pay all reasonable costs incurred by the real property owner in securing a water supply. (g) A person as described in subsection (b) of this section aggrieved under the provisions of subsections (b), (e) or (f) of this section may seek relief in court… (i) Notwithstanding the denial of the operator of responsibility for the damage to the real property owner’s water supply or the status of any appeal on determination of liability for the damage to the real property owner’s water supply, the operator may not discontinue providing the required water service until authorized to do so by the secretary or a court of competent jurisdiction.

Written Comment:

Pursuant to West Virginia Code § 22-6A-11(a), all persons described in subsection (b), section ten of this article may file written comments with the secretary as to the location or construction of the applicant’s proposed well work within thirty days after the application is filed with the secretary. All persons described in West Virginia Code § 22-6A-10(b) may file written comments as to the location or construction of the applicant’s proposed well work to the Secretary at:

Chief, Office of Oil and Gas
Department of Environmental Protection
601 57th St. SE
Charleston, WV 25304
(304) 926-0450

Such persons may request, at the time of submitting written comments, notice of the permit decision and a list of persons qualified to test water. NOTE: YOU ARE NOT REQUIRED TO FILE ANY COMMENT.
Time Limits and Methods for Filing Comments.
The law requires these materials to be served on or before the date the operator files its Application. You have THIRTY (30) DAYS after the filing date to file your comments. Comments must be filed in person or received in the mail by the Chief’s office by the time stated above. You may call the Chief’s office to be sure of the date. Check with your postmaster to ensure adequate delivery time or to arrange special expedited handling. If you have been contacted by the well operator and you have signed a “voluntary statement of no objection” to the planned work described in these materials, then the permit may be issued at any time.

Pursuant to West Virginia Code § 22-6A-11(c)(2), Any objections of the affected coal operators and coal seam owners and lessees shall be addressed through the processes and procedures that exist under sections fifteen, seventeen and forty, article six of this chapter, as applicable and as incorporated into this article by section five of this article. The written comments filed by the parties entitled to notice under subdivisions (1), (2), (4), (5) and (6), subsection (b), section ten of this article shall be considered by the secretary in the permit issuance process, but the parties are not entitled to participate in the processes and proceedings that exist under sections fifteen, seventeen or forty, article six of this chapter, as applicable and as incorporated into this article by section five of this article.

Comment Requirements
Your comments must be in writing and include your name, address and telephone number, the well operator’s name and well number and the approximate location of the proposed well site including district and county from the application. You may add other documents, such as sketches, maps or photographs to support your comments.

Disclaimer: All comments received will be placed on our web site http://www.dep.wv.gov/oil-and-gas/Horizontal-Permits/Pages/default.aspx and the applicant will automatically be forwarded an email notice that such comments have been submitted. The applicant will be expected to provide a response to comments submitted by any surface owner, water purveyor or natural gas storage operator noticed within the application.

Permit Denial or Condition
The Chief has the power to deny or condition a well work permit. Pursuant to West Virginia Code § 22-6A-8(d), the permit may not be issued or be conditioned, including conditions with respect to the location of the well and access roads prior to issuance if the director determines that:

(1) The proposed well work will constitute a hazard to the safety of persons;
(2) The plan for soil erosion and sediment control is not adequate or effective;
(3) Damage would occur to publicly owned lands or resources; or
(4) The proposed well work fails to protect fresh water sources or supplies.

A permit may also be denied under West Virginia Code § 22-6A-7(k), the secretary shall deny the issuance of a permit if the secretary determines that the applicant has committed a substantial violation of a previously issued permit for a horizontal well, including the applicable erosion and sediment control plan associated with the previously issued permit, or a substantial violation of one or more of the rules promulgated under this article, and in each instance has failed to abate or seek review of the violation within the time prescribed by the secretary pursuant to the provisions of subdivisions (1) and (2), subsection (a), section five of this article and the rules promulgated hereunder, which time may not be unreasonable.

Pursuant to West Virginia Code § 22-6A-10(g), any person entitled to submit written comments to the secretary pursuant to subsection (a), section eleven of this article, shall also be entitled to receive from the secretary a copy of the permit as issued or a copy of the order modifying or denying the permit if the person requests receipt of them as a part of the written comments submitted concerning the permit application. Such persons may request, at the time of submitting written comments, notice of the permit decision and a list of persons qualified to test water.

08/28/2015
STATE OF WEST VIRGINIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION, OFFICE OF OIL AND GAS
NOTICE OF ENTRY FOR PLAT SURVEY

Notice Time Requirement: Notice shall be provided at least SEVEN (7) days but no more than FORTY-FIVE (45) days prior to entry.
Date of Notice: October 24, 2014
Date of Planned Entry: Nov 3 through Dec 2, 2014

Delivery method pursuant to West Virginia Code § 22-6A-10a
Personal Service

Persuant to West Virginia Code § 22-6A-10(a), Prior to filing a permit application, the operator shall provide notice of planned entry on to the surface tract to conduct any plat surveys required pursuant to this article. Such notice shall be provided at least seven days but no more than forty-five days prior to such entry to: (1) The surface owner of such tract; (2) to any owner or lessee of coal seams beneath such tract that has filed a declaration pursuant to section thirty-six, article six, chapter twenty-two of this code; and (3) any owner of minerals underlying such tract in the county tax records. The notice shall include a statement that copies of the state Erosion and Sediment Control Manual and the statutes and rules related to oil and gas exploration and production may be obtained from the Secretary, which statement shall include contact information, including the address for a web page on the Secretary's web site, to enable the surface owner to obtain copies from the secretary.

Notice is hereby provided to:

☐ SURFACE OWNER(s)
Name: Bert W. & Alice M. Richmond

VOLUNTARY STATEMENT OF NO OBJECTION

Instructions to Persons Named on Page WW-6A
The well operator named on page WW-6A is applying for a permit from the State of West Virginia to conduct oil or gas well work. Well work permits are valid for twenty-four (24) months. Please contact the listed well operator and the Office of Oil and Gas if you do not own any interest in the listed surface tract.

Comment and Waiver Provisions
Pursuant to West Virginia Code § 22-6A-11(a), all persons described in subsection (b), section ten of this article may file written comments with the secretary as to the location or construction of the applicant's proposed well work within thirty days after the application is filed with the secretary.

Pursuant to West Virginia Code § 22-6A-8(b) No permit may be issued less than thirty days after the filing date of the application for any well work except plugging or replugging; and no permit for plugging or replugging may be issued less than five days after the filing date of the application except a permit for plugging or replugging a dry hole: Provided, That if the applicant certifies that all persons entitled to notice of the application under the provisions of subsection (b), section ten of this article have been served in person or by certified mail, return receipt requested, with a copy of the well work application, including the erosion and sediment control plan, if required, and the well plat, and further files written statements of no objection by all such persons, the secretary may issue the well work permit at any time.

VOLUNTARY STATEMENT OF NO OBJECTION

I, ______________________, hereby state that I have read the Instructions to Persons Named on Page WW-6A and the associated provisions listed above, and that I have received copies of a Notice of Application, an Application for a Well Work Permit on Form WW-6A and attachments consisting of pages one (1) through ____________________, including the erosion and sediment control plan, if required, and the well plat, all for proposed well work on the tract of land as follows:

State: West Virginia
County: Marshall
District: Clay
Quadrangle: Moundsville, WV 7.5'
Watershed: Middle Grave Creek - Grave Creek

UTM NAD 83:
Easting: 525070.86
Northing: 441581.68

Public Road Access:
CR 17 Fork Ridge Road

Generally used farm name:
Woods

I further state that I have no objection to the planned work described in these materials, and I have no objection to a permit being issued on those materials.

Subject: DOH Permit for the Woods A Well Pad, Marshall County
Woods A Unit 4H    Woods A Unit 6H    Woods A Unit 8H    Woods A Unit 12H

Dear Mr. Martin,

The West Virginia Division of Highways has issued Permit #06-2015-0161 for the subject site to Chevron Appalachia, LLC for access to the State Road for the well site located off of Marshall County Route 17 SLS.

The operator has signed a STATEWIDE OIL AND GAS ROAD MAINTENANCE BONDING AGREEMENT and provided the required Bond. This operator is currently in compliance with the DOH OIL AND GAS POLICY dated January 3, 2012.

Very Truly Yours,

[Signature]
