- 70285 Brammer, J. E. #1 Rice Oil Co. 11-19-25
due in Cow Run sand, 12-11-25 fishing at 900 ft
12-16-25 due in sand, 1-27-26 due in sand. 2-17-26
light gas er in Salt Sand
- 70286 Bright, Wm. B. #2 Howard Hall & Co. 9-3-25
through all sands, dry abandoned
- 70287 Butler, John #1 Creek Oil Co. McKim Cr. 10-19-21
Met with pleasant surprise, drilled into Big Lime,
gas rather than oil was expected and when drilled
into Big Lime the hole filled up 1400 ft with fluid
estimated good for 25 to 50 bbls. a day. Some
distance in advance of production but Big Lime is
not considered a reliable producing formation. 10-23-21
owing to well caving they will have to put in more
casing before making a test.
- 70288 Campbell Estate #1 Brinkheimer & Co. Crooked Run 2-15-22
gasser capacity of 1,000,000 cup ft. a day. 2-25-22
fair gasser in salt sand. 3-3-22 salt sand gasser
with capacity of 1,000,000 cu. ft. 3-17-22 gas
