MONUMENT VARIANCE

The Office of Oil and Gas ON 9/28/16 IS granting a general variance to the requirements under 35CSR4-5.5b of erecting a monument upon the plugging of certain wells. If granted, the following conditions will be met:

- 1) the well will be surveyed and a plat constructed as required under 22-6 of the WV Code and 35CSR4,
- 2) a readily visible, permanent offset marker, in as close proximity as reasonably possible, will be erected and will provide distance and bearing information to the plugged well,
- 3) the plugging affidavit (form WR-38), will document the absence of a monument at the well location and document the existence and location of the offset marker,
- 4) a steel plate no smaller than one square foot shall be affixed to the well casing no deeper than three feet below the ground surface and be inscribed with the api number of the well.

To qualify under the general variance, an operator may make a variance request to the Chief of the Office of Oil and Gas for a specific well(s) in conjunction with a showing of good cause by the surface owner.

Subject: Offset Monument Variance Request

We are presently active plugging the BLM wells up in Grant and Pocahontas Counties. The folks at the Monongahela Forest Service have requested we use offset monuments for the two wells in Pocahontas County.

They are:

Well # 823952, MNF 1, 47-075-00048

Well # 824478, MFN 15, 47-075-00051

Please accept this letter as a request for Variance to use an offset marker as the monument.

WADE,
PLEASE ISSUE
