Formation	Color	Hard or Soft	Top	Bottom	Oil, Gas or Water	Depth Found	Remarks
<p>I have no record of this well only from Mr. W. O. Jucas who worked on it. He having an interest in it when the wells were drilled in 1914</p> <p>He told me the well was drilled through the Big Injun Sand and was dry in it. Hole was filled up to the bottom of the Maxton Sand where the gas was and the packer leaked and it was cemented.</p>
