WELL LOCATION MAP

File No. - 70297

P. 163 Co RPT

Down the creek on the north side are the wells of the Bando Oil Co., of Baltimore, and the following records of these wells were furnished by Mr. A. J. Price for many years field manager. The order of the wells passing down this run are 5, 4, 2, 1, 3 in the creek bottom, while Nos. 7, 8, 9 are on the hill to the north. The first well drilled, No. 1, flowed 204 barrels the first twenty-four hours and at present time is producing sixteen barrels daily (see plate VI). The Salt sand of these records is the Cairo salt sand above the Big Lime and therefore represents the Maxton sand.
