

JOHNSON NO. 2 WELL.

70007
Gal. No. 382A (449)

Union District, Tyler County, W. Va.
Howard Hall, St. Marys, W. Va.
Elevation, 840'.

*No Location
Found*

Oil well.
On Wells Run.
DRILLING (1931?)

Cow Run Sand (oil, 830-838')

Top. Bottom.
830 - 838 + ?

Pay throughout the entire 18' of sand.
This production is in an old pool of Cow Run Sand.
Little can be had from the records kept. Initial
production ranged in the early wells from 250 to
10 bbls. The highest production recorded from a
recent completion has been 8 bbls. Repressuring
is planned in the future.

Little drilling has been done to the Big Injun
Sand below. Salt Sand might also carry good quantities
of oil in this area. Water is brackish and the average
production is 1 bbl. per day.
