

Meade District, Tyler County, W. Va.
 Barry, Middlebourne, W. Va.
 Elevation, 1025'.
 Oil well.

70110

*no location
 found*

	Top.	Bottom.
Big Injun Sand (pay, 2006')		
Total, in sand		2021

DEPTH AND THICKNESSES AS ESTIMATED FROM NO. 386:

Keener Sand	1925 - 1960
Big Injun Sand	1960

Pay in adjoining wells is approximately 50 feet from the top of the Big Injun. Thus the top of the Injun would be 1956 in this well. No other record is available for any of these three wells on the Doak lease.

COMPUTED FROM NO. 386:

There is 45 feet of Big Injun above the pay with 38 feet of Keener Sand to the base of the Big Lime. Then the top of the Keener which is the point from which the elevations are taken would be approximately 1925 feet below the surface in the Doak No. 6.
