HUNTINGTON 9, WEST VIRGINIA

August 27, 1955

Mr. C. N. Hall Administrative Assistant OIL AND GAS DIVISION Department of Mines Charleston, West Virginia

Dear Senator:

We have not sent in a record of the Well drilled under WAY-947 because we had in mind to drill it deeper. The Well has now been drilled as deep as we contemplate and as soon as we get the record from the contractor we will make our reports.

There is evidently some confusion as to our Well numbers. The first Well we drilled on Camp Creek was drilled on the Ernest Sanders Lease, the second well was drilled on the Dyer Lease and the location sent to you recently will be our third well but will be number two on the Dyer Farm.

Yours very truly,

WAYLIN OIL COMPANY

David Fox

oc/Mr. O. C. Allen, Inspector, Wayne, W.Va.

August 29, 1955 Mr. David Fox Waylin Oil Company 1019 Seventh Avenue Huntington, West Virginia Dear Mr. Fox: We acknowledge receipt of your letter of August 27, advising us that you will send record of the completion of your Well No. 2 on the Ernest Sanders Lease as soon as you can obtain it from your contractor. We must ask that you obtain this information without delay and it is long past due, since permit WAY-911 for the Sanders Well was issued March 8, 1954 and we feel sure your contractor will be glad to furnish the information at this time. We were lenient in the case of record for your Well No. 1 on the Elisha McCoy Farm, Laurel Hill District, Lincoln County on the basis that you would send it when you could obtain the necessary data from your contractor but to this date, we have never received it. It seems that in this case, the righ was moved 30 feet from the original location without notice to the Department, drilled to 400 feet and filled up, all without any notice to us. We will greatly appreciate your cooperation, at this time, in sending the completion log for the Sanders Well so that permit for your No. 3 location, need not be delayed. Very truly yours, Administrative Assistant OIL AND GAS DIVISION MG:g cc: Mr. O. C. Allen, Inspector 02/02/2024 WAYLIN OIL COMPANY
1019 SEVENTH AVENUE
HUNTINGTON 9, WEST VIRGINIA
September 8, 1955

Mr. C. N. Hall
OIL & GAS DIVISION
Department of Mines
Charleston, West Virginia

Dear Mr. Hall:

We have your letter of August 29th and there seems to be some confusion someplace along the line as our records indicate that we have already sent you a Well Log for WAY-911 to which you refer in the first paragraph of your letter. In our letter of August 27th we tried to explain that the first well we drilled on Camp Creek was on the Ernest Sanders Lease, the second well on the Dyer Lease and the location which we recently applied for is #2 Dyer or the third well we have drilled. To explain a little further, and we hope we do not add to the confusion, United Fuel Gas Company drilled Well #1 on the Ernest Sanders Lease and encountered oil which we took over and this is our Sanders' Well #1. However, we did not drill the well as the permit was issued to United Fuel Gas Company. We then drilled a second well on the Ernest Sanders Lease, WAY-911 and have recently completed the first well on the Dyer Lease #WAY-947 for which we enclose log. Our delay in sending the log was that, as you know, lime wells are very erratic and sometimes quite producing shortly after they are drilled in and we therefore wanted to wait to see if the well diminished sufficiently so that we could continue drilling deeper. This we did about two weeks ago and now find that the well is acceptable as a producer and we are therefore enclosing log. We trust that you will issue permit for the #2 Dyer Well at your early convenience.

Yours truly,

WAYLIN OIL COMPAN

Mr. C. W. Hall Oll & CAS DIVISION Department of Mines Charleston, West Virginia

Dear Mr. Hall:

We have your letter of August 29th and there seems to be some confusion someplace along the line as our records indicate that we have already sent you a Well Log for WAY-911 to which you refer in the first paragraph of your letter. In our letter of August 27th we tried to explain that the first well we drilled on Camp Greek was on the Ernest Sanders Lease, the second well on the Lyer Lease and the location which we recently applied for is & Eyer or the third well we have drilled. To explain a little further, and we hope we do not add to the confusion, United Fuel Cas Company drilled Well on the Breest Sanders Lease and encountered oil which we took over and this is our Sanders' Well Al. However, we did not drill the well as the permit was issued to United Fuel Gas Company. We then drilled a second well on the Eruest Sanders Lease, WAY-911 and have recently completed the first well on the Dyer Lease HAY-947 for which we enclose log. Our delay in sending the log was that, as you know. Lime wells are very erratic and sometimes quite producing shortly after they are drilled in and we therefore wanted to wait to see if the well digitized sufficiently so that we could continue drilling deeper. with we did about two weeks and and rind that the well is acceptable as a producer and we are therefore enclosing log. We trust that you will issue penuit for the "2 Byer Well at your early convenience.

Yours truly,

MAYELN OIL COMPANY

David Fox

August 26, 1955

Waylin Oil Company 1019 Seventh Avenue Huntington, West Virginia

Att: Mr. David Fox

Gentlemen:

Please send us two copies of the well record for the following locations:-

| PERMIT NO. | PARM | WELL NO. | DISTRICT | PERMIT ISSUED |
|------------|-------------|-----------|-----------|---------------|
| WAY-947 | Alfred Dyer | F-1-Sr. 3 | Stonewall | Nov. 8, 1954 |

This information will have to be filed before permit for the No. 3 Well on this tract, can be issued. We would also appreciate your advising us why the present location is for Well No. 3 since there has never been a request for permit to drill Well No. 2.

Forms 0G-10 are enclosed.

Very truly yours,

Administrative Assistant OIL AND GAS DIVISION

MG:g

cc: Mr. O. C. Allen, Inspector
