Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

Gentlemen:

On Oct 8th 1938 you issued a plugging permit to us covering well No 1 on the J. H. Monroe farm in Crocker District, Wetzel County, W. Va.

After we wrote for the permit we decided to drill the well deeper, which we did, drilling it from 560 ft to 630 ft, at 620 to 625 ft we got a light gas well, we saved this and turned it into the line, it is now exhausted and we ^{now} wish to pull and plug the well.

What we would like to know whether the plugging permit which we already have covering this well is sufficient, or whether we will have to get another, please advise.

Yours very truly.
