PROPOSED LOCATION

Grant District

Wetzel County

Well No. 29 - D. D. 39' 30'
80' 30'

L. G. Robinson Farm

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated March 23, 1892, made by L. G. Robinson and J. S. Robinson, her husband, to South Penn Oil Company, and recorded on the -- day of -----, in the office of the County Clerk for said County in Book 36, page 247.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address ----- day ----- before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,
SOUTH PENN NATURAL GAS COMPANY,

Well No. 29 - D. D. 20 - 20

Farm

L. G. Robinson

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for

oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated

March 28, 1882 made by L. G. Robinson and J. S. Robinson,

her husband, to South Fern Oil Company

and recorded on the _____ day

of _____ in the office of the County Clerk for said County in

Book 36 page 247

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Mineral District and County above named, determined by survey and courses and distances from two permanent points or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundary of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by or filed with the Department of Mines within ten days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective addresses _____ day before _____ or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

PROPOSED MANNER OF PLUGGING AND FILLING WELL

(REQUIRED BY RULES AND REGULATIONS)

WEST VIRGINIA DEPARTMENT OF MINES

OIL AND GAS DIVISION

WORK ORDER

Well to be plugged and filled as follows:

- Total Depth 3265'.
- Fill hole with stone and red clay, 3265' - 2940', - Bottom Stray Sand.
- Set 5-3/16" X 3' wood plug 2940' - 2937'.
- Fill with non-porous material 2937' - 2927'.
- Set cement plug 2927' - 2917'.
- Pull 5-3/16" casing, - 2943', - (2913' Steel line). As hole is filled and plugged.
- Bridge hole 2394', - Bottom Big Injun Sand.
- Set 5-3/16" X 3' wood plug 2394' - 2391'.
- Fill with non-porous material 2391' - 2361'.
- Set cement plug 2361' - 2351'.
- Fill with non-porous material 2351' - 2293'.
- Set 6-5/8" X 3' wood plug 2293' - 2290'.
- Fill with non-porous material 2290' - 2280'.
- Set cement plug 2280' - 2270'.
- Pull 6-5/8" casing, - 2260' to 850', - 20' above Pittsburgh Coal.
- Bridge hole at 2155', - 20' in Big Lime.
- Fill with stone as part of bridge 2155' - 2145'.
- Set cement plug 2145' - 2135', - top of Big Lime, sealing all paying formations below. (Cement to be dumped with bailer). Salt Sands should be filled approx to 1500'.
- Bridge hole at 920', - 50' below Pittsburgh Coal.
- Fill with rock as part of Bridge 920' - 900', - 30' below Pittsburgh Coal.
- Cement hole 900' to 850', - 20' above Pittsburgh Coal, - (Dump with bailer).
- Pull remainder of 6-5/8" casing, - 850'.
- Fill hole solid with non-porous material, 850' to surface.

Note: In event the 6-5/8" casing will not pull, as it is the outside string of casing in this well except 734' of 8 1/4" casing which was parted and left in when the well was drilled and not worth while to try and fish out as there was 655' pulled out at that time. Cut 6-5/8" casing at various depths until it will pull. Special attention is called to the fact that this pipe must be cut at 920' and tried earnestly to pull, then if the pipe will not pull at this depth or any of the preceding cuts, proceed with the bridging, filling and cementing of the coal inside of the 6-5/8" casing the same as set out above, then cut and try until pipe is freed and will pull.

Erect monument in accordance with Rule 18, 1931 Regulations.

All to be done in workmanlike manner, and the complete abandonment outfit is to be left intact until job is completed.

By *Edwin Young* Land Agent. Well Operator.

No objections have been filed by the coal owner or coal operator, or any available adjacent lease or property owners or interposed by the Department of Mines to the manner herein described for the plugging and filling of the well above mentioned. Therefore, the same is hereby approved this

6th day of July, 1944.

10/06/2023

DEPARTMENT OF MINES Oil and Gas Division

By: _____

NOTE: This "work order" shall be filed in triplicate, one copy for the files of the Department of Mines; one to be approved or corrected and returned to the well operator as his authority for plugging said well; and one for the well inspector.
