and recorded on the 22 day

Book 12 A, page 410

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators (if any) above named as addressees.

The above named coal operators (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Act, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above

named coal operators at their above shown respective address day before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Mr. S. W. Meals, President,

Pittsburgh, Pa.

My dear Mr. Meals:

Confirming my conversation over the telephone this morning with your Mr. Applegate, I regret to advise you that we have been unable to determine the present owner of the Pittsburgh coal under the Alice Edgell farm of 200 acres, located in Church District, Wetzel County, West Virginia.

I checked up with Mr. Johnson, of the Mellon National Bank, as to whether J. M. Guffey owns this coal, but he was unable to so determine.

The map which accompanied your letter is being returned herewith.

If there is anything further you desire us to do in this matter, please communicate with me.

Very truly yours,
