Gentlemen:

We have not filed log and data sheet for Well # 31 on the A. A. Kellar Heirs farm because we are not yet able to give a complete record.

The well was drilled into the sand (Cow Run) in November, 1947, and started 15 barrels natural in that sand. The well was not cased low enough and in order to obtain casing we had to pull some old wells in Ohio. In the meantime, we have been pumping the well and have shot it this week and will finish it up within the next two weeks, at which time we will furnish you with the complete record.

The permit number is WOO-239.

Yours very truly,
The Henderson Oil Company
