_____	<u>1421 19th Street Parkersburg, W. Va.</u>
ADDRESS	COMPLETE ADDRESS
_____	<u>July 20, 1950</u> , 19__
COAL OPERATOR OR COAL OWNER	PROPOSED LOCATION
_____	<u>Steele</u> District
ADDRESS	_____ County
_____	<u>Wood</u> County
OWNER OF MINERAL RIGHTS	Well No. <u>1</u> ^{39° 05'} _{81° 35'}
_____	<u>Delbert and Clara V. Morris</u> Farm
ADDRESS	

GENTLEMEN:

The undersigned well operator is entitled to drill upon the above named farm or tract of land for oil and gas, having fee title thereto, (or as the case may be) under grant or lease dated July 10, 1950

made by Delbert & Clara V. Morris, his wife, to W. V. Proper and Everett Brown & Hester Brown, his wife, and recorded on the 13th day of July, 1950, in the office of the County Clerk for said County in Book 334, page 252.

The enclosed plat was prepared by a competent engineer and shows the proposed location of a well to be drilled for oil and gas by the undersigned well operator on the farm and in the Magisterial District and County above named, determined by survey and courses and distances from two permanent points, or land marks.

The undersigned well operator is informed and believes there are no coal operators operating beds of coal beneath said farm or tract of land on which said well is located, or within 500 feet of the boundaries of the same, who have mapped their workings and filed their maps as required by law, excepting the coal operators or coal owners (if any) above named as addressees.

The above named coal operators or coal owners (if any) are notified that any objections they may desire to make to such proposed location, or which they are required to make by Section 3 of said Code, if the drilling of a well at said proposed location will cause a dangerous condition in or about their respective coal mines, must be received by, or filed with the Department of Mines within ten* days from the receipt of a copy of this notice and accompanying plat by said Department. Said coal operators are further notified that forms for use in making such objections will be furnished to them by the Department of Mines promptly on request and that all such objections must set forth as definitely as is reasonably possible the ground or grounds on which such objections are based and indicate the direction and distance the proposed location should be moved to overcome same.

(The next paragraph is to be completed only in Department's copy.)

Copies of this notice and the enclosed plat were mailed by registered mail, or delivered to the above named coal operators or coal owners at their above shown respective address _____ day before, or on the same day with the mailing or delivery of this copy to the Department of Mines at Charleston, West Virginia.

Very truly yours,

Address of Well Operator }

Mr. W. V. Proper
1421 19th Street
Parkersburg, West Virginia

Dear Sir:

We are in receipt of your application and tracing for drilling Well No. 1 on the Delbert and Clara V. Morris Farm, Steele District, Wood County, however the map is not correct and is made by an engineer that is not registered.

If, Mr. W. E. Banton can get a registered engineer to sign with him on this tracing, it will be accepted by the department after a few corrections are made thereon. A sample map is enclosed for guidance.

The names of the property owners adjoining the Morris tract, should be given. Any streams or roads coming within scope of the map, should be given. Also, have the engineer place the cross in accordance with the note at bottom of tracing and change the latitude and longitude to correspond with this notation.

Tracing is enclosed.

Very truly yours,

Administrative Assistant
OIL AND GAS DIVISION

July 28, 1950

Mr. W. V. Proper
1421 - 19th Street
Parkersburg, W. Va.

Dear Sir:

We are again returning tracing for correction. Please refer to the last paragraph of our letter of July 24th in which we requested that latitude and longitude figures be changed.

If your engineer will refer to the sample map enclosed, he will note that the upper, right-hand corner refers to the latitudinal and longitudinal position in the Madison Quadrangle in which that particular well is located and from this point, the location of the well is determined and indicated by the "cross". In other words, the cross should be located within the five-minute interval of the topo map in which the location of the well is actually located. The cross shows the exact location

We are not able to determine accurately because there are no streams named, but it seems to be within latitude 39 deg., 05 min and longitude 81 deg., 35 min and the cross located approximately below the word "latitude" on the tracing.

Please return corrected as soon as possible.

Very truly yours,

Administrative Assistant

Mr. O. C. Howard, Inspector
Oil and Gas Wells
P. O. Box 104
Grantsville, W. Va.

Dear Mr. Howard:

Mr. W. V. Proper has advised us that he never drilled Well No. 1 on the Delbert and Clara V. Morris Farm, Steele District, Wood County for which we issued permit WOO-330 August 3, 1950. The well is located on Bear Run.

Some time when you are in Wood County checking operations, please see if the report from Mr. Proper is correct and let us know.

Very truly yours,

Administrative Assistant
