<p>Above well equipment was purchased in July, 1948, by Dofny & Kinkade, Casing Pullers, of Room #212, 1st Nat'l Bk Bldg., Marietta, Ohio. We have endeavored to secure well record, but because of the date the well was drilled (1900), we have been unsuccessful. Apparently there was no log maintained, other than measurements of Berea Sand. The amount of casing and location of sands, to prepare application to abandon and plug this well, was determined from the location of sands in other wells adjacent to these, for which well logs were available.</p>
