

Figure Des-6. Generalized stratigraphic section showing the sequence and approximate correlation of major drillers' units in the subsurface of western Pennsylvania and northern West Virginia. Pennsylvania correlations taken largely after Fettke (1938b), Dickey and others (1943), Wolfe (1963), and Harper and Laughrey (1987). West Virginia correlations after Cardwell (1982a), Filer (1985), and Boswell and others (1987). Far left column shows terminology introduced by Kelley and Wagner (1970).
