

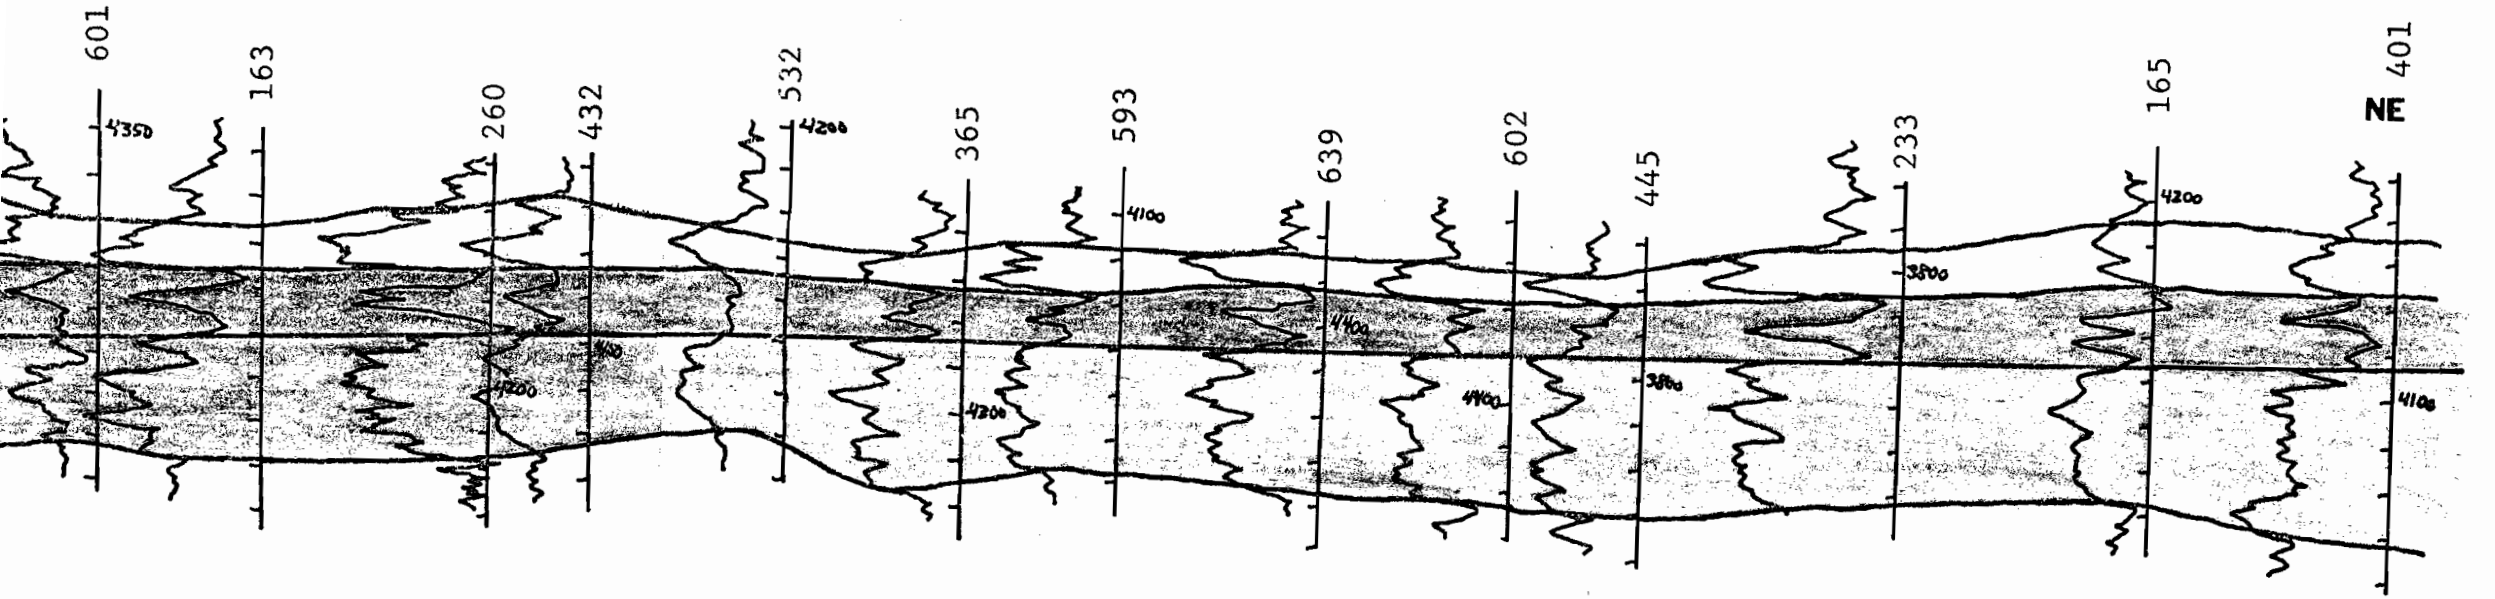

Figure 23. Stratigraphic cross section D-D' showing the gamma-ray log correlation of the three units of the Benson zone based on the bottom of the middle shaly interval as a datum. Numbers listed are well permit numbers. Depths on the vertical scale are drilling depths.

Benson sand zone

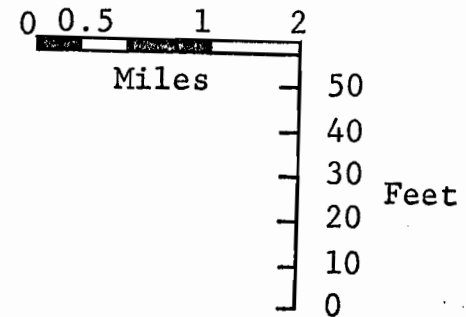

- U
- M
- L

D'

D-D' showing the gamma-ray logs of the Benson zone and the shaly interval as a function of well numbers. Depths on gamma-ray logs.

- Benson sand zone
- Upper sand
 - Middle shaly interval
 - Lower sand

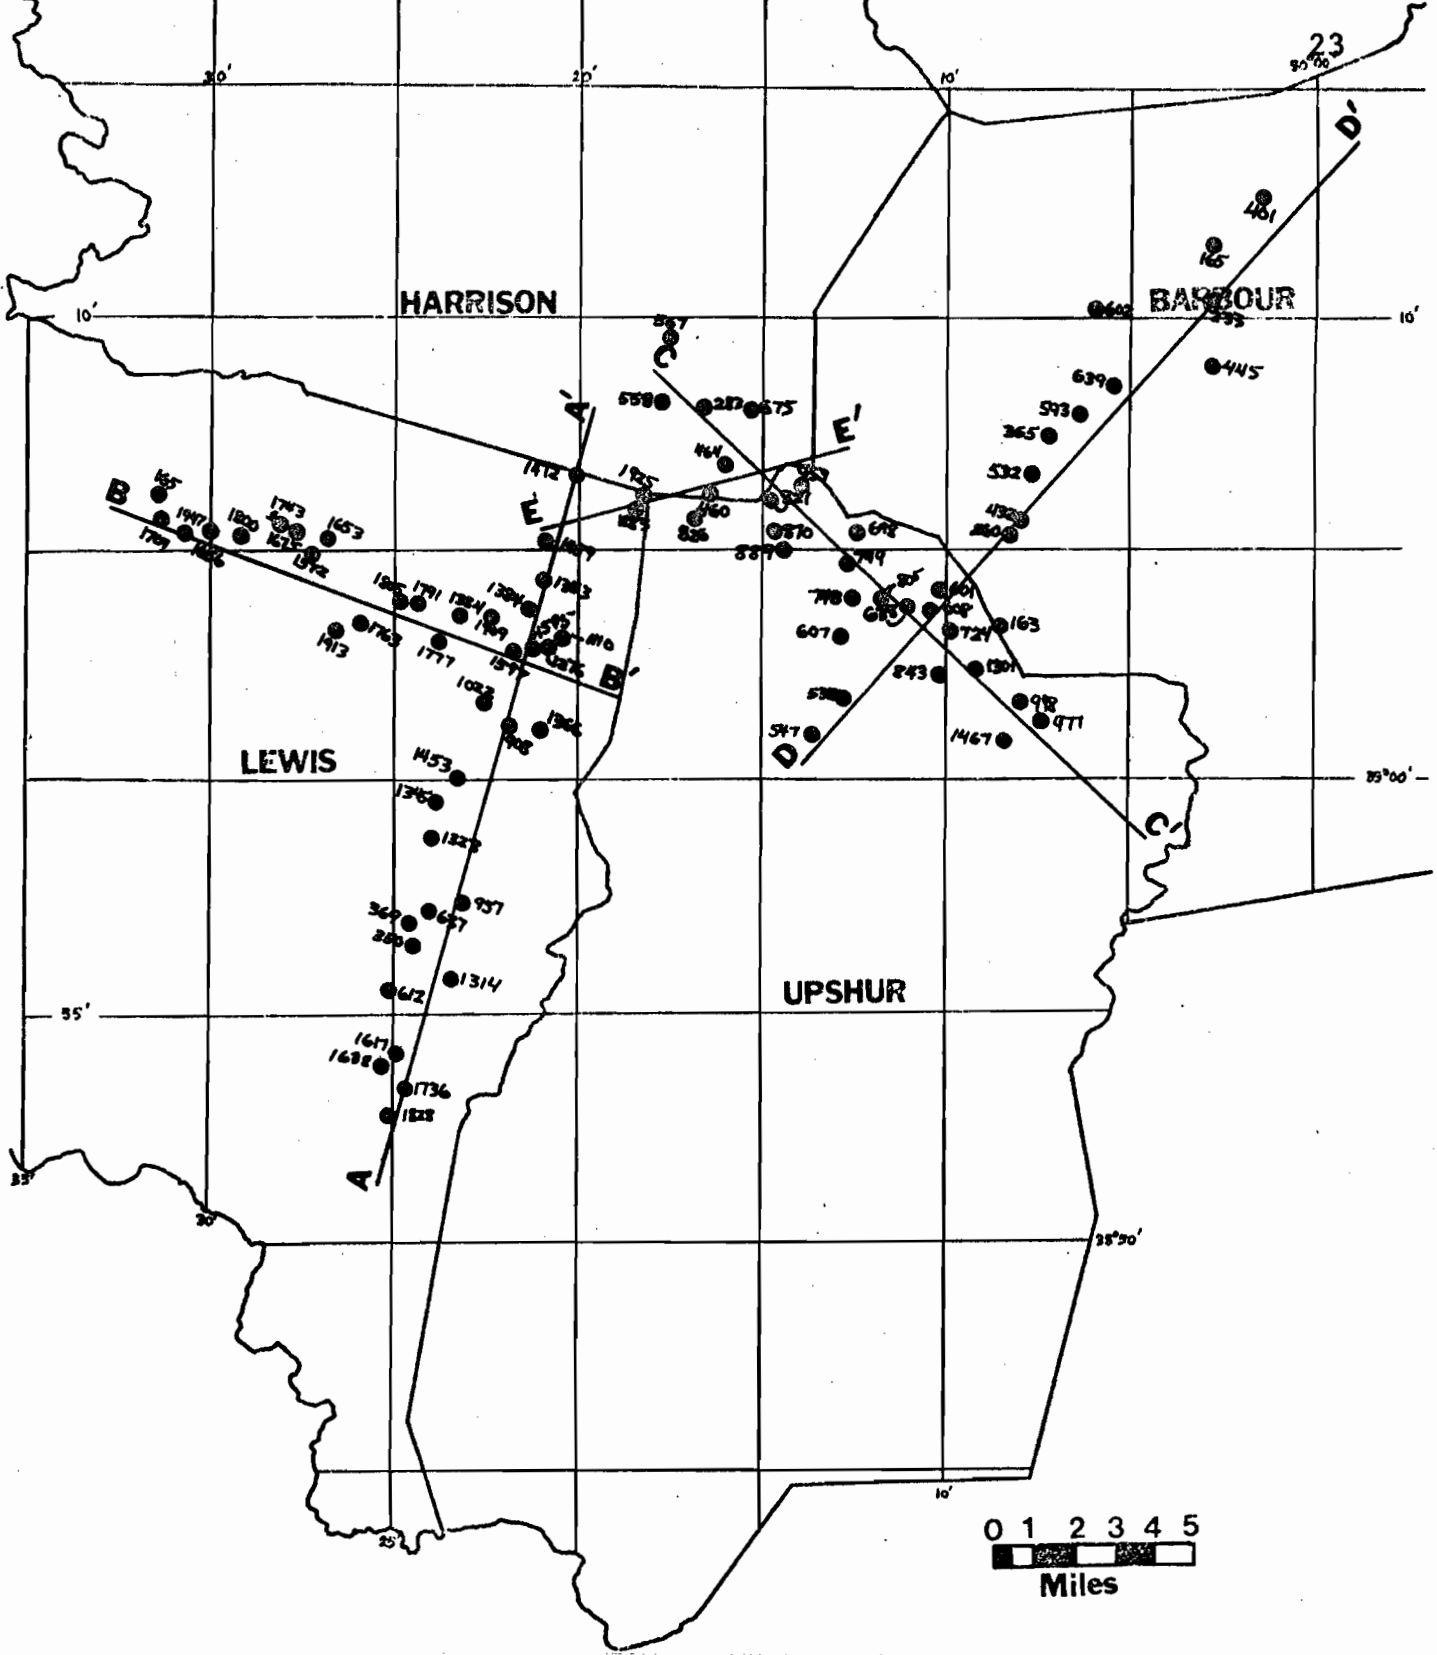

Figure 4. Stratigraphic cross section locations (solid lines), dots and accompanying well permit numbers indicate wells used in cross sections.
