Bottom of hole.....	905

In the summer of 1908 a very productive oil pool was opened about two miles southwest of St. Marys near French creek on the Shippeau and Cook farms. Out of nine wells drilled by the Everson Oil Co., eight were good producers. The following record of the 300 barrel well on the Cook farm has been furnished by Mr. M. W. Everson, president of the company:

30404

E. H. Cooke Well No. 21.

	Feet.
